RANCHO PALOS VERDES

MEMORANDUM

TO: HONORABLE MAYOR AND CITY COUNCIL
FROM: CAROLYNN PETRU, ACTING CITY MANAGER
DATE: FEBRUARY 18, 2015
SUBJECT: WEEKLY ADMINISTRATIVE REPORT

NEW CITY “RPVCA.GOV” EMAIL TRANSITION BEGINNING FEBRUARY 20, 2015

The City is beginning the transition to our new email addresses starting this Friday, February 20th. City Council, Commission, Department and Staff emails will all begin to be sent from “@RPVCA.GOV”. The change likely won’t be noticed by the sender. If the recipient replies, the email will automatically be sent back to the “@RPVCA.GOV” address. Email sent to the previous “@RPV.COM” will continue to be forwarded to the new email addresses for the foreseeable future, but we ask that anyone communicating with any City Officials or Staff change their email contact list from “@RPV.COM” to “@RPVCA.GOV” addresses so they are prepared in advance of the eventual switchover.

The website domain is also changing from “www.rpv.com” to “www.rpvca.gov” and in fact can be accessed from the new “www.rpvca.gov” address now. Pending the switch to the new website on March 16th, you will notice that the contact information posted on the website will be switched over to the new “@rpvca.gov” addresses.

WEBSITE IMPLEMENTATION PROGRESS

Work is continuing on the City’s new website with an expected go-live date of March 16, 2015. The design is complete and staff are reviewing and editing the content to make sure everything is up to date. Designed to provide easier navigation, the website should help residents connect with needed services, keep in touch with their elected and appointed officials, and stay abreast of special community events and programs. Below is a preview of the new home page:

The top navigation bar will include the following sections:

- **Government** – Highlights the various elected officials and boards and commissions that serve residents.
- **City Services** – Allows residents to quickly find information by the type of service rather than the City Department that handles it.
- **Community** – Provides links to the happenings and recreational activities in and around our community.
- **City Departments** – Directly links to each department, and a handy staff directly that has the telephone for most City full-time staff.
- **Transparency** – Provides a single portal so that all information is available in one easy to find place and assures residents that City Hall and their elected officials are working for them.

The site also has buttons that always appear at the very bottom of the page for quick access to:

- **City Notifications** – The place where the public can sign up for electronic alerts, much like the previous list serve.
- **City Service Requests** - Allows residents to contact various City Departments. We are expecting an upgrade to this system to allow increased functionality through a new portal that also provides apps for your telephone.
- **Employment** – Shows City recruitments and will eventually allow for electronic job application submittals.
- **Current Projects** – Directly links to a listing of the important and/or large projects going on in the City that residents might want to follow.
- **RPVtv** – Highlights the City's cable television channel and production studio. We have future plans for a better way to see the City's original local programming.
- **Agendas & Video** – Provides a link right to live and archived City Council and Planning Commission meetings.

The City staff has been working very hard on getting the new website ready for its debut next month. We look forward to hearing feedback from the City Council and the public on the new site regarding the new look and functionality.

FILMING ACTIVITY ON PALOS VERDES DRIVE SOUTH ON FEBRUARY 24TH

Over the past few months, Staff has been in discussions with the location manager for a major feature film by Joel and Ethan Coen about filming scenes in the City. The production filed an application last week to film in the City next Tuesday, February 24th.

The Coen brothers' new film, "Hail, Caesar" is a period piece set in 1950s Hollywood. The scenes proposed would be driving shots in the eastbound lanes of Palos Verdes Dr. S. between Terranea Way and the entrance to the Point Vicente Interpretive Center (PVIC). To achieve a period-correct look, modern traffic signs and pavement markers will be removed or masked to give the appearance of a 2-lane coastal highway in the 1950s (the City will be doubling for Malibu in these scenes). Two (2) of the driveway entrances to Pelican Cove Park will also be temporarily blocked and "dressed" with prop foliage and/or

fences. To accommodate these driving shots, all traffic on Palos Verdes Dr. S./Palos Verdes Dr. W. between Terranea Way and Hawthorne Blvd. will be diverted into the westbound/northbound lanes (similar to the road closures for last year's Palos Verdes Half-Marathon). The road closures is expected to begin between midnight and 1:30 AM on Tuesday, February 24th and continue throughout the day. Filming in the roadway is expected to be done by 7:00 PM, with the roadway re-opened to traffic sometime between 9:30 PM and midnight. The Public Works Department has reviewed the traffic control plan for this film shoot, and expects to issue the encroachment permit today. Public Works Staff will be responsible for the removal and replacement of traffic signs, which will be paid for by the production. In the event of inclement weather, these scenes would be filmed on Wednesday, February 25th.

In order to provide as much advance notice to motorists as possible, reader boards will be posted on Hawthorne Blvd., Palos Verdes Dr. S. and Palos Verdes Dr. W. by Wednesday, February 18th (or sooner). The production company has been in contact with the Terranea Resort and Staff is not aware of any conflicting events or activities at PVIC or the Golden Cove shopping center on the 24th. The Coast Guard has been notified so that its personnel stationed at the Point Vicente lighthouse will be aware of the lane closures. PV Transit and Metro will also be advised of the lane closures since they may affect bus schedules. For additional public notification, Staff will be posting this item on the City's Facebook and Nextdoor pages, and sending it to Breaking News listserve subscribers.

In addition to filming on Palos Verdes Dr. S., the production will also be filming "plate shots" for photographic special effects at Abalone Cove Shoreline Park on the 24th. These shots will involve a small crew and only a couple of cameras. Filming in or near the City's Nature Preserve at Abalone Cove will be in accordance with Public Use Master Plan (PUMP) guidelines. Recreation & Parks Staff members will be assigned to monitor filming at both Abalone Cove Shoreline Park and at Pelican Cove Park, which will also be paid for by the production. The production may also be using the overflow parking lot at City Hall for cast/crew parking.

For questions about filming in the City, please contact the Film Permit Desk at (310) 544-5226 or film@rpv.com.

PENINSULA REGIONAL LAW ENFORCEMENT CRIME STATISTICS

Attached for the Council's information are pertinent excerpts from the statistics presented at the Peninsula Regional Law Enforcement Committee meeting held on February 12, 2015. The data is for the fourth quarter of 2014 (October through December).

Unfortunately, the fourth quarter in 2014 showed a 25% increase in Part I crimes, particularly in the areas of residential burglaries (65%), other structure burglaries (180%) and vehicles burglaries (33%). The trend has continued from the third quarter of criminals going to the backs of homes and smashing windows and sliding glass doors to gain entry. Suspects are also continuing to use late model high end luxury

cars (BMW, Mercedes Benz) with paper plates to stake out neighborhoods. Part II crime rates are slightly down compared to last year.

Attachments:

Part 1 Crime

Law enforcement agencies across the county use the FBI's Uniform Crime Reporting (UCR) system to collect and report crime statistics. Part 1 crimes consist of the eight most serious offenses including homicide, rape, robbery, aggravated assault, burglary, larceny theft, motor vehicle theft and arson.

Part 2 Crime

Part 2 crimes include 22 categories of offenses ranging from simple assaults to vagrancy.

Traffic Statistics

Please note that the "Traffic Enforcement Index" is a ratio of the number of hazardous traffic citations issued to the number of injury collisions. An index higher than 20 is considered to be good.

Sheriff Response Time Performance

The Sheriff's goals for response times are under 7 minutes for Emergency Calls, under 20 minutes for Immediate Calls and under 1 hour for Routine Calls.

