MEMORANDUM

TO: HONORABLE MAYOR AND CITY COUNCIL
FROM: CAROLYN LEHR, CITY MANAGER (CLP)
DATE: NOVEMBER 13, 2013
SUBJECT: WEEKLY ADMINISTRATIVE REPORT

UPDATE REGARDING TAX-DEFAULTED PROPERTY SALE 2013A

On August 13, 2013, Staff submitted a request to the County Treasurer and Tax Collector (TTC) to begin the process to purchase two (2) tax-defaulted properties in the Cherry Hill Lane area: APN 7572-004-020 (commonly known as "41 Cherry Hill Lane") and APN 7572-008-014. Staff received confirmation that this request was received timely by TTC, and we assumed that, unless the current property owners paid the back taxes or filed for bankruptcy, the properties would be removed from the County tax sale auction on October 21-22, 2013.

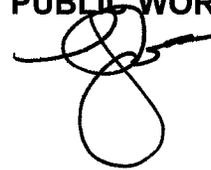

The last time that the City acquired a tax defaulted property (in Tax Sale 2011A), it took a couple of weeks after the County tax sale auction for Staff to receive the purchase agreement from the County. As such, Staff did not expect to hear anything from the County until early November 2013. However, on October 30, 2013, a *Portuguese Bend* resident contacted Staff to inquire if the City had purchased 41 Cherry Hill Lane at the recent County tax sale auction, as she had been told that the property had been sold.

Staff immediately contacted TTC and found out that the property had been sold at auction in error. However, we were able to work quickly with TTC to have them cancel the sale and put the City's acquisition of 41 Cherry Hill Lane back on track. We expect to receive the purchase agreement for this parcel from TTC after the first of the year. With respect to the other parcel (APN 7572-008-014), TTC informed us that the property owner had redeemed it by paying the back taxes prior to the auction date, so the City will not be acquiring it.

CONSTRUCTION UPDATE ON PHASE II OF THE FY11-12 RESIDENTIAL STREETS IMPROVEMENT PROJECT, AREAS 3 AND 5

Work continues this week on the remaining residential streets to be resurfaced, including some localized patch repair. The streets continue to be swept with street sweepers and the clean-up process is underway. Any questions or concerns should be directed to the Public Works Department.

Application of Microsurface Treatment on Lebec Place

EDCO'S FALL BRUSH CLEARING COMPLETED

EDCO completed the bi-annual Citywide brush clearing event. A total of 30.32 tons of green waste was collected during five consecutive Saturdays. The Fall brush clearing event is an extra service offered by EDCO and serves as an enhancement to the weekly green waste collection. It provides an opportunity for property owners to perform major tree trimming and brush clearing on their property or canyon without incurring additional disposal costs. On a weekly basis, green waste is collected in the green carts and in tied bundles. The next brush clearing event will be in the Spring from May to June.

| Regular Trash Day | Brush Clearing Date | Tonnage Collected |
|-------------------|----------------------------|-------------------|
| Monday Route | Saturday, October 5, 2013 | 4.5 tons |
| Tuesday Route | Saturday, October 12, 2013 | 9.89 tons |
| Wednesday Route | Saturday, October 19, 2013 | 4.25 tons |
| Thursday Route | Saturday, October 26, 2013 | 8.48 tons |
| Friday Route | Saturday, November 2, 2013 | 3.2 tons |
| | Total | 30.32 Tons |

2013 Palos Verdes Half-Marathon To Occur This Saturday

This Saturday, November 16th, the Kiwanis Club of Rolling Hills Estates will be holding the 2013 Palos Verdes Half-Marathon, 5K and Exposition event at the Terranea Resort and within portions of the City's streets. Preparation for the event will begin at 2:00 pm on Friday, November 15th in the Pelican Cove parking lot. On Saturday, the event is scheduled to take place between 5:00 AM and 1:00 PM, with on-site registration tables opening at 5:30 AM, the Half Marathon starting at 7:00 AM, and the 5K starting at 7:30 AM. Starting at 5:30 AM, 2-way vehicle traffic will be limited to the landward side of Palos Verdes Drive South and Palos Verdes Drive West, with all traffic managed by Sherriff's deputies. Residents on the seaward side of Palos Verdes Drive South and West will have restricted access in and out of neighborhoods and traffic delays may occur. All City roadways are scheduled to be completely reopened to traffic by 10:00 AM on the day of the race. City Staff from the Community Development Department, Department of Public Works, and City Manager's office worked closely with the event organizers to arrange this year's event, and City Staff will be on-site during the duration of the event on Saturday. The Notice of Decision, including the Conditions of Approval detailing the approval of this event, are attached along with maps of the half-marathon and 5K race course.

2012 PVPLC ANNUAL REPORT AND 2010-2012 PVPLC CUMULATIVE REPORT

Pursuant to the City's NCCP and the Management Agreement between the City and the PVPLC, the PVPLC is required to submit an annual report and a three year cumulative report to the City Council on its management activities in the Preserve. The Council will be asked to receive and file the 2012 PVPLC Annual Report and the 2010-2012 Cumulative Report at its upcoming December 3, 2013 meeting. Enclosed is an electronic copy (CD) of the reports for the Council's review in advance of the December 3rd meeting (see enclosure). Both Reports are also posted on the City's website and a list-serve message announcing the availability of both reports will be sent.

RPV / PVPLC PUBLIC FORUM MEETING - WEDNESDAY, NOVEMBER 20, 2013
AGENDA

Pursuant to City Council direction, the City and the PVPLC are to conduct quarterly public forum meetings to discuss public use issues in the Preserve. The next quarterly public forum is scheduled to be held at the Rancho Palos Verdes City Hall Community Room located at 30940 Hawthorne Blvd., on **Wednesday, November 20, 2013 at 6:00 p.m.** Attached is the agenda for the meeting that has been posted on the City's website. Additionally, a list-serve message announced the meeting and the availability of the meeting agenda.

TERRANEA RESORT – POOL AREA IMPROVEMENTS

Planning Staff recently approved site improvements to the main pool area at the Terranea Resort. The improvements are to better serve hotel guests using the main pool area and include the following construction:

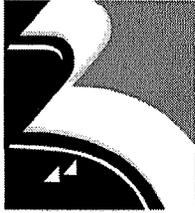

- A 757 sq. ft. poolside kitchen at 12-feet in height
- A 292 sq. ft. poolside outdoor bar at 12-feet in height
- A 120 sq. ft. storage shed
- A children's splash pad

The approved improvements were administratively approved by Staff as a minor modification to the Council approved site plan that included similar ancillary structures in the same general location (main pool area) but in a different configuration. The improvements are proposed to be constructed in an area of the site already developed with ornamental landscaping and hardscaping. The City approved improvements are currently being reviewed by the California Coastal Commission, who is processing the request as a minor amendment to the existing Coastal Development Permit. Once approvals are secured by the Coastal Commission, plans will be submitted to Building and Safety with construction scheduled to begin in early 2014 in time for the 2014 high season.

Coyote Education

As the Council is aware over the past two years, Staff has been educating residents about coyotes in a number of ways, including:

- A Channel 33 segment about Coyotes in the City. The link is posted on the City website (link: <mms://live2.palosverdes.com/RPV/RPVCT-Coyote-Safety.wmv>).
- An article in the City's 2013 summer newsletter.

CITY OF RANCHO PALOS VERDES

MEMORANDUM

TO: HONORABLE MAYOR & CITY COUNCIL MEMBERS

FROM: ARA MIHRANIAN, DEPUTY COMMUNITY DEVELOPMENT DIRECTOR 

DATE: NOVEMBER 13, 2013

SUBJECT: 2012 PALOS VERDES PENINSULA LAND CONSERVANCY ANNUAL REPORT AND 2010-2012 CUMULATIVE REPORT FOR THE PALOS VERDES NATURE PRESERVE

According to the current Operating Agreement between the City and the Palos Verdes Peninsula Land Conservancy (PVPLC) and the Draft Natural Communities Conservation Plan (NCCP) and Habitat Conservation Plan, the PVPLC is required to submit an annual report and a cumulative report, every three years, to the City Council on its management activities in the Preserve.

