

WATER WISE LANDSCAPING

More Color with Less Water

For gardeners who are torn between having a colorful garden and feeling guilty about water usage, the Metropolitan Water District of Southern California (MWD) has solved your dilemma. For Internet users, check out their website at www.mwdh20.com for "Water-Wise Landscaping." For those gardeners who still like to research the old fashioned way by paging through their copy of the Western Garden Book, check out the species list to the right:

Species List:

Arbutus unedo
(Strawberry Tree)
Artemisia 'canyon grey'
(California Sagebrush)