Ambulance Response Statistics

The ambulance company's goal for response times is 90% under 9 minutes.

MEMORANDUM

RANCHO PALOS VERDES

TO: CAROLYNN PETRU, ACTING CITY MANAGER
FROM: KATHRYN DOWNS, ACTING DIRECTOR OF FINANCE *AK for KD*
DATE: FEBRUARY 18, 2015
SUBJECT: WEEKLY ADMINISTRATIVE REPORT

MAILING OF UTILITY USER TAX (UUT) REFUND CLAIM FORM

As a reminder, the Claim Form was mailed to all City residents on February 5, 2015. It offers residents four (4) refund options. Along with the Claim Form, residents received a Claim Notice providing answers to common questions as well as the choice to receive the Claim Form in a language other than English.

To date, Staff has received only a few calls from residents, whose primary questions are regarding the Claim Form's validity and the location of the Utility Users Tax on their phone bill.

The Claims Administrator has developed a dedicated website for residents to use at www.RanchoPalosVerdesUUTRefund.com that offers the claim documents electronically and the opportunity to submit the Claim Form online. In addition, residents can mail or fax in their Claim Form. The deadline to complete the Claim Form is August 5, 2015.

PUBLIC WORKS CHOA PRESENTATION

Wednesday evening February 18 the Public Works Department will be making a presentation to CHOA regarding the status of the RPV capital improvement program and the implementation of the infrastructure management plan. A copy of the presentation is attached.

**FY12-13 & FY13-14 RESIDENTIAL STREETS REHABILITATION PROJECT,
AREAS 1, 5B, & 9: CONSTRUCTION CONTINUES**

Construction continues this week in Area 1, focusing primarily on the repair of damaged sections of concrete curb and gutter as shown in the photos below. The continued patience and cooperation of the public is greatly appreciated during this period of inconvenience. Any questions or concerns should be directed to the Public Works Department at 310-544-5252. Additional information is also available on the project website at:

http://palosverdes.com/rpv/publicworks/FY12_13_14_residential_rehab_project/index.cfm

Concrete Repair on Basswood Ave near Mossbank Dr and the Shoreview Dr cul-de-sac

VANDALISM/DUMPING PREVENTION

The Maintenance Division has purchased a motion activated game camera to be used in areas which have been experiencing vandalism and unauthorized dumping. The camera is capable of taking night photos and video with an infra-red flash. The camera will be deployed initially in Eastview Park to deter and identify individuals who are using the park as a dump site. Future use will include those locations which are frequently tagged by graffiti artists and trails where unauthorized activity is taking place.

TO: CAROLYNN PETRU, ACTING CITY MANAGER

FROM: JOEL ROJAS, COMMUNITY DEVELOPMENT DIRECTOR *ARR FOR JR.*

DATE: FEBRUARY 18, 2015

SUBJECT: WEEKLY ADMINISTRATIVE REPORT

CALIFORNIA COASTAL COMMISSION'S APPROVAL OF LOCAL COASTAL SPECIFIC PLAN AMENDMENT

On November 4, 2014, the City Council adopted a Negative Declaration, making certain environmental findings related to adopting a text amendment to the Local Coastal Specific Plan (LCP), to allow flag poles up to 70' in height under specific conditions in the City's Coastal Zone. Last Thursday, the California Coastal Commission unanimously approved an amendment to the City's LCP, allowing flagpoles in the City's Coastal Zone to exceed the 16' height limit (up to 70-feet in height) subject to specific conditions (see attached Coastal Commission Staff Report). The Community Development Director Joel Rojas and Trump National's Attorney Jill Martin were both present at the Coastal Commission hearing in Pismo Beach for any questions. Now that Coastal Commission has approved the LCP amendment, the Trump organization will need to submit a new Coastal Development Permit application to approve its 70-foot tall flag pole, which will be presented to the City Council at a future date.

PLANNING COMMISSION AGENDA

Attached is the "Draft" Agenda for the Planning Commission meeting on February 24, 2015.

**Th25c**

January 28, 2015

TO: Commissioners and Interested Persons

FROM: John Ainsworth, Senior Deputy Director
 Charles Posner, LCP Supervisor
 Zach Rehm, Coastal Program Analyst

SUBJECT: Major Amendment Request No. 1-14 (LCP-5-RPV-14-0843-1) to the City of Rancho Palos Verdes Certified Local Coastal Program. For public hearing and Commission action at the Commission's February 12, 2015 meeting in Pismo Beach.

SUMMARY OF LCP AMENDMENT REQUEST NO. 1-14

The Coastal Commission certified the City of Rancho Palos Verdes Local Coastal Program (LCP) on April 27, 1983. Amendment Request No. 1-14 adds new text to the Visual Corridors section of the certified Land Use Plan to permit flagpoles to exceed the 16-foot height limit under specific parameters. The parameters are worded such that they apply to only one parcel within the City of Rancho Palos Verdes: Trump National Golf Club Los Angeles.

On July 9, 2014, the Commission approved a coastal development permit amendment request by VH Property Corp. to amend Vesting Tentative Tract Map No. 50666 to reduce the number of residential lots from 39 to 23, add two golf course lots to accommodate a driving range and putting green, construct new trails, and construct new grading and landscaping. Prior to the Commission's action at the hearing, the applicant removed its request for after-the-fact approval of an unpermitted 70-foot high flagpole from the project description because multiple Commissioners indicated that they would not support development that was inconsistent with the Visual Corridors section of the certified LCP.

At a public hearing on July 29, 2014, the Rancho Palos Verdes City Council directed City staff to initiate an LCP amendment to allow flagpoles to exceed 16-feet in height as a visual landmark on property owned or dedicated to the City in the coastal zone. At a public hearing on October 14, 2014, the Rancho Palos Verdes Planning Commission voted to approve City staff's suggested language to the LCP amendment. At a public hearing on November 4, 2014, the Rancho Palos Verdes City Council passed Resolution No. 2014-73 to adopt a negative declaration for the subject LCP amendment. The LCP amendment request was submitted to the Commission on December 4, 2014 and Commission staff determined that it was complete effective that date. The City's submittal is consistent with the requirements of the Coastal Act and the regulations which govern such proposals (Sections 30501, 30510, 30514 and 30605 of the Coastal Act, and Sections 13551, 13552 and 13553 of Title 14 of the California Code of Regulations).

SUMMARY OF STAFF RECOMMENDATION

Staff is recommending that the Commission, after a public hearing, approve the LCP amendment request as submitted by the City. Staff believes the proposed amendment meets the requirements of, and is in conformance with the Chapter 3 policies of the Coastal Act.

STANDARD OF REVIEW

The standard of review for the proposed amendment to the Land Use Plan (LUP), pursuant to Section 30512 and 30514 of the Coastal Act, is that the proposed LUP amendment meets the requirements of, and is in conformance with the Chapter 3 policies of the Coastal Act.

SUBSTANTIVE FILE DOCUMENTS

1. City of Rancho Palos Verdes certified Local Coastal Program (LCP), 4/27/1983.
2. Coastal Development Permit No. A-5-RPV-93-005 (Zuckerman Building Company and Hon Investments), as amended and retained by VH Property Corp.

EXHIBITS

Exhibit 1 – Rancho Palos Verdes City Council Resolution No. 2014-73

Exhibit 2 – Visual Corridors section of City of Rancho Palos Verdes certified Land Use Plan

FOR ADDITIONAL INFORMATION

The LCP Amendment file is available for review at the South Coast District office located in the Molina Center, 200 Oceangate, Suite 1000, Long Beach, 90802. The staff report can be viewed on the Commission’s website: www.ca.coastal.ca.gov. For additional information, contact Zach Rehm in the South Coast District office at (562) 590-5071.