Enclosed is an electronic copy (CD-rom) of the 2012 Annual Report and the 2010-2012 Cumulative Report. The Council will be asked to receive and file the Annual Report and the Cumulative Report at its upcoming December 3, 2011 meeting.

The Annual Report and Cumulative Report have been posted on the City's website and a list-serve message announced the availability of the documents.

**Community Development Department
Weekly Administrative Report
November 13, 2013
Page # 3**

- Letters sent to all of the HOAs in the City which include handouts from the Humane Society and the California Department of Fish and Game with suggestions on how to coexist with coyotes.
- Information on the City website regarding coyotes and how to coexist with them, including accessible handouts (Link: <http://palosverdes.com/rpv/planning/code-enforcement/coyotes.cfm>).

Staff has also prepared the attached Coyote Management Plan, which it plans to post on the City website. The Management Plan provides additional educational information for residents and Staff.

Planning Commission Follow-Up Agenda

Attached is the Follow-Up Agenda from the Planning Commission meeting on November 12, 2013.

Applications of Note

Attached is a table with a summary of the Applications of Note that were submitted to the department between Wednesday, November 6, 2013 and Tuesday, November 12, 2013.

- Applications of Note

September 19, 2013

NOTICE OF DECISION

NOTICE IS HEREBY GIVEN that on September 19, 2013 the Community Development Director for the City of Rancho Palos Verdes **approved** a Special Use Permit to allow the staging of the 2013 Palos Verdes Half-Marathon and 5K Run/Walk on a portion of the Terranea Resort property and within the City's public rights-of-way on Saturday, November 16, 2013 (Planning Case No. ZON2013-00164).

Event: 2013 Palos Verdes Half-Marathon & 5K Run/Walk
Saturday, November 16, 2013

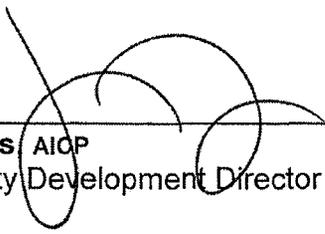

Applicant: Kiwanis Club of Rolling Hills Estates

Location: The Terranea Resort

Said permit is subject to the conditions of approval set forth in the attached Exhibit 'A'.

Pursuant to the City's Municipal Code, the Director's decision on a Special Use Permit may be appealed, in writing, to the Planning Commission within five (5) calendar days of the decision. Therefore, any appeal must set forth the grounds of the appeal and any specific actions requested by the appellant, and be filed by Thursday, September 26, 2013 and accompanied by a \$2,275.00 appeal fee. If no appeal is filed, the Director's decision will become final by the end of the day on September 26, 2013.

If you have any questions regarding this permit, please contact Assistant Planner Abigail Harwell at (310) 544-5228 or via e-mail at abigailh@rpv.com.

EXHIBIT "A"
CONDITIONS OF APPROVAL
SPECIAL USE PERMIT
PLANNING CASE NO. ZON2013-00164
2013 PALOS VERDES HALF- MARATHON AND 5K – TERRANEA RESORT

1. Within thirty (30) days of this approval, the applicant shall submit a statement in writing that they have read, understand and agree to all the conditions of approval listed below. Failure to provide said written statement shall render this approval null and void.
2. The Community Development Director and/or Public Works Director is authorized to make minor modifications to the approved preliminary plans or any of the conditions, if such modifications shall achieve substantially the same results as would strict compliance with said plans and conditions.
3. The abandonment or non-use of this approval after Saturday, November 16, 2013 shall terminate the approval and any privileges granted hereunder shall become null and void.
4. The 2013 Palos Verdes Half-Marathon and 5K event will be held on Saturday, November 16, 2013, between the hours of 5:00 AM and 1:00 PM. The Start/Finish area will be held within the Pelican Cove Parking Lot, which will be closed for preparation of the event at 2:00 PM on Friday, November 15, 2013. The Expo Area will be held in the northwest corner of the Terranea Resort parking lot, located 500 feet from the Start/Finish area, and this area will be closed for event use at 2:00 PM on Friday, November 15, 2013. The Pelican Cove parking lot and Expo Area will be re-opened at 2:00 PM on Saturday, November 16, 2013.

Hours of the event may not exceed the following times:

Friday, November 15, 2013:

2:00 PM to 6:00 PM – Set-up for Start/Finish at Pelican Cove parking lot and for Expo on portion of Terranea parking lot and arrival of overnight security.

Barricades can be delivered on November 15th at locations acceptable to the Public Works Director, no later than 8:00 PM.

Saturday, November 16, 2013:

3:00 AM - Barricade company begins to cone in preparation to close the course streets

4:00 AM - Arrival of shuttle buses at the approved parking locations and "no parking" signs shall be posted along course

5:00 AM - Traffic diverted and roads shall be closed for course set up, volunteers arrive, and parking lots shall be opened to participants

5:30 AM - Registration tables shall open

- 6:30 AM – Roads altered to allow 2-way vehicle traffic on the landward side of Palos Verdes Dr South and Palos Verdes Dr West. Residents on seaward side of Palos Verdes Drive will have restricted access in and out of neighborhood.
- 6:45 AM - Terranea Way closed to traffic
- 7:00 AM - Start of the Half-Marathon
- 7:30 AM - Staff of the 5K
- 8:00 AM - Terranea Resort entry will be opened to traffic and participants on the road between Terranea Wall and Narcissa Drive will be asked to run on the sidewalk.
- 10:00 AM - Course altered to open all roads to vehicle traffic. Any remaining participants will be asked to move to the sidewalk.
- 2:00 PM - All equipment shall be removed from the registration and Expo sites

Any changes to the established schedule of the event shall be subject to further review and approval by the Community Development Director and Public Works Director.

5. After the event, the Start/Finish area and Expo area shall be restored completely to its pre-event condition. All trash, debris, and remnants of the event shall be removed from the site no later than 2:00 PM on Saturday, November 16, 2013. All signage for the event located off-site shall be removed no later than 2:00 PM on Saturday, November 16, 2013.
6. No temporary lighting of any kind is approved for this event, except for lighting at the registration area between 4:00 AM and daylight on Saturday, November 16, 2013.
7. The only outdoor amplified sound that shall occur during the event shall be from the stage in the event Expo area and at the Start/Finish line. Amplified sound and all sound equipment must be directed away from residential property and towards the ocean.
8. The applicant shall provide proof of a minimum of \$3,000,000.00 single limited liability insurance, to the satisfaction and approval of the City Attorney, prior to the end of the day on Thursday, October 17, 2013.
9. The applicant shall submit a certificate naming the City as additionally insured, to the satisfaction and approval of the City Attorney, on or before Thursday, October 17, 2013.
10. The applicant shall submit a signed and notarized Hold Harmless agreement covenant, to the satisfaction and approval of the City Attorney, on or before Thursday, October 17, 2013.

11. The applicant shall submit letters of event approval from the City of Palos Verdes Estates on or before Thursday, October 17, 2013.
12. The final Traffic Control Plan must be approved (stamped and signed) by the Public Works Director on or before Thursday, October 17, 2013.
13. The Los Angeles County Fire Department shall review and approve all staging areas for the marathon event, and proof of Fire Department approval shall be submitted to the City on or before Thursday, October 17, 2013.
14. Applicant shall mail letters to all Rancho Palos Verdes Homeowners Associations and businesses along the route, notifying them of the upcoming event and potential traffic impacts on or before Thursday, October 17, 2013.