I. MOTION AND RESOLUTION

Motion:

I move that the Commission certify Land Use Plan Amendment No. 1-14 as submitted by the City of Rancho Palos Verdes.

Staff recommends a **YES** vote. Passage of this motion will result in the certification of the LUP Amendment and adoption of the following resolution and findings. The motion to certify with passes only upon an affirmative vote of a majority of the Commissioners present.

Resolution:

The Commission hereby certifies Land Use Plan Amendment No. 1-14 for the City of Rancho Palos Verdes and adopts the findings set forth below on grounds that the Land Use Plan Amendment will meet the requirements of and be in conformity with the policies of Chapter 3 of the Coastal Act. Certification of the Land Use Plan Amendment complies with the California Environmental Quality Act because either 1) feasible mitigation measures and/or alternatives have been incorporated to substantially lessen any significant adverse effects of the plan on the environment, or 2) there are no further feasible alternatives and mitigation measures that would substantially lessen any significant adverse impacts which the Land Use Plan Amendment may have on the environment.

II. FINDINGS

The Commission hereby finds and declares:

A. DESCRIPTION OF THE LCP AMENDMENT REQUEST

Rancho Palos Verdes City Council Resolution No. 2014-73 (**Exhibit 1**) comprises Amendment No. 1-14 to the City of Rancho Palos Verdes certified Local Coastal Program (LCP). The proposed amendment adds new text to the Visual Corridors section of the certified Land Use Plan (LUP) to include regulations for flagpoles in the coastal zone. Flagpoles would be permitted to exceed the City's 16-foot height limit under four parameters. The amendment would not change any existing policies in the Visual Corridors section (**Exhibit 2**) or any other section of the certified LUP.

The following text would be added to page C-12 of the certified Land Use Plan, in a new section titled "Flag Poles:"

Flag poles in the Coastal Zone are permitted up to 12-feet in height, as measured from adjacent grade, with no discretionary review, or up to 16-feet in height, as measured from adjacent grade, with a Site Plan Review application to ensure there is no significant view impairment caused by the flag pole above 12-feet in height. Flag poles in the Coastal Zone may exceed 16-feet in height, up to a maximum height of 70-feet, as measured from adjacent grade provided the following parameters are met:

- *One flag pole exceeding 16-feet in height is permitted for any parcel of 120 acres or more, provided that, within the 120-plus acre legal parcel, the land on which the flag pole is erected is owned by or dedicated to the City so as to allow for public access and only allow the flag of the United States of America to be flown on said flag pole;*
- *The flag pole shall be consistent with the height restrictions identified in the visual corridors section of the LCP;*
- *An approved Variance Permit to exceed the City's 16-foot height limit must be obtained from the City; and*
- *The property where the flagpole is located must provide a minimum of 20 free public parking spaces, public restrooms, drinking fountain, and public bench seating.*

As written, the LUP amendment applies to only one parcel in the City because there is only one parcel in the City greater than 120 acres. That parcel is currently owned by VH Property Corp., which operates Trump National Golf Club Los Angeles. That parcel also has the assorted public amenities identified in the proposed LCP amendment text and the City of Rancho Palos Verdes has already approved a variance from the City's height regulations for a 70-foot high flagpole on that parcel.

B. LCP AMENDMENT REQUEST HISTORY

The City's LCP amendment request is motivated by the events at the July 9, 2014 Commission hearing in Ventura. At that hearing, VH Property Corp. requested after-the-fact approval of a 70-foot high flagpole, and other development, through Coastal Development Permit Amendment No. A-5-RPV-93-005-A21 and had the support of a large number of Rancho Palos Verdes residents and City representatives. When several Commissioners indicated that they would not support approval of the

flagpole because it was inconsistent with the Visual Corridors section of the certified LCP, VH Property Corp. revised the project description to remove the request for approval of the flagpole. City representatives at the hearing indicated that they would quickly pursue an amendment to the LCP which would allow VH Property Corp. to re-apply for a coastal development permit to allow the existing 70-foot high flagpole on the Trump National Golf Club Los Angeles parcel.

At a public hearing on July 29, 2014, the Rancho Palos Verdes City Council directed City staff to initiate an LCP amendment to allow flagpoles to exceed 16-feet in height as a visual landmark on property owned or dedicated to the City in the coastal zone. At a public hearing on October 14, 2014, the Rancho Palos Verdes Planning Commission voted to approve City staff's suggested language to the LCP amendment. At a public hearing on November 4, 2014, the Rancho Palos Verdes City Council passed Resolution No. 2014-73 to adopt a negative declaration for the subject LCP amendment. The City provided adequate public notice for all three local hearings, which included mailed notice to interested parties, published notice in a local newspaper, and online distribution of notice via the City's listserv. The LCP amendment request was submitted to the Commission on December 4, 2014 and Commission staff determined that it was complete effective that date.

C. CERTIFY THE LUP AMENDMENT REQUEST AS SUBMITTED

In order to be certified by the Commission pursuant to sections 30512 and 30514 of the Coastal Act, the LUP amendment must meet the requirements of, and be in conformance with the Chapter 3 policies of the Coastal Act.

Section 30251 of the Coastal Act reads:

The scenic and visual qualities of coastal areas shall be considered and protected as a resource of public importance. Permitted development shall be sited and designed to protect views to and along the ocean and scenic coastal areas, to minimize the alteration of natural land forms, to be visually compatible with the character of surrounding areas, and, where feasible, to restore and enhance visual quality in visually degraded areas. New development in highly scenic areas such as those designated in the California Coastal Preservation and Recreation Plan prepared by the Department of Parks and recreation and by local government shall be subordinate to the character of its setting.

The proposed text amendment is consistent with the Chapter 3 policies of the Coastal Act because it sets clear and strict parameters for when flagpoles may be permitted in the coastal zone. The parameters will ensure that flagpoles do not proliferate within the coastal zone, cluttering the City's coastal view corridors. As currently certified, the LCP does not contain specific language for flagpoles, so this amendment will make clear the City's policy to restrict large flagpoles in the future.

The Commission finds that the amendment is in conformity with Chapter 3 of the Coastal Act because it will add clear concise policies for flagpoles to the Visual Corridors section of the Land Use Plan to further protect visual resources in the City's coastal zone. Based on the parameters, only one flagpole exceeding the City's 16-foot height limit is likely to be permitted within the coastal zone. Some members of the public and leaders of the City have identified that flagpole as an important

visual resource and a public amenity representing the City's patriotism. Approval of this LCP amendment (and any subsequent approval of a coastal development permit for an existing unpermitted flagpole up to 70-feet high) will not have a substantial negative effect on visual resources. Rancho Palos Verdes is not unique in its character as a City with one tall flagpole between the sea and the first public road; as detailed by supporters of the existing flagpole, several Southern California cities feature tall flagpoles atop piers or in public parks. Moreover, as reinforced by the amendment text, the existing policies of the Visual Corridors section will continue to apply. Any approved flagpole must be consistent with the height restrictions identified in the visual corridors section of the LCP, which protect downward sloping coastal views from identified viewpoints within the City. Therefore, the Commission finds that the LCP amendment request meets the requirements of, and is in conformity with the policies of Chapter 3 of the Coastal Act.

D. CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA)

The City of Rancho Palos Verdes is the lead agency for the purposes of California Environmental Quality Act review of the LCP amendment. While the City of Rancho Palos Verdes is exempt from CEQA for purposes of the preparation and adoption of LCP amendments pursuant to section 21080.9 of CEQA, on November 4, 2014, the Rancho Palos Verdes City Council nonetheless certified Negative Declaration #ZON2014-00329 for the subject LCP amendment.

Pursuant to the California Environmental Quality Act (CEQA) and the California Code of Regulations [Title 14, Sections 13540(f), 13542(a), 13555(b)] the Commission's certification of this LCP amendment must be based in part on a finding that it is consistent with CEQA Section 21080.5(d)(2)(A). That section of the Public Resources Code requires that the Commission's regulatory program require that a proposal not be approved or adopted:

if there are feasible alternatives or feasible mitigation measures available which would substantially lessen any significant adverse effect which the activity may have on the environment.

The Commission finds that, for the reasons discussed in this report, the proposed LCP amendment, will meet the requirements of and be in conformity with the policies of Chapter 3 of the Coastal Act. Certification of the LCP complies with the California Environmental Quality Act because: 1) feasible mitigation measures and/or alternatives have been incorporated to substantially lessen any significant adverse effects of the plan on the environment, and 2) there are no further feasible alternatives and mitigation measures that would substantially lessen any significant adverse impacts which the LCP Amendment may have on the environment. The Commission finds that the proposed LCP amendment will be consistent with Section 21080.5(d)(2)(A) of the Public Resources Code.

RESOLUTION NO. 2014-73

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF RANCHO PALOS VERDES ADOPTING A NEGATIVE DECLARATION PURSUANT TO THE CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA) IN CONNECTION WITH ADOPTING A TEXT AMENDMENT TO THE END OF THE CURRENT VISUAL CORRIDORS SECTION (PAGE C-12 OF THE LCP) OF THE CORRIDOR ELEMENT OF THE CITY'S LOCAL COASTAL PLAN (COASTAL SPECIFIC PLAN) TO ALLOW FLAG POLES UP TO 70-FEET IN HEIGHT THAT MEET SPECIFIC STANDARDS IN THE CITY'S COASTAL ZONE.

WHEREAS, on July 9, 2014, the California Coastal Commission conducted a meeting to consider a number of items related to Trump National that were previously approved by the City Council but have been awaiting Coastal Commission approval, including the existing 70-foot high flag pole that was approved by the City Council in 2007; and,

WHEREAS, at the July 9, 2014 meeting, the Coastal Commission did not approve the flag pole because the City's Local Coastal Plan (LCP) does not address flag poles in the Coastal Zone, and the Coastal Commission suggested that the City make a specific amendment to the City's LCP to allow flag poles in the Coastal Zone; and,

WHEREAS, on July 29, 2014, the City Council initiated the process to amend the City's LCP to specifically address the height of flag poles in the City's Coastal Zone; and,

WHEREAS, on October 14, 2014, the Planning Commission, at a duly noticed public hearing, reviewed the proposed text amendment to the LCP and recommended, via minute order, that the City Council approve the proposed text with one minor modification replacing "American flag" with the text "flag of the United States of America;" and,

WHEREAS, on October 16, 2014, pursuant to the City's Municipal Code, a public notice was published in the *Peninsula News* and mailed to property owners within and adjacent to the City's Coastal Zone, within a 500-foot radius of the project site and to interested parties including list-serve subscribers, inviting public comments on the proposed text amendment to the City's LCP to allow flag poles, exceeding 16-feet in height, within the Coastal Zone; and,

WHEREAS, on November 4, 2014, the City Council held a duly noticed public hearing to consider the proposed amendment to the LCP;

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF RANCHO PALOS VERDES DOES HEREBY FIND, DETERMINE, AND RESOLVE AS FOLLOWS:

COASTAL COMMISSION

EXHIBIT # 1
PAGE 1 OF 4

Section 1. The City Council has independently reviewed and analyzed the proposed text amendment to the end of the current Visual Corridors Section (page C-12 of the LCP) of the Corridor Element of the City's Local Coastal Plan (Coastal Specific Plan) to allow flag poles up to 70-feet in height that meet specific parameters in the City's Coastal Zone in accordance with the California Environmental Quality Act ("CEQA") and determined that the proposed text amendment to the LCP will require a Negative Declaration, which determined that the proposed amendment will not create any significant or potential impacts to the surrounding environment because the proposed parameters only allow flag poles to be erected on property of at least 120 acres in size that either is owned by or subject to an easement dedicated to the City that provides public amenities, such as public parking, restrooms, and bench seating. Thus, these parameters will prevent such flag poles from proliferating the City's Coastline and creating adverse impacts to the environment, particularly views from the public roadway and public trails. In accordance with Section 15164 of the State CEQA Guidelines, the City Council hereby adopts a Negative Declaration, which is attached hereto as Exhibit "A" and incorporated herein by this reference, and certifies that the Negative Declaration was completed in compliance with the requirements of the California Environmental Quality Act and State and local guidelines with respect thereto and approves the Negative Declaration.

Section 2. Visual Corridors section (page C-12 of the LCP) of the Corridor Element of the City's Local Coastal Plan (Coastal Specific Plan) is hereby amended by adding a new section titled "Flag Poles" to read as follows:

Flag Poles

Flag poles in the Coastal Zone are permitted up to 12-feet in height, as measured from adjacent grade, with no discretionary review, or up to 16-feet in height, as measured from adjacent grade, with a Site Plan Review application to ensure there is no significant view impairment caused by the flag pole above 12-feet in height. Flag poles in the Coastal Zone may exceed 16-feet in height, up to a maximum height of 70-feet, as measured from adjacent grade provided the following parameters are met:

- *One flag pole exceeding 16-feet in height is permitted for any parcel of 120 acres or more, provided that, within the 120-plus-acre legal parcel, the land on which the flag pole is erected is owned by or dedicated to the City so as to allow for public access and to allow only the flag of the United States of America to be flown on said flag pole;*
- *The flag pole shall be consistent with the height restrictions identified in the visual corridors section of the LCP;*
- *An approved Variance Permit to exceed the City's 16-foot height limit must be obtained from the City; and,*
- *The property where the flagpole is located must provide a minimum of 20 free public parking spaces, public restrooms, drinking fountain, and public bench seating.*

Section 3. The City Council finds that the public and affected agencies have had ample opportunity to participate in the LCP amendment process because as part of the public hearing process, the following public notice was circulated, inviting

COASTAL COMMISSION

Resolution No. 2014-73
Page 2 of 4

EXHIBIT # 1
PAGE 2 OF 4

participation and comments, for both the October 14, 2014 Planning Commission meeting and the November 4, 2014 City Council meeting:

- Mailed to approximately 1,500 residents within the City's entire coastal zone and properties adjacent to the Coastal Zone;
- Mailed to interested parties on file with the City;
- Mailed to property owners within a 500-foot radius of the Trump National Project site;
- Published, at a 1/8 page, in the Peninsula News at least 15-days before the scheduled hearings;
- Posted on the City's website;
- Emailed to list-serve subscribers for both the Trump Project (964 subscribers) and Breaking News (2,049 subscribers);
- Emailed to the Coastal Commission's Long Beach office;
- Posted with the Los Angeles County Clerk's office and sent to the State Office of Planning and Records pursuant to CEQA; and,
- Circulated to list of local, state and federal agencies.