SIGNS

15. Subject to review and approval by the Community Development Director and/or Public Works Director, on Friday, November 8, 2013, the applicant shall install temporary signs along the course at each intersection stating "2013 Palos Verdes Half Marathon Course, Expect Traffic Delays on 11/16/13 between 5:00 AM and 10:00 AM." Said signs shall be of size and color that will make them clearly visible to motorists.
16. Subject to review and approval by the Community Development Director and/or Public Works Director, the applicant shall install no earlier than 4:00 AM on Saturday, November 16, 2013 temporary signs on the barricades stating "RESIDENT PARKING ONLY, NO EVENT PARKING PERMITTED" at the following intersections: Via Rivera at Hawthorne Boulevard, Palos Verdes Drive West at Rue Beaupre, Palos Verdes Drive West at Berryhill Drive and Palos Verdes Drive South at Albero Court. Said signs shall be of size and color that will make them clearly visible to motorists. Said signs shall be removed by 2:00 PM on Saturday, November 16, 2013.
17. Per the approved Traffic Control Plan, the applicant must provide three (3) changeable message signs to be in place on or before Friday, November 8, 2013 stating "SPECIAL EVENT, NOVEMBER 16, 2013, BETWEEN 5 AM & 10 AM, EXPECT DELAYS." The changeable message signs shall be located at the following locations: one sign shall be placed in the dirt area on the north side of Palos Verdes Drive South, just west of Schooner Drive, facing westbound traffic; one sign shall be placed in the median of Palos Verdes Drive West, just north of Marguerite Drive, facing southbound traffic; and one sign shall be placed in the median of Hawthorne Boulevard, east of Palos Verdes Drive West, facing westbound traffic. Such changeable message signs shall be removed by noon on Sunday, November 17, 2013.

PARKING AND SECURITY PERSONNEL

18. Parking of vehicles for the event shall include the following permitted lots: the Salvation Army property (90 or more cars), Palos Verdes Interpretive Center (not more than 100 cars), Golden Cove Shopping Center (80 cars), and City Hall Civic Center (600 cars). Terranea Resort employees shall use the Coast Guard dirt lot. Shuttling will be only provided from the City Hall Civic Center parking lot. The Promenade on the Peninsula Parking Structure can be used as additional event parking and carpool parking, upon approval from property management submitted to the City prior Thursday, October 17, 2013.
19. For parking at the City Hall Civic Center and the Palos Verdes Interpretive Center, the applicant must obtain the services of a professional parking service to stripe and manage the parking of vehicles for the entire duration of the event in accordance with the City-provided parking layout plan. Confirmation of the use of the City Hall Civic Center and Palos Verdes Interpretive Center must be approved by the City Manager's office prior to Thursday, October 17, 2013.
20. At least 2 Volunteers shall be posted at each designated parking area to assist with parking flow, with one volunteer to manage traffic and one volunteer to manage communication with the shuttles and other parking lots through the duration of the event. Deputy and volunteer hours shall coincide with the opening and closing operating hours as defined in Condition #4 above.
21. Off-site parking on public streets for this event is strictly prohibited.
22. The applicant shall pay the total estimate of \$11,424.05 for Sheriff Department services by setting up a Trust Deposit with the City submitted no later than 5:30 PM on Thursday, October 17, 2013.
23. Equipment/construction vehicles used during the event set-up and breakdown shall not be parked on City streets when not in use.
24. All coastal access trails in the area of the event and along the marathon course shall remain open throughout the duration of the event. Fifteen (15) public parking spaces within the Terranea Resort general parking lot shall remain open and available for visitors wishing to access the coastal trails during the duration of the event.
25. Approval of this Special Use Permit does not in any way cause any changes to any of the conditions of approval or mitigation measures previously adopted for the Terranea Resort and Spa project. All previously adopted conditions of approval or mitigation measures shall remain in full force and effect and are to be complied with while this event takes place.

26. Failure to adhere to all of these conditions may result in the City's denial of a Special Use Permit for any such event in the future. City representatives will visit the site, before, on, and after the date of the event to verify compliance with these conditions.
27. The County Sheriff's Department or the Los Angeles County Fire Department may suspend the Special Use Permit and Special Roadway Event Permit at any time, if, in the opinion of either of the Departments, the event is significantly adversely affecting the public health and safety.
28. As determined by the City's Building Official, the applicant shall obtain a building permit for any temporary tents, if necessary.
29. One Emergency Management Teams/First Aid Station shall be provided on site for the duration of the event, at the Start/Finish Area.
30. The applicant shall submit proof of agreement with a City approved waste hauler, verified by the Public Works Department, for trash and recycling services associated with the event. Also, upon conclusion of the event, the applicant shall submit to the satisfaction of the Public Works Department the required Post-Event Solid Waste Management Worksheet.
31. If any natural habitat located on the Terranea property is damaged by the staging of the event, the property owner (Terranea Resort) is responsible for the replacement of lost habitat, to the satisfaction and approval of the Community Development Department.