In addition to the above, the public notice citing the proposed amended language along with the Negative Declaration (pursuant to CEQA) was circulated on September 22, 2014; accordingly, more than 6 weeks notice was provided to the public.

Section 4. The City Council finds that the LCP amendment conforms to the requirements of the Coastal Act in that the proposed text amendment to the LCP to allow flag poles to exceed 16-feet in height within the City's Coastal District is drafted in a manner that is consistent to the policies and objectives of the Coastal Act because such flag poles will be considered to be a visitor-serving public amenity. This is achieved through parameters that require such a flag pole to be located on land owned or deeded to the City and that certain amenities will be available to accommodate public access, such as free public parking, restrooms, seating areas, and drinking fountains. Moreover, the parameters require that only the flag of the United States of America will be flown on such flag poles. These public amenities are intended to ensure access by the public is available and that public amenities are also available for the public's enjoyment while viewing the flag of the United States of America consistent with the intent of the Coastal Act.

Section 5. The City Council finds that the proposed amendment to the LCP is consistent with the provisions of the City's LCP and the City's General Plan, Land Use Plan, and Zoning Map because consideration of coastal resources, hazard areas, coastal access and land use was factored in the parameters established under the Visual Corridors Element. For example, a flag pole exceeding 16-feet in the City's Coastal Zone will require approval of a Variance, a discretionary planning entitlement, which assesses potential impacts, particularly view impacts from the public right-of-way and public trails, as required by the View Corridors Element of the LCP. Moreover, a Coastal Development Permit (CDP) will be required to be processed, and it is through the CDP process that certain findings will need to be made to ensure that the proposal conforms to the City's coastal policies, such as meeting the height requirements set

COASTAL COMMISSION

Resolution No. 2014-73
Page 3 of 4

EXHIBIT # 1
PAGE 3 OF 4

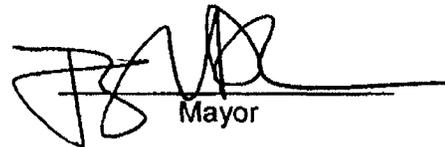

forth in the Visual Corridors Element of the LCP, as well as protecting visual resources from public streets and trails.

Furthermore, the proposed text amendment to the LCP would not result in a significant alteration of the City's coastline, nor would it introduce a pattern of development that will adversely impact the City's coastline because according to the City's Zoning Code and Zoning Map, such flag poles can only be erected on property of at least 120 acres in size that either is owned by or subject to an easement dedicated to the City. In fact, as currently proposed, flag poles exceeding 16-feet in height can only be permitted in the City on a portion of the Trump National property that is conditioned to be deeded to the City for public access as a Veterans Memorial because all remaining parcels throughout the City's coastal zone are less than 120 acres in area.

Section 6. The City Council finds that a procedure has been established to ensure adequate notice is provided to interested persons and agencies of impending development proposed after certification of the LCP amendment because one of the parameters to allow flag poles to exceed 16-feet in height, up to a maximum of 70-feet in height, within the City's Coastal Zone is with the approval of a Variance. The Variance is a discretionary application considered at a public hearing that is duly noticed to property owners within a 500-foot radius of the subject property and is published in the local newspaper. Additionally, a Coastal Development Permit (CDP) is also required for such a flag pole and through the noticing process, interested parties, including the Coastal Commission, will receive notification of a pending application for a flag pole that is proposed to exceed 16-feet.

Section 7. The time within which judicial review of the decision reflected in this Resolution, if available, must be sought as governed by Section 1094.6 of the California Code of Civil Procedure and other applicable short periods of limitation.

PASSED, APPROVED, AND ADOPTED this 4th day of November 2014.

Mayor

Attest:

COASTAL COMMISSION

VISUAL CORRIDORS

THIS SECTION DEALS WITH THE ESTABLISHMENT OF VISUAL CORRIDORS WHICH HAVE DIMENSIONS FOR BOTH VISTAS AND VIEWS AS A FURTHER EXTENSION OF THEIR DEFINITION IN THE GENERAL PLAN. VISTAS, AS DEFINED, HAVE A VIEWING STATION, OBJECT OR OBJECTS TO BE SEEN AND AN INTERMEDIATE GROUND. VIEWS HAVE A VIEWING STATION BUT DO NOT HAVE A SPECIFIC FOCUS OR OBJECT TO BE SEEN. VIEWS HAVE BROAD FOCAL POINTS WHICH HAVE AN UNLIMITED ARC AND DEPTH.

THE VISUAL CORRIDORS WHICH HAVE BEEN IDENTIFIED IN THE GENERAL PLAN AND ARE DISCUSSED HERE ARE THOSE WHICH ARE CONSIDERED TO HAVE THE GREATEST DEGREE OF VISUAL VALUE AND INTEREST TO THE GREATEST NUMBER OF VIEWERS; AND ARE THUS A FUNCTION OF PALOS VERDES DRIVE AS THE PRIMARY VISUAL CORRIDOR ACCESSIBLE TO THE GREATEST NUMBER OF VIEWERS, WITH VIEWS OF IRREPLACEABLE NATURAL CHARACTER AND RECOGNIZED REGIONAL SIGNIFICANCE.

PUBLIC VIEWING STATIONS WITHIN THE COASTAL SPECIFIC PLAN AREA FROM WHICH A MAJORITY OF RPV RESIDENTS AND VISITORS VIEW THE COMMUNITY ARE EITHER THE VEHICULAR CORRIDOR OF PALOS VERDES DRIVE OR TURNOUTS ALONG VEHICULAR CORRIDORS FOR THE PURPOSE OF VIEWING. THUS, VIEWING STATIONS ARE:

1. CONTINUOUS - VIEWED ALONG THE PUBLIC CORRIDOR OF PALOS VERDES DRIVE.
2. LOCALIZED - AS VIEWED FROM A SPECIFIC SITE OR TURNOUT.

THE VIEWING FOCAL POINTS HAVE BEEN CLARIFIED AS EITHER SPECIFIC OR NON-SPECIFIC, WHICH IS THE PRIMARY DIFFERENCE BETWEEN THE TWO TYPES

EXHIBIT # 2

PAGE 1 OF 4

OF VISUAL ASPECTS (VISTAS AND VIEWS) DEFINED IN THE GENERAL PLAN.

SPECIFIC VISUAL CORRIDORS HAVING BOTH A HORIZONTAL AND VERTICAL DIMENSION HAVE BEEN IDENTIFIED FOR VISTAS. THE VISTA CORRIDORS HAVE BEEN PUT INTO THREE CATEGORIES BASED UPON THE FOCAL POINT'S ANGLE FROM THE DIRECTION OF MOVEMENT ALONG PALOS VERDES DRIVE AND VISIBILITY OF THE FOCAL POINT. THE VISTA CORRIDORS ARE DIVIDED INTO THE FOLLOWING CATEGORIES:

1. DIRECT/FULL VISIBILITY - THE FOCAL POINT IS ENTIRELY VISIBLE WITHIN A 0-32.5 DEGREE ANGLE* FROM THE DIRECTION OF MOVEMENT.
2. DIRECT/PARTIAL VISIBILITY - THE FOCAL POINT IS PARTIALLY OBSTRUCTED OR OBSCURED (I.E. CHAIN LINK FENCE OR VEGETATION) WITHIN A 0-32.5 DEGREE ANGLE* FROM THE DIRECTION OF MOVEMENT.
3. INDIRECT VISIBILITY - THE FOCAL POINT IS WITHIN A 32.5-90 DEGREE ANGLE* FROM THE DIRECTION OF MOVEMENT, OR A SECONDARY AREA OF VISION (I.E., "CORNER OF THE EYE", PERIPHERAL).

*THE ANGLE USED TO DEFINE DIRECT VS. INDIRECT VISIBILITY IS BASED UPON AN ASSUMED AVERAGE SPEED FOR TRAVEL ALONG THE PALOS VERDES DRIVE VEHICULAR CORRIDOR. THE DRIVER'S AS WELL AS THE PASSENGER'S ATTENTION IS DIRECTED FORWARD AND THE ANGLE OF VISION IS A DIRECT RELATIONSHIP OF SPEED. THE CONE OF VISION AT A SPEED OF 45 MPH IS 65 DEGREES OR 32.5 DEGREES TO EITHER SIDE. THIS ANGLE WAS USED TO DIFFERENTIATE BETWEEN DIRECT (0-32.5

COASTAL COMMISSION

EXHIBIT # 2
 PAGE 2 OF 4

DEGREES) AND INDIRECT (32.5-90 DEGREES).
 A 90-DEGREE ANGLE TO THE SIDE WAS DETERMINED
 TO BE OUT OF THE NORMAL RANGE OF VISION OF
 DRIVER AND PASSENGER.

THE BOUNDARIES OF THE VISTAS IDENTIFIED ALONG
 PALOS VERDES DRIVE ARE DEFINED BOTH VERTICALLY
 AND HORIZONTALLY ON THE ACCOMPANYING PLANS AND
 SECTIONS OF THE COASTAL AREA (FIGURES 26,
 27, AND 28). THESE BOUNDARIES WERE ESTABLISHED
 BY THE FOLLOWING METHOD:

◦ HORIZONTAL BOUNDARIES

RIGHT EDGE FROM THE BEGINNING
 POINT OF A CONTINUOUS VIEWING
 STATION TO THE RIGHT EDGE OF THE

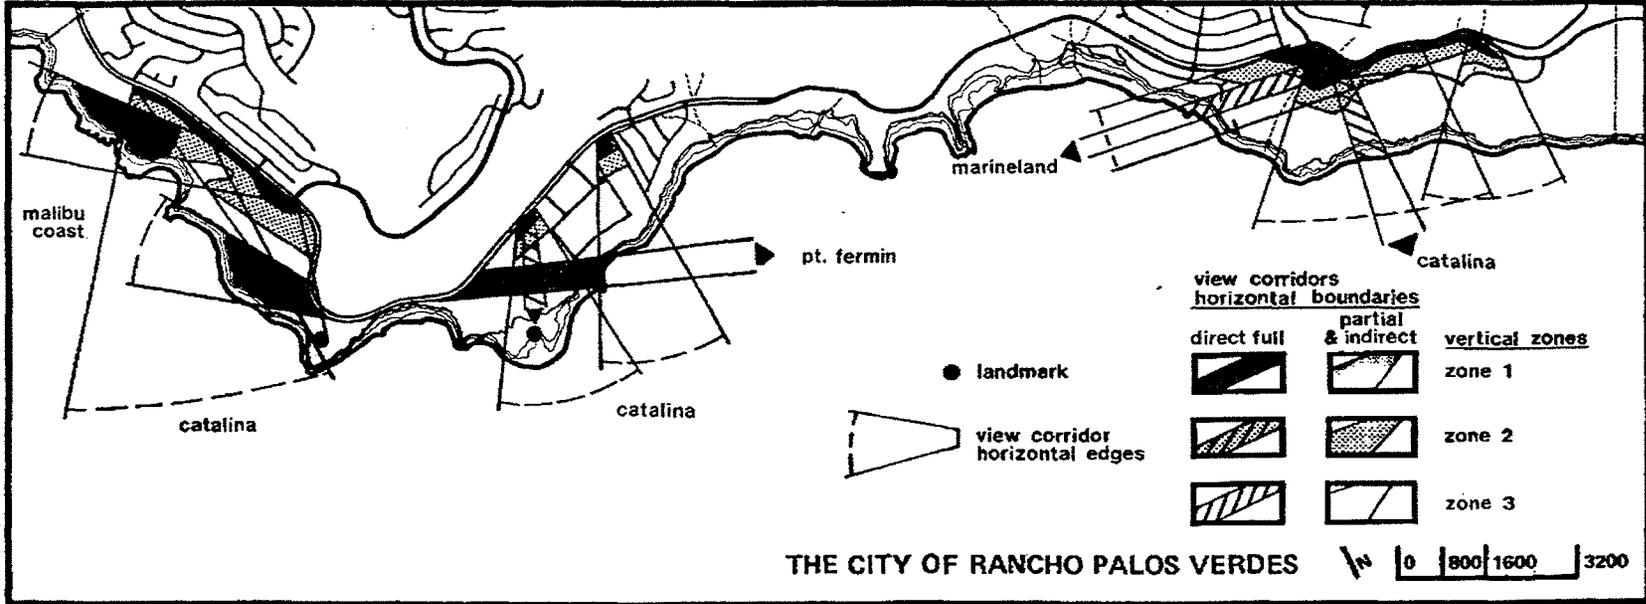

VIEWING FOCUS.

LEFT EDGE - FROM THE ENDING POINT
 OF A CONTINUOUS VIEWING STATION TO
 THE LEFT EDGE OF THE VIEWING
 FOCUS.

◦ VERTICAL BOUNDARIES

BOTTOM EDGE - A VERTICAL ARC WAS
 ESTABLISHED FOR THE BOTTOM EDGE
 FROM THE VIEWING STATION ELEVATION
 TO THE FOCAL POINT ELEVATION. FOR
 DISTANT FOCAL POINTS (I.E. CATALINA
 AND MALIBU COASTLINE) A MINIMUM
 2-DEGREE DOWN-ARC FROM HORIZONTAL
 WAS USED.

figure 26 visual corridors

COASTAL COMMISSION

EXHIBIT # 2
PAGE 3 OF 4

TOP EDGE - ASSUMED TO BE THE UPPER LIMIT, OR ZENITH OF A PERSON WITH NORMAL VISION VIEWING ON AN ESSENTIALLY HORIZONTAL PLANE.

THE HORIZONTAL DIMENSION OF THE THREE CATEGORIES OF VISTA CORRIDORS IS DEFINED ON THE SUBREGION PLANS. THE VERTICAL DIMENSION (BOTTOM) IS DEFINED BY THE ACCOMPANYING SECTIONS. THIS VERTICAL DIMENSION IS TRANSFERRED TO THE PLANS IN TERMS OF "HEIGHT ZONES". THESE HEIGHT ZONES ARE DEFINED BY THE DISTANCE BETWEEN THE BOTTOM OF THE VERTICAL ARC AND GROUND LEVEL AND ARE AS FOLLOWS:

- ZONE 1 LESS THAN 16'
- ZONE 2 - 16' TO 30'
- ZONE 3 - ABOVE 30'

PLANS AND SECTIONS WERE ESTABLISHED BASED ON THE CITY'S ESTABLISHED HEIGHT REGULATIONS FOR RESIDENTIAL ZONING CATEGORIES (I.E. SF LESS THAN 16', MF LESS THAN 30').

PLANS AND SECTIONS DESCRIBING THE PLANS WERE NOT PREPARED FOR SUBREGIONS 4 AND 8 SINCE 4 IS FULLY DEVELOPED WITH RESIDENTIAL AND 8 WILL REMAIN AS A NATURAL LAND AREA.