Palos Verde 1/2 Marathon

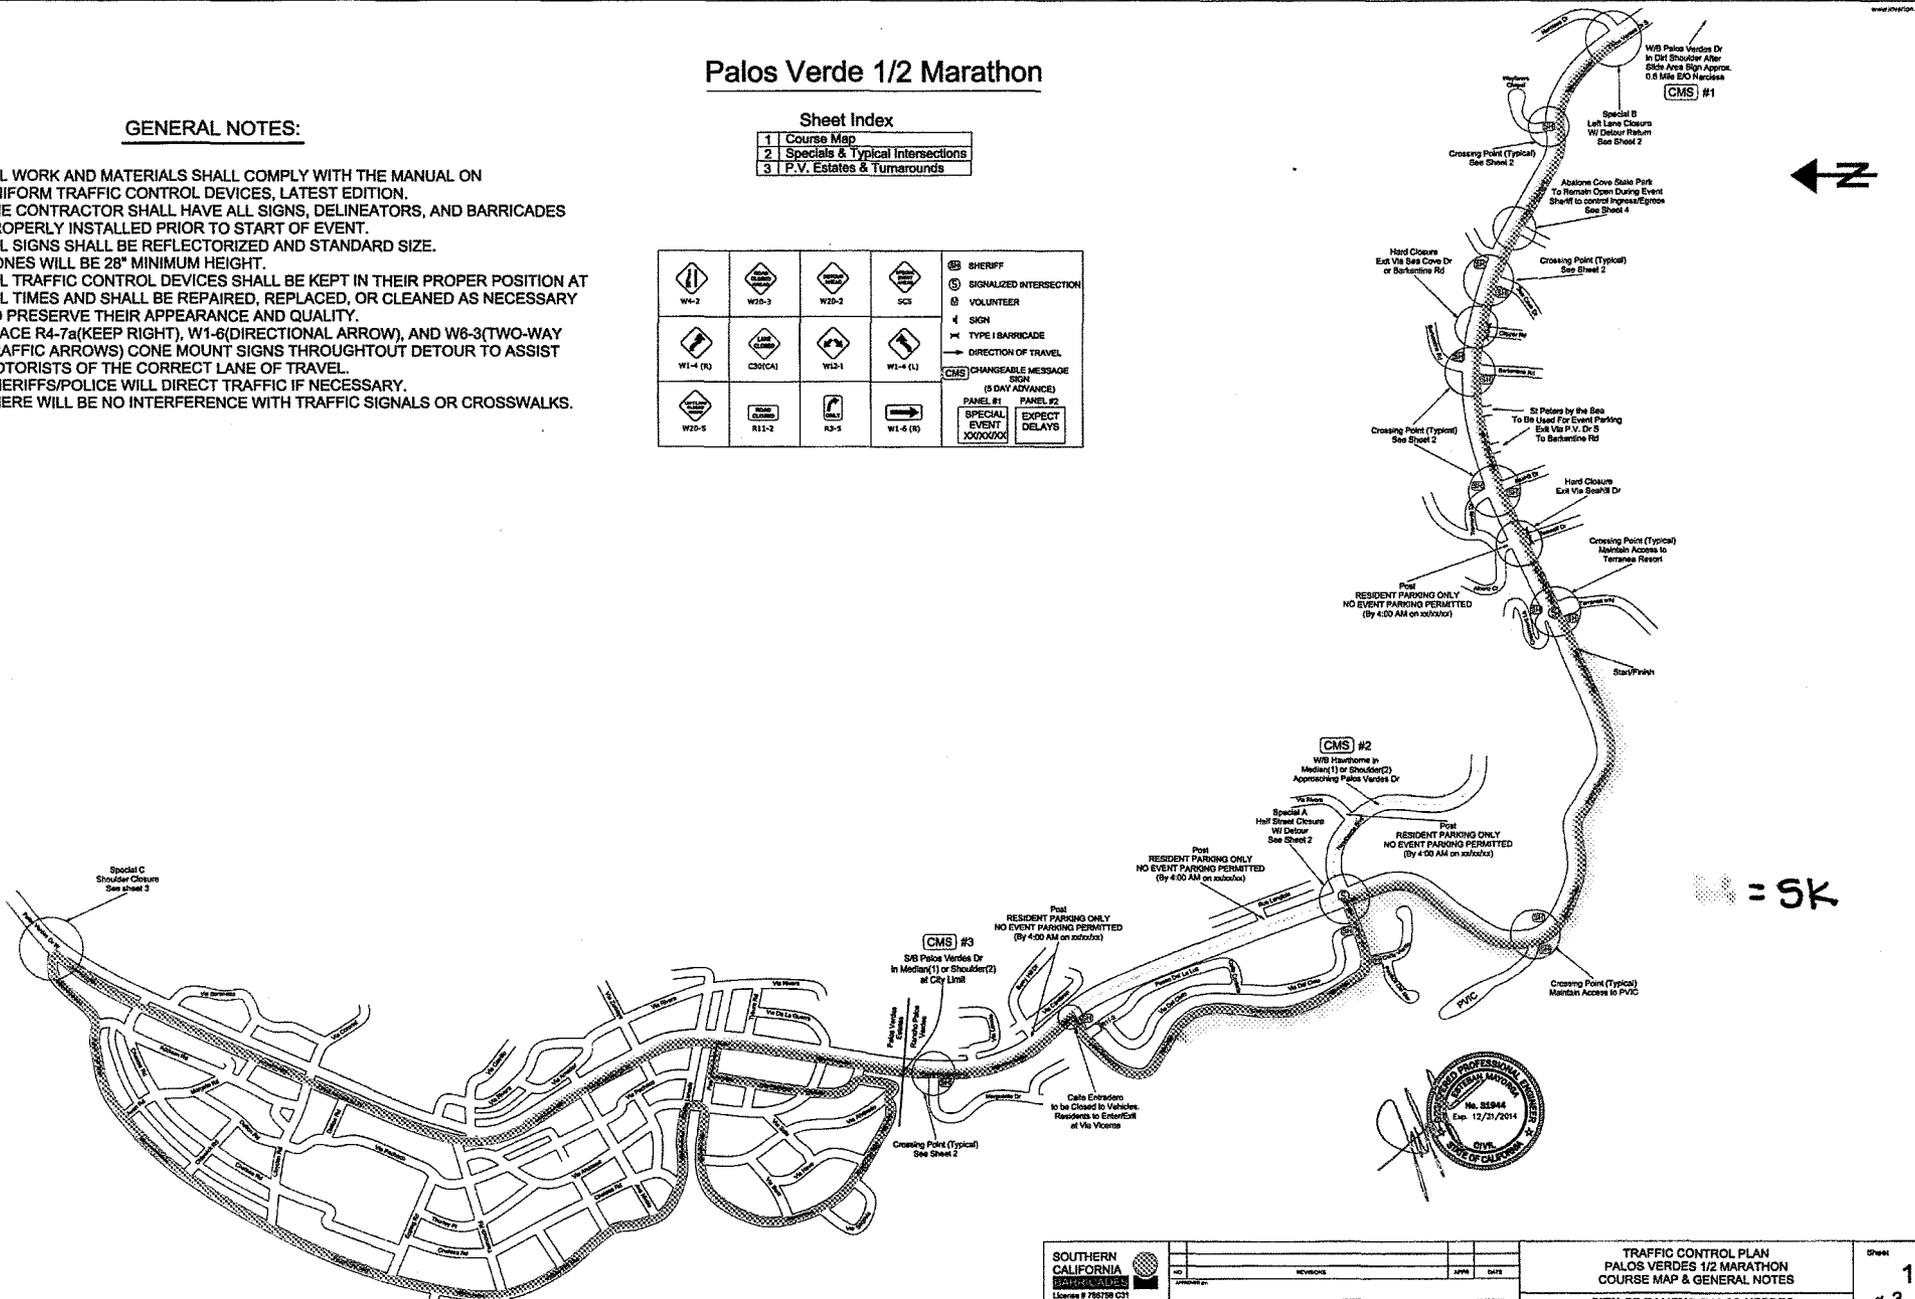

GENERAL NOTES:

1. ALL WORK AND MATERIALS SHALL COMPLY WITH THE MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES, LATEST EDITION.
2. THE CONTRACTOR SHALL HAVE ALL SIGNS, DELINEATORS, AND BARRICADES PROPERLY INSTALLED PRIOR TO START OF EVENT.
3. ALL SIGNS SHALL BE REFLECTORIZED AND STANDARD SIZE.
4. CONES WILL BE 28" MINIMUM HEIGHT.
5. ALL TRAFFIC CONTROL DEVICES SHALL BE KEPT IN THEIR PROPER POSITION AT ALL TIMES AND SHALL BE REPAIRED, REPLACED, OR CLEANED AS NECESSARY TO PRESERVE THEIR APPEARANCE AND QUALITY.
6. PLACE R4-7a(KEEP RIGHT), W1-6(DIRECTIONAL ARROW), AND W6-3(TWO-WAY TRAFFIC ARROWS) CONE MOUNT SIGNS THROUGHOUT DETOUR TO ASSIST MOTORISTS OF THE CORRECT LANE OF TRAVEL.
7. SHERIFFS/POLICE WILL DIRECT TRAFFIC IF NECESSARY.
8. THERE WILL BE NO INTERFERENCE WITH TRAFFIC SIGNALS OR CROSSWALKS.

Coyote Management Plan

Goals

The goal of this Management Plan is to support coexistence with urban coyotes using education, behavior modification and development of a tiered response to aggressive coyote behavior. The tiered response requires active participation on the part of the entire community including residents, homeowners associations, volunteers and city personnel.

This Management Plan is based on research and best known management practices and includes a full spectrum of management tools. Basic principles that guide this Plan are based on the following:

1. Urban wildlife is valued for biological diversity, as members of natural ecosystems, and reminders of larger global conservation issues.
2. Urban wildlife and wildlife habitats are important to Rancho Palos Verdes residents. Although urban environments are more favorable to some species than others, coexistence is the foundation of city's general wildlife management programs.
3. Human safety is a priority in managing wildlife/human conflicts that pose a danger to people.
4. Preventive practices such as, reduction and removal of wildlife attractants, habitat manipulation (e.g. removal of potential coyote denning areas), and responding appropriately during human and wildlife interactions when interacting with wildlife are key to minimizing potential human conflicts.
5. Rancho Palos Verdes management techniques and decisions are based on a thorough understanding of the biology and ecology of urban wildlife species.
6. Education and communication are essential in supporting human and animal needs and coexistence.
7. Emphasis of this management plan is placed on preventative measures and nonlethal controls.

Difficulties Managing Wildlife

Although Rancho Palos Verdes places a high value on its wildlife, some species adapted to urban environments have the potential for problems and/or conflicts in specific situations. In addressing problems, the city promotes policies supporting

prevention and implementation of remedial measures that do not harm the wildlife or their habitats.

A wildlife problem is defined as any situation that causes a health or safety issue to its residents. In cases where problems with wildlife are associated with human behavior (leaving garbage exposed or intentional wildlife feeding), ordinances and enforcement may be enacted to minimize conflict.

In some cases, particular or traditional management tools are ineffective. For examples, trapping coyotes and relocation of animals is not ecologically sound. Generally, many relocated animals do not survive the transfer. If they do, they tend to disperse to other locations where they may cause problems. In some instances, the dispersed coyotes will go to great lengths to return to known territory or adversely affect residents.

As a last resort, lethal control measures are controversial and non-selective. If they are used, they must be humane and in compliance with federal and state laws and require prior approval by the City.

Limits of this Management Plan

The intent of this plan is to provide guidance for city staff and Homeowners in dealing with coyotes in Rancho Palos Verdes. Guidelines and provisions of this plan do not supersede federal, state and county regulations and policies. Furthermore, the provisions of this plan do not apply to Rancho Palos Verdes residents in pursuit of their legal rights in dealing with coyotes.

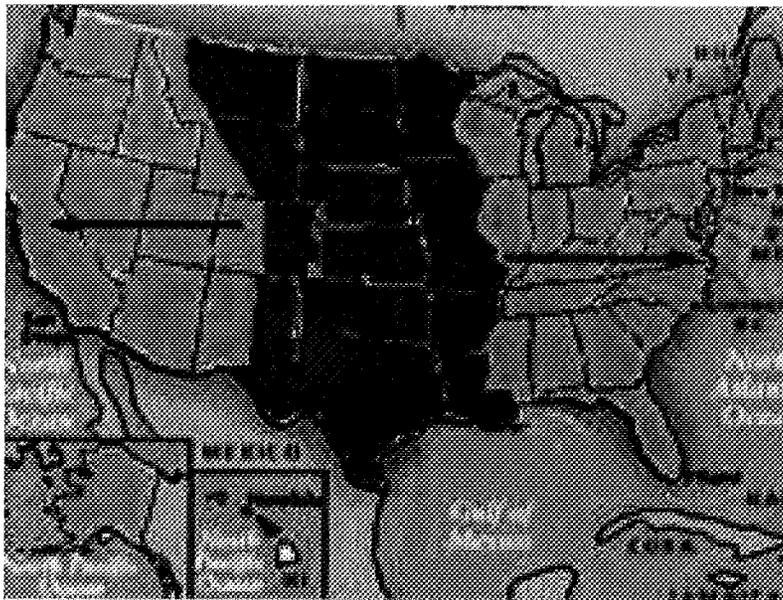

The Coyote (*Canis latrans*)

Where are coyotes from?

Coyotes are originally native to California and several other western states. Due to their intelligence, adaptability, the decline of larger animals and urban sprawl, coyotes have successfully expanded their range. They are now found in all states except Hawaii and have successfully established themselves in every urban ecosystem across North America.

Coyote dispersal range

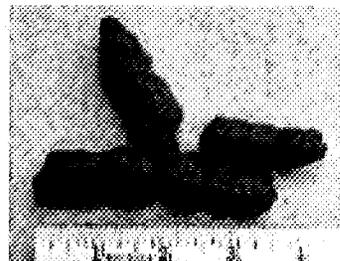

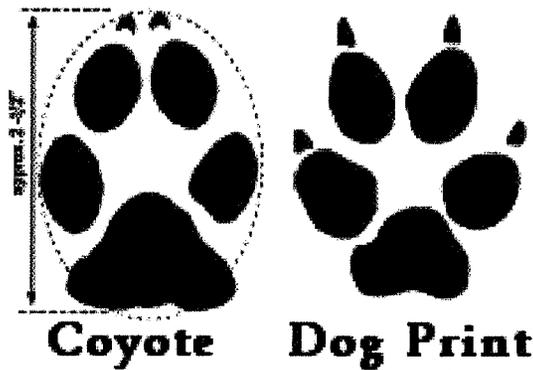

What do coyotes look like?

On the upper parts of their body, coyote pelts vary from gray-brown to yellow-gray. Their backs have tawny-colored under fur and long overcoats with black-tipped guardhairs. The latter forms a dorsal stripe and dark band over their shoulders. Throat and bellies tend to be buff or white. Forelegs, sides of the head, muzzle and feet are reddish brown. Coyotes have long legs, small paws, large pointed ears and a pointed snout. Weighing between 15 to 40 pounds, their long legs and thick fur make them appear larger.

How do you know where coyotes are?

If you do not directly see a coyote, you may notice paw prints or scat (feces) left behind or even may hear them. Their prints are similar to dogs and difficult to tell apart. However, unlike dogs, their scat is rope-like and typically filled with hair, seeds and bones. Coyotes use scat to communicate and often deposit it in the middle of a trail or edge of their territory where it is easily seen. Coyotes howl, bark or whine – usually to communicate with each other.

How and where do coyotes live?

Coyotes may live alone, in pairs, or in family groups with one breeding pair, generally mating once a year, usually January through February. Social organization and group size are highly correlated with food availability. The rest of the group is comprised of multiple generations of offspring. Pups are born March through May. The entire group protects the pups though pup mortality averages between 50 and 70% in the first year. Litter size depends on available resources and the number of coyotes in the area.

Although a litter varies from two to 12 pups, the average is six or seven. Pups remain in the den the first six weeks and then travel with the adults. By the end of summer; they are more independent, yet, may still travel with parents and siblings.

Because coyotes are socially organized, the group raises the young and defends their territory from other coyotes. Territories do not overlap. Although they generally live in groups, coyotes often travel alone or in pairs.

In the urban areas, most coyotes live in large parks, golf courses, greenways and natural open space where they find food and cover. Thus, their territory may follow the park or open space boundaries. They are extremely adaptable in creating territories under a wide range of urban conditions.

What role do coyotes play in the environment?

Coyotes play an important role in the urban ecosystem. They are predators of geese, eggs, squirrels, mice, rabbits, rats, gophers and other small animals. Rodents make up a majority of their diet. Areas with resident coyotes often report a decrease in rodents and geese populations.

How do humans perceive coyotes?

People respond to coyotes in various ways. Some observe them with enjoyment, others with indifference and some with fear or concern. Personal experiences with coyotes may influence their perceptions. Experiences range from animal sightings without incident to stalking, killing of pets or, at the extreme, an attack on a person.

Because wild animals conjure up fear, actual sightings and perceptions may become exaggerated or misconstrued (see Appendix A for coyote description encounters). The wide range in perceptions of urban coyotes from Rancho Palos Verdes residents supports the need for strong and consistent educational messages to clarify management techniques.

Have coyote numbers increased in Rancho Palos Verdes?

Without tracking and updated inventories, it is difficult to know if the number of coyotes has increased in an area. What is known is that coyotes can become habituated if they are intentionally or unintentionally fed, which can lead to bolder behavior when coyotes lose their fear of people. Coyotes, like all predators, will stabilize their populations if they are not constantly exploited. Coyotes regularly roam an area of about 3-6 square miles or whatever it takes to get enough food for the pack members. Normally, each pack is a territorial family group that varies in number from 3 to 10 individuals. A portion of the area the pack inhabits is the pack's territory, which they defend from other coyotes. The number of mature coyotes in the pack is linked to the amount of food resources in the territory. The pack system keeps coyotes from getting too numerous because the packs defend the area they need to survive.

A coyote pack usually has one breeding (or alpha) female. This female produces many more puppies than are ultimately wanted in the pack. Young coyotes may leave the pack at about 9 -11 months of age but dispersal patterns are highly variable. These coyotes become transients. Other types of transients include older individuals that can no longer defend their role as upper level pack members and leave the pack.

Transients move all over in narrow undefended zones that exist between pack territories searching for an open habitat to occupy or group to join. They often die before they succeed (many are hit by cars). It is largely because of these transients that coyote culling programs are unsuccessful.

Removing a group of territorial coyotes will create an undefended area into which the transient coyotes will flow. At all times of the year, numbers of transients are immediately available to replenish any voids created by killing the resident coyotes. Further, if either the alpha male or alpha female in a pack is killed, the

resulting effect may result in ovulation in other breeding-age females in the pack and an increase in the number of litters as well as the number of pups per litter.