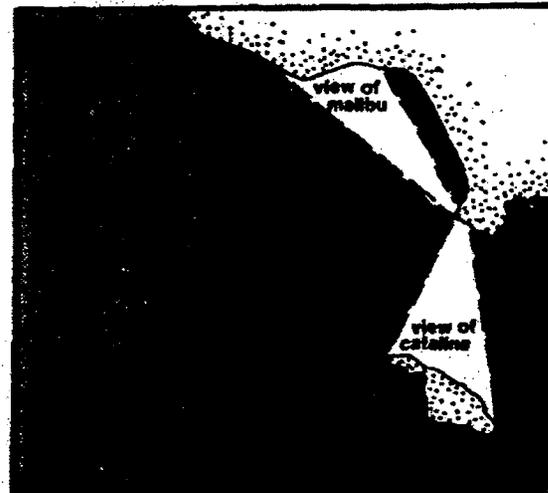

HEIGHT ZONES WERE NOT APPLIED TO SUBREGION 5'S VISTA CORRIDOR SINCE THIS REGION WILL REMAIN AS A NATURAL LAND AREA AND IS NOT AVAILABLE FOR DEVELOPMENT.

THE PRECEDING VISTA CORRIDOR ANALYSIS IS INTENDED TO PROVIDE THE CITY WITH A RANGE OF CHOICES AS TO THE COURSE OF ACTIONS FOR:
(1) THE DEVELOPMENT OF THE PV DRIVE VISUAL (LAND ACCESS/INFRASTRUCTURE) CORRIDOR (LANDSCAPING, UNDERGROUNDING, VISTA POINTS);

(2) THE DEVELOPMENT OF NATURAL LAND AREAS (LANDSCAPING, ETC.); AND (3) THE PROPOSED DEVELOPMENT INTENSITY (ZONING) AND DEVELOPMENT CONTROLS NEEDED TO PROTECT AND ENHANCE (OVERLAY DISTRICTS, DESIGN STANDARDS, DESIGN REVIEW) THE IDENTIFIED CORRIDORS. THE "DIRECT/FULL VISIBILITY" VISTA, BEING THE MOST VALUABLE, SHOULD RECEIVE THE HIGHEST PRIORITY FOR PRESERVATION PROTECTION AND ENHANCEMENT; WITH THE HEIGHT ZONES ESTABLISHING ZONES OF DEVELOPMENT RESTRICTION BASED UPON ZONING.

A LARGE PORTION OF THE PALOS VERDES DRIVE WEST/SOUTH/25TH STREET CORRIDOR HAS VISUAL ASPECTS WHICH QUALIFY AS VIEWS. THOSE SECTIONS OF THE DRIVE WHICH HAVE OCEAN VIEWS QUALIFY HERE AND A MAJORITY OF THE LAND ON THE OFFSHORE SIDE FALLS WITHIN THE FOREGROUND OF SOME PORTION OF THE DRIVE WHICH IS A VIEWING STATION.

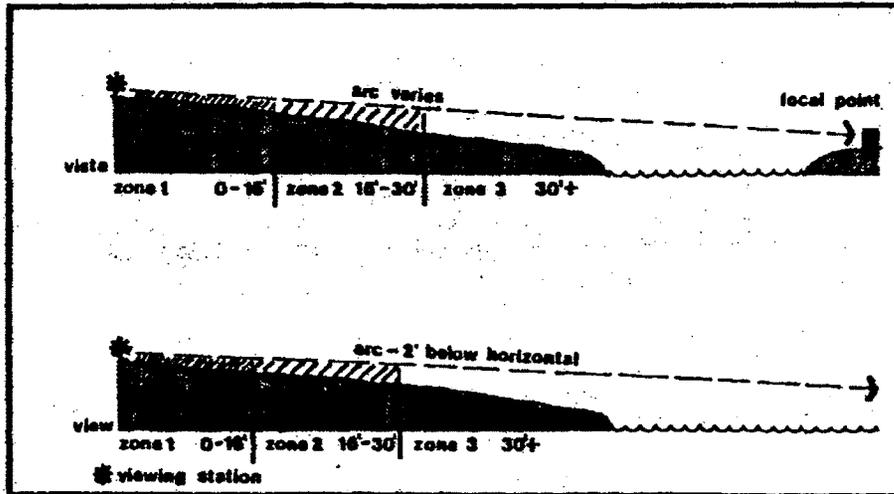

figure 27 distant views

COASTAL COMMISSION

EXHIBIT # 2
PAGE 4 OF 4

figure 28 typical sections

TO PROTECT THIS VISUAL RELATIONSHIP BETWEEN THE DRIVE AND OCEAN IN THOSE AREAS WHICH ARE NOT PART OF AN IDENTIFIED VISTA CORRIDOR, NO BUILDINGS SHOULD PROJECT INTO A ZONE MEASURED 2' DOWN-ARC FROM HORIZONTAL AS MEASURED ALONG THE SHORTEST DISTANCE BETWEEN THE VIEWING STATION AND THE COASTLINE.

NATURAL CORRIDORS

SINCE THE PUBLICATION OF THE GENERAL PLAN IN 1975, MORE DEFINITIVE CONSULTANT AND STAFF STUDIES DEALING WITH VARIOUS COMPONENTS OF THE NATURAL ENVIRONMENT HAVE PROVIDED A SOMEWHAT MORE DETAILED DEFINITION OF THE RELATIVE IMPORTANCE AND THE GEOGRAPHIC LIMITS OF THESE AREAS, AS DESCRIBED IN THE NATURAL ENVIRONMENT SECTION OF THIS PLAN. HOWEVER, BECAUSE OF THEIR UNIQUELY DYNAMIC

(CHANGING) CHARACTER, ANY ATTEMPT TO PROVIDE PRECISE MEASURED BOUNDARIES MUST YIELD TO THE MORE GENERALIZED, BUT EASILY VALIDATED METHODS OF FIELD INSPECTION COUPLED WITH HISTORICAL AND CURRENT AERIAL PHOTOGRAPHY AND OTHER DOCUMENTING SOURCES.

NATURAL CORRIDORS THUS CAN PERFORM SEVERAL SIGNIFICANT FUNCTIONS IN BOTH SHAPING AND SUPPORTING EXISTING AND POTENTIAL LAND USES OF ALL TYPES, INCLUDING:

- PROVIDING LANDSCAPE/TOPOGRAPHIC RELIEF/ DEFINITION WITHIN DEVELOPED AREAS WHICH CAN SERVE AS A PROTOTYPICAL SYSTEM FOR DEVELOPMENT LANDSCAPING SYSTEMS/THEMES WHICH ARE INTENDED TO BE "NATURALIZED" RATHER THAN HIGH-MAINTENANCE IN NATURE.

DRAFT AGENDA

**RANCHO PALOS VERDES PLANNING COMMISSION
TUESDAY, FEBRUARY 24, 2015
FRED HESSE COMMUNITY PARK, 29301 HAWTHORNE BOULEVARD
REGULAR MEETING
7:00 P.M.**

SCHEDULING NOTES

REQUESTS TO SPEAK ON AN ITEM MUST BE SUBMITTED TO THE COMMUNITY DEVELOPMENT DIRECTOR PRIOR TO THE COMPLETION OF THE REMARKS OF THE FIRST SPEAKER ON THE ITEM. NO REQUEST FORMS WILL BE ACCEPTED AFTER THAT TIME.