How do humans affect coyote behavior?

Cities may support larger populations of animals in close proximity to people for the following reasons:

- 1) Increased access to food. People provide easy access to large supplies of food by leaving pet food, bird seed, unsecure compost or trash and fallen fruits in yards. Unintentional and intentional feeding of coyotes may encourage bold behavior and increase aggression towards people and pets. Intentional feeding can lead coyotes to see people as a source of food.
- 2) Increased access to water. Year round water supplies in cities from man-made ponds, lakes, irrigation, pet water dishes, etc. increase water for prey animal and coyotes.
- 3) Increased potential shelter. Parks, open spaces, golf course buildings, vehicles, sheds, decks, crawl spaces, among others increase the amount and variability of coyote shelters. They can safely and easily remain close to people, pets, homes and businesses without detection.
- 4) Increased exposure to pets. Pets are a normal part of an urban landscape and to urban coyotes they are considered other animals in their habitats. Pets can be considered potential prey or a potential competitor in coyote territory.

While human attacks are very rare, urban landscape development, habituation through intentional and intentional feeding, pet related incidents and media attention have led some urban residents to fear coyotes. Steps must be taken to address safety concerns and misconceptions and appropriate responses to potential threats to human safety. It's important to keep in mind that coyotes have been in and around Los Angeles (and other parts of Southern California), interacting with and being seen by people, for as long as the city has existed.

Hazing and Behavioral Change

Some coyotes have become too comfortable in the close proximity of people. To safely coexist, it's important to modify this behavior and attitude in resident coyote populations. Habituated coyote behavior needs to be reshaped to encourage coyotes to avoid contact with humans and pets.

Hazing – also known as “fear conditioning” is the process that facilitates this change and is by necessity a community response to negative encounters with coyotes. The more often an individual animal is hazed, the more effective hazing is in changing coyote behavior (see Appendix C for coyote hazing overview).

Goals of Hazing

The goals of hazing are to:

- Reshape coyote behavior to avoid human contact in an urban setting.
- Give residents tools to actively engage in reshaping coyote behavior and to support feeling safe in their parks and neighborhoods.
- Model hazing behavior and share accurate information about coyotes with other residents, friends and family.

Hazing Process

Human behavior can shape animal behavior, in either a negative or positive manner. People living in close proximity to coyotes can remove coyote attractants, identify potentially dangerous situations for their pets and themselves, and respond in a manner designed to change coyote behavior.

Behavioral change and hazing includes the following:

- 1) Pet owners need to protect pets. Off-leash and unattended dogs and unattended outside cats attract coyotes (as well as pet food).
- 2) Residents need to learn hazing effectiveness and techniques. A hazing program must be instituted and maintained on a regular basis.
- 3) Hazing needs to be active for a sustained period of time to achieve the desired change for the highest possible long-term success.
- 4) Hazing requires monitoring to assess its effectiveness and to determine if further action or more aggressive hazing is needed.

Overview of Hazing

Hazing is a process whereby a number of individuals encountering a coyote respond in like manner to make a coyote uncomfortable and choose to leave a situation where their presence is unwanted.

Basic hazing consists of standing your ground, never ignoring or turning your back to a coyote(s), yelling and making unpleasant and frightening noises until the animal(s) choose to leave.

More aggressive hazing consists of approaching an animal quickly and aggressively, throwing projectiles, spraying with a hose or water gun, or creating fear of contact so the animal leaves the situation. For more options see Appendix C on hazing.

Hazing must continue once it begins until the animal leaves, otherwise, the coyote will learn to “wait” until the person gives up. Not following through with

hazing will create an animal more resistant to hazing instead of reinforcing the image that “people are scary.”

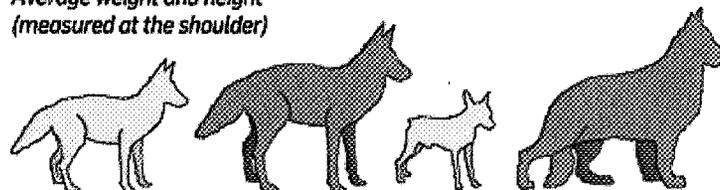

Hazing should never injure the animal. An injured animal becomes less predictable versus a normal, healthy one who responds in a consistent and predictable manner to hazing.

A common concern with hazing involves potential danger to the hazer. A coyote’s basic nature is very skittish and the nature of the species is what makes this technique successful. A normal, healthy coyote will not escalate a situation with an aggressive person. Hazing is NOT successful with every species of wild animal because different types of animals have different traits.

AT A GLANCE

Larger, more wiley and much more varied in color than its Western counterpart, the Eastern coyote is a product of migration and adaptation, establishing itself in New Jersey and other urbanized Eastern areas more than 50 years ago.

*Average weight and height
(measured at the shoulder)*

**Western
coyote**

Weight: 20-30 lbs.
Height: 18 inches

**Eastern
coyote**

Weight: 30-40 lbs.
Height: 24 inches

**Miniature
pinscher**

Weight: 8-20 lbs.
Height: 12 inches

**German
shepherd**

Weight: 85-95 lbs.
Height: 26 inches

Management Strategy

The City's strategy for managing coyotes is based on balancing respect and protection for wildlife and their habitats without compromising public safety. The main strategy is comprised of a two-pronged approach consisting of public education designed around co-existence with coyotes and ensuring public safety by implementing appropriate responses to a coyote attack on a human.

Public Education and Outreach

Education is the key to having residents make appropriate decisions regarding their safety, or managing their property and pets. This involves decreasing attractants, increasing pet safety and creating reasonable expectations of normal coyote behavior. Learning how to respond to a coyote encounter empowers residents and supports reshaping undesired coyote behavior. The public should understand what normal coyote behavior is when living in close proximity with coyotes. For example, vocalization is normal acceptable behavior and does not indicate aggression. Education and outreach include:

- 1) Understanding human safety, pet safety, coyote attractants, deterrents to coyotes on private property, including appropriate fencing, exclusion techniques, "what to do" tips, and information on appropriate hazing techniques.
- 2) Developing a common language and awareness of normal versus abnormal behavior when discussing encounters with coyotes (see definitions in Appendix A)
- 3) Dissemination of information to residents, businesses and schools through the city's website, CTV, media newsletter, e-news, etc.
- 4) Cooperating with non-profit organizations like Project Coyote and agencies like that National Park Service that provide public education materials, programs, and expertise.

Attack Response Plan

An "attack" is defined as: when a human is injured or killed by a coyote. (see Appendix A for definitions). If a human is attacked and physically injured by a coyote, City staff will inform the California Department of Fish and Game. (See Appendix B on levels of coyote behavior).

Trapping of Coyotes

According to State laws, coyotes are considered “non-game wildlife”, therefore any resident or homeowner association Board of Directors can initiate, at their own expense, action to protect themselves and their property from coyote attacks. However, Proposition 4, passed by California voters in 1998, prohibits leg-hold traps statewide and severely restricts use of other body gripping traps. No private individual is authorized to discharge a firearm within the City of Rancho Palos Verdes.

Although, as stated in the previous paragraph, Residents have the ability to initiate, at their own expense, trapping and removal of coyotes. The City has entered into contract with the County of Los Angeles to provide trapping services in the City only when it has been determined by the City that an “aggressive” coyote exists. As it is well known that trapping and the resulting euthanization of a coyote is not as effective as other methods of hazing contact with coyotes as discussed within this plan, the City shall be the one to determine if a case needs to be brought to the County’s attention or simply additional education instruction is needed. If the County is contacted by the City because the City feels that a coyote may be “aggressive” and cause concern for the public’s safety, the County will still conduct their own assessment to determine if trapping should occur.

If a resident is concerned with coyotes in their area, the City recommends following the guidelines in this plan and other handout material in decreasing attractants and increasing pet safety in order to help shape coyote behavior to avoid human contact. A resident may contact the City’s Code Enforcement Division if they have any questions or wish to report an aggressive coyote.

Appendix A

Definitions on Encounters with Coyotes

Active coexistence: Humans and coyotes exist together. Communities decide on community space, such as open spaces, where coyotes are appropriate and do not haze, feed, or interact with them in these areas. Humans take an active role in keeping coyotes in their community wild by learning about coyote ecology and behavior, removing attractants, taking responsibility for pet safety, and hazing coyotes in neighborhood or community spaces (except for predetermined coyote appropriate areas).

Attack: A human is injured or killed by a coyote.

Provoked - A human provoked attack or incident where the human involved encourages the coyote to engage. Examples include dog off-leash in an on-leash area; dog on leash longer than 6' in length, or a human intentionally approaches or feeds the coyote.

Unprovoked - An unprovoked attack or incident where the human involved does not encourage the coyote to engage.

Attended animal loss or injury: When a person is within 6' of the pet and the pet is on leash and is attacked and injured by a coyote.

Domestic animal loss or injury: A coyote injures or kills a pet animal. Also includes "depredation" - predation on domestic pets or livestock. Unattended animal loss or injury is normal behavior for a coyote.

Encounter: An unexpected, direct meeting between a human and a coyote that is without incident.

Feeding:

Intentional feeding - A resident or business actively and intentionally feeds coyotes including intentionally providing food for animals in the coyote food chain.

Unintentional feeding - A resident or business is unintentionally providing access to food. Examples such as accessible compost, fallen fruit from trees, left open sheds and doors, pet food left outdoors, among others.

Unintentional feeding – bird feeders: A resident or business with bird feeders that may provide food for coyotes, e.g. birds, bird food, rodents, squirrels. Bird feeders must be kept high enough from the ground so a coyote is unable to reach the feeding animals. The area under the bird feeder must be kept clean and free of residual bird food.

Hazing: Training method that employs immediate use of deterrents to move an animal out of an area or discourage an undesirable behavior or activity. Hazing techniques include loud noises, spraying water, bright lights, throwing objects, shouting. Hazing can help maintain a coyote's fear of humans and deter them from neighborhood spaces such as backyards and play spaces. Hazing does not damage animals, humans or property.

Incident: A conflict between a human and a coyote where the coyote exhibits the following behavior: approaches a human and growls, bares teeth, or lunges; injures or kills an attended domestic animal. A human is not injured.

Levels of animal contact

Level 1: A coyote that has been involved in an investigated and documented unprovoked attack on a human. Targeted education and hazing needed public awareness of incident and circumstances discussed, lethal response may be appropriate.

Level 2: A coyote that has been involved in an investigated and documented provoked attack on a human with no pet involved. Evaluate circumstances and human safety, provide education and hazing training, enhance public awareness of incident and circumstances. Lethal response may be appropriate.

Level 3: A coyote is involved in an incident(s) and/or an attended domestic animal loss. Education and hazing needed, public awareness of incident and circumstances discussed.

Level 4: A coyote appears to frequently associate with humans or human related food sources, and exhibits little wariness of people presence, including unattended domestic animal loss. Education and hazing needed, public awareness of incident and circumstances discussed.

Observation: The act of noticing or taking note of tracks, scat or vocalizations.

Sighting: A visual observation of a coyote(s). A sighting may occur at any time of the day or night.

Unsecured Trash: Trash that is accessible to wildlife, e.g. individual garbage cans, bags or uncovered or open dumpsters or trash cans over-flowing or where scattered trash is outside the receptacle.

Appendix B

Coyote behavior, behavior classification and recommended response

| Coyote Action | Classification | City and/or Resident Response |
|---|-----------------------|---|
| Coyote heard | Observation | Distribute educational materials and info on normal coyote behavior |
| Coyote seen moving in area | Sighting | Distribute education materials and info on normal coyote behavior |
| Coyote seen resting in area | Sighting | If area frequented, educate people on normal behavior, haze to encourage animal to leave |
| Coyote following or approaching a person & pet | Sighting Encounter | Educate on potential hazing techniques, what to do tips and pet management |
| Coyote following or approaching a person w/o pet | Encounter | Educate on potential hazing techniques, what to do tips and pet management |
| Coyote entering a yard without pets | Sighting | Educate on coyote attractants, yard audit, hazing info |
| Coyote entering a yard with pets | Encounter | Educate on coyote attractants, yard audit, hazing info, pet management |
| Coyote entering yard and injuring or killing pet | Incident | Develop hazing team in area, gather info on specific animals involved, report on circumstances, educate on coyote attractants, yard and neighborhood audits, pet management |
| Coyote entering yard with people & pets, no injury occurring | Encounter | Gather info on specific animals involved, report circumstances, educate on coyote attractants, yard/neighborhood audits, hazing, pet management |
| Coyote biting or injuring pet on leash | Incident | Gather info on specific animals involved, report circumstances, educate on coyote attractants, yard/ neighborhood audits, hazing, pet management, trapping may be necessary |
| Coyote aggressive, showing teeth, back fur raised, lunging, nipping w/o contact | Incident | Gather info on specific animals involved, report circumstances, educate on coyote attractants, yard/ neighborhood audits, hazing, pet management, trapping may be necessary |
| Coyote biting or injuring person | Attack | Identify and gather information on specific animal involved, report circumstances, educate on coyote attractants, yard/ neighborhood audits, hazing, and pet management,. If a human is attacked and physically injured by a coyote, City staff will inform the California Department of Fish and Game, trapping may be necessary |

Appendix C

Hazing Program and Training Plan

Coexistence is not a passive undertaking. The City's guiding principles are to coexist with wildlife.

Hazing and Behavioral Change

Some urban coyotes have become comfortable in close proximity to people. To safely coexist, it's important to modify this behavior and attitude in resident coyote populations. Urban coyote behavior needs to be reshaped to encourage coyotes to avoid contact with humans and pets.

Hazing is the process that facilitates this change and is by necessity a community response to encounters with coyotes. The more often an individual animal is hazed, the more effective hazing is in changing coyote behavior.

Hazing employs immediate use of deterrents to move an animal out of an area or discourage undesirable behavior or activity. Deterrents include loud noises, spraying water, bright lights, throwing objects, shouting. Hazing can help maintain a coyote's fear of humans and discourage them from neighborhoods such as backyards and play areas. Hazing does not harm or damage animals, humans or property. Behavioral change also involves human activities such as how to identify and remove attractants and how to responsibly protect pets.

Foundation of Hazing

- 1) It is not economically, ecologically or in other ways efficient to try and remove coyotes from the urban ecosystem.
- 2) Hazing is one piece of a long term plan in creating safe and acceptable living situations, increase understanding and reduce conflict between coyotes and people.

Goals of Hazing

- 1) To reshape coyote behavior to avoid human contact in an urban setting. Human behavior can shape animal behavior, in either a negative or positive manner. People living in close proximity to coyotes can remove coyote attractants, identify potentially dangerous situations for their pets and themselves, and respond in a manner designed to change coyote behavior.
- 2) To provide residents information and tools to actively engage in reshaping coyote behavior and to support feeling safe in their parks and neighborhoods. This can be accomplished by teaching residents hazing techniques. The latter will be initiated by community volunteers.

- 3) To model hazing behavior and share accurate information about coyotes among other residents, friends and family.
- 4) Monitor hazing to assess its effectiveness and determine if further action or more aggressive hazing is needed.
- 5) Possibly develop long-term community based hazing programs by volunteers.