PURSUANT TO ADOPTED PLANNING COMMISSION PROCEDURE, UNLESS THE PLANNING COMMISSION AGREES TO SUSPEND ITS RULES, NO NEW BUSINESS WILL BE HEARD AFTER 11:00 P.M. AND NO ITEM WILL BE HEARD PAST MIDNIGHT. ANY ITEMS NOT HEARD BECAUSE OF THE TIME LIMITS WILL BE AUTOMATICALLY CONTINUED TO THE NEXT COMMISSION AGENDA.

FROM: CORY LINDER, DIRECTOR, RECREATION AND PARKS 

DATE: FEBRUARY 18, 2015

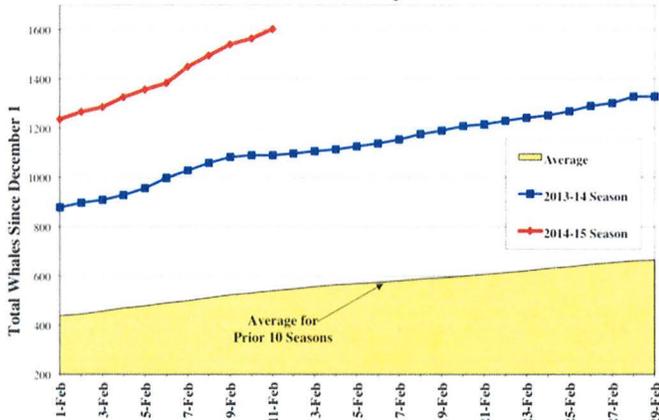

SUBJECT: ADMINISTRATIVE REPORT

AMERICAN CETACEAN SOCIETY, LA CHAPTER SPONSORS ANNUAL WHALE CENSUS – LIVE FROM PVC!

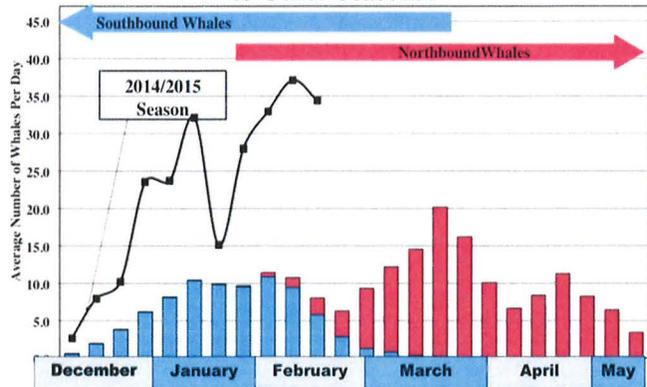

Members of the American Cetacean Society, Cabrillo Whalewatch Program, and members of the public can be found at the Point Vicente Interpretive Center daily from sunrise to sunset, December 1st through May 15th. These trained, dedicated volunteers are part of a long-term, shore-based study of the marine mammals that pass through the near-shore waters of the Palos Verdes Peninsula.

All participants use binoculars, and several confirm and detail sightings with spotting scopes. Weather data, including visibility and sea conditions, are recorded at least hourly. Observers identify and record various marine mammals and their behaviors, focusing on gray whales. These trained volunteers also detail migratory behaviors observed, including breaching, spyhopping, rolling, courtship, apparent nursing, possible feeding, and interaction with kelp, and with other marine mammals. Participants also note possible human impacts on gray whales, including boat interactions, possible harassment incidents, and entanglements. In addition, the census-takers identify and record behaviors of any other marine mammals that utilize these waters, including common dolphin, Pacific bottlenose dolphin, Pacific white-sided dolphin, Risso's dolphin, northern right whale dolphin, killer whales, false killer whales, pilot whales, Dall's porpoise, sperm whales, minke whales, humpback whales, blue whales, fin whales, California sea lions, harbor seals, northern elephant seals, and southern sea otters. Below is the data collected to date, compared to previous years.

How Does This Season Compare To Prior Seasons in February?

How Does The 2014/2015 Season Compare to Other Seasons?

PARKS MASTER PLAN UPDATE WORKSHOP THIS WEEK: GENERAL OVERVIEW

The Parks Master Plan Update public outreach effort is nearing the end of the public workshop process, with two general workshops remaining. The General Parks Master Plan workshops will give residents the opportunity to discuss their ideas about the future uses at any of the City's 16 park sites including the five park sites that were the focus at earlier workshops held Nov. 5th through February 11th. This week's general workshop will be held this Wednesday, February 18th from 7:00 p.m. to 9:00 p.m. at the Ladera Linda Community Center, and the final workshop will be held at Hesse Park on Wednesday, February 25th from 7:00 p.m. to 9:00 p.m.

The second of two workshops focusing on Upper Hesse Park was held last Wednesday evening, February 11th at Hesse Park. Approximately 15 attendees viewed a presentation on proposed amenities at the site and results of the previous December 10th, 2014 Hesse Park workshop.

Public outreach for these workshops includes banners at two City locations, fliers, press releases, City website and Facebook listings, and list serve messages. Residents who would like to be part of this process are encouraged to attend and share their ideas at these final two important public workshops. The draft parks master plan update is scheduled to be presented to City Council in April 2015.

The Department is encouraging residents to also complete an online survey regarding the Parks Master Plan Update, available on the City's website. Contact Sr. Admin. Analyst Matt Waters at mattw@rpv.com or 310-544-5218 with any questions about these public workshops and the Parks Master Plan Update process.

FRED HESSE JR. COMMUNITY PARK

Recreation Class Rentals (February 16th – February 22nd)

- Duplicate Bridge Classes (McTaggart Hall): Monday, Friday
- J. S. Aerobic Dance Classes (McTaggart Hall): Monday, Wednesday

POINT VICENTE INTERPRETIVE CENTER

Little Fish Tales by the Sea

On Thursday morning, February 19th, parents and young children are invited to attend the free one-hour monthly enrichment program featuring story time, songs, and the making of a fun craft. This program features Recreation staff leading eight of these monthly programs, with PV Library personnel leading four quarterly programs.

Los Serenos Docent Activities

Staff attended the monthly Grants Oversight Committee meeting on Monday afternoon, February 16th.

On Wednesday morning, a team of docents voted for the annual winners of the Whale of a Day (WOAD) Poster Contest. Los Serenos partners with all the PVPUSD middle schools to offer each student the opportunity to create a winning poster for this year's annual Whale of a Day celebration. Poster Contest winners will be recognized at an upcoming City Council meeting and all student posters will be on display in the Sunset Room at this year's April 4th WOAD celebration.

Sixty-six 4th Grade students from Point Vicente Elementary School enjoyed a docent-led tour of the museum on Wednesday morning, February 18th.

On Saturday morning, February 21st, the Junior Docent trainees will meet at Ladera Linda Community Center for a tour of the Discovery Room. They will learn about all the exhibits at this site, and will also focus on the Forrestal Reserve geologic formations and fossils.

Facility Rentals

The Emergency Preparedness Committee (EPC) will hold its February meeting in the Sunset Room on Thursday, February 19th.

The Sunset Room is rented this Saturday evening, February 21st for a memorial service. There is another memorial service scheduled in the Sunset Room on Sunday evening, February 22nd as well.

ROBERT E. RYAN COMMUNITY PARK

Recreation Class Rentals (February 16th – February 22nd)

- Suika Preschool Classes (Activity Room): Wednesday, Friday
- Super Soccer Stars Classes (Grass Field): Saturday

Community Groups/Private Rentals/City Programs (February 16th – February 22nd)

- Private Rental (Activity Room): Monday
- Girl Scout Troop Meeting (Activity Room): Wednesday