General Considerations

1. Levels of hazing need to be appropriately relevant to coyote activity.
 - a) Coyotes live in open spaces and the best practice is to leave them alone and educate the public on personal safety.
 - b) Coyotes are often out late at night when few people are present. This is normal acceptable behavior. Hazing may not be necessary.
 - c) Exceptions: In early stages of hazing, programs should still engage animal. Coyotes that associate danger in the presence of people under all circumstances will be reinforced to avoid contact.
2. Hazing must be more exaggerated, aggressive and consistent when first beginning a program of hazing. As coyotes “learn” appropriate responses to hazing, it will take less effort from hazers. Early in the process, it is extremely common for coyotes not to respond to hazing techniques. Without a history of hazing, they do not have the relevant context to respond in the desired outcome (to leave).
3. Techniques and tools can be used in the same manner for one or multiple animals. Usually there is a dominant animal in a group who will respond - others will follow its lead. DO NOT ignore, turn your back or avoid hazing because there are multiple animals instead of a single individual.
4. The more often an individual coyote is hazed by a variety of tools and techniques and a variety of people, the more effective hazing will be in changing that animal’s future behavior.
5. Hazing must be directly associated with the person involved in the hazing actions. The coyote must be aware of where the potential threat is coming from and identify the person.
6. Coyotes can and do recognize individual people and animals in their territories. They can learn to avoid or harass specific individuals in response to behavior of the person and/or pet.
7. Coyotes can be routine in habit. Identifying their normal habits can help target which habits to change. For example, the coyote patrols the same bike path at the same time in the morning three to five days a week. Hazers should

concentrate on that time and place to encourage the animal to adapt its routine to decrease contact with people.

8. Certain levels of hazing must always be maintained so that future generations of coyotes do not learn or return to unacceptable habits related to habituation to people.
9. Human behavior must change to support hazing and continued identification and, if necessary, remove possible attractants.
10. Education about exclusion techniques including how to identify and remove attractants, personal responsibility in pet safety and having reasonable expectations are critical parts of a coyote hazing plan.
11. Coyotes are skittish by nature. Habituated behavior is learned and reinforced by human behavior. Coyotes as a rule DO NOT act aggressively towards aggressive people. The one exception is a sick or injured animal. Engaging a sick or injured animal can result in unpredictable behavior. If this is suspected, people should not engage and remove themselves from the situation, then inform appropriate agencies (i.e. California Department of Fish and Game).

Summary of Hazing

Hazing is a process whereby individuals and volunteers respond in like manner to make a coyote uncomfortable and choose to leave a situation where their presence is unwanted.

Basic hazing consists of standing your ground, never ignoring or turning your back to a coyote(s), yelling and making unpleasant and frightening noises until the animal(s) choose to leave.

More aggressive hazing consists of approaching an animal quickly and aggressively, throwing projectiles, spraying with a hose or water gun, or creating fear of contact so the animal leaves the situation. Note: Many projectiles are not legal including but not limited to slingshots, paintballs, guns and pepper balls.

Hazing must continue once it begins until the animal leaves, otherwise, the coyote will learn to “wait” until the person gives up. The coyote will create an animal more resistance to hazing instead of reinforcing the image that “people are scary”.

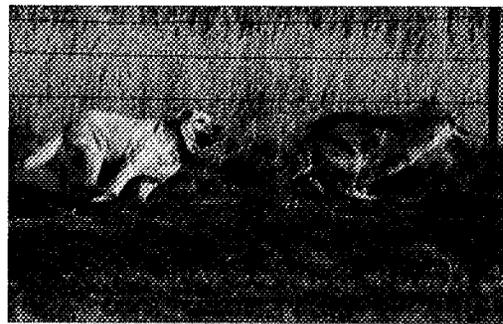

Hazing should never injure the animal. An injured animal becomes less predictable versus a normal, healthy one who responds in a consistent and predictable manner to hazing.

Hazing should be conducted in a manner that allows the coyote to return to its normal habitat in a direction that would minimize harm to the animal. Hazing the animal in the direction of other houses and busy streets should be avoided.

Hazing uses a variety of different hazing tools. This is critical as coyotes get used to individual items and sounds.

- Noisemaker: Voice, whistles, air horns, bells, “shaker” cans, pots, pie pans
- Projectiles: sticks, small rocks, cans, tennis balls, rubber balls.
- Deterrents: hoses, spray bottles with vinegar, pepper spray, bear repellent, walking sticks

FOLLOW-UP AGENDA

**RANCHO PALOS VERDES PLANNING COMMISSION
TUESDAY, NOVEMBER 12, 2013
FRED HESSE COMMUNITY PARK, 29301 HAWTHORNE BOULEVARD**

**REGULAR MEETING
7:00 P.M.**

SCHEDULING NOTES

REQUESTS TO SPEAK ON AN ITEM MUST BE SUBMITTED TO THE COMMUNITY DEVELOPMENT DIRECTOR PRIOR TO THE COMPLETION OF THE REMARKS OF THE FIRST SPEAKER ON THE ITEM. NO REQUEST FORMS WILL BE ACCEPTED AFTER THAT TIME.

PURSUANT TO ADOPTED PLANNING COMMISSION PROCEDURE, UNLESS THE PLANNING COMMISSION AGREES TO SUSPEND ITS RULES, NO NEW BUSINESS WILL BE HEARD AFTER 11:00 P.M. AND NO ITEM WILL BE HEARD PAST MIDNIGHT. ANY ITEMS NOT HEARD BECAUSE OF THE TIME LIMITS WILL BE AUTOMATICALLY CONTINUED TO THE NEXT COMMISSION AGENDA.

NEXT P.C. RESOLUTION NO. 2013-25

CALL TO ORDER: 7:05 P.M.

FLAG SALUTE: LED BY VICE CHAIR GORDON LEON

ROLL CALL: COMMISSIONER LEWIS AND TOMBLIN EXCUSED ABSENSE

APPROVAL OF AGENDA: APPROVED AS PRESENTED

COMMUNICATIONS:

City Council Items: DIRECTOR REPORTED THAT THE NOVEMBER 6, 2013 CITY COUNCIL MEETING, THE COUNCIL INTRODUCED AN ORDINANCE SETTING THE TERMS FOR THE PLANNING COMMISSIONERS AT 4 YEARS WITH A TERM LIMIT OF 8 YEARS. THE DIRECTOR ALSO NOTED THAT AT THE UPCOMING NOVEMBER 19, 2013 CITY COUNCIL MEETING THE COUNCIL WILL HEAR AN EXTENSION REQUEST BY GREEN HILLS FOR USE OF MODULAR BUILDINGS THAT THE PLANNING COMMISSION ACTED ON BACK IN 2011.

Staff: REPORTED THAT THE PLANNING COMMISSION DECISION ON OCTOBER 18, 2013 FOR A REVISED PROJECT AT 3344 PALOS VERDES DRIVE WEST WAS APPEALED BY THE CITY COUNCIL, HOWEVER, SINCE THE APPLICANT HAS WITHDRAWN THE REVISED APPLICATION, THE PLANNING COMMISSION'S DECISION IS NULL AND VOID.

Commission: NONE

COMMENTS FROM THE AUDIENCE (regarding non-agenda items): NONE

CONSENT CALENDAR: NONE

CONTINUED BUSINESS:

MEMORANDUM

TO: CAROLYN LEHR, CITY MANAGER 
FROM: CORY LINDER, DIRECTOR, RECREATION AND PARKS
DATE: NOVEMBER 13, 2013
SUBJECT: ADMINISTRATIVE REPORT

Little Critter Afternoon Tales this Wednesday

On Wednesday afternoon, November 13th, the City and PV Library District partnered to offer an hour of indoor story time fun at Hesse Park. This free monthly enrichment program offers parents and children the opportunity to sing songs, listen to stories and make a simple craft together. The program is geared to parents and children ages 2 to 5, but youngsters of any age are welcome.

Ranger-Led Night Hike this Saturday

The first night hike of the fall season is scheduled this Saturday night, November 16th. On this moderate hike, Mountains Recreation and Conservation Authority (MRCA) Park Rangers will lead participants through the Portuguese Bend Reserve by moonlight, sharing interpretive information about the Preserve, and hiking safety tips. Pre-registration is required.

Local Authors Book Signing A Hit!

The second annual Local Author Book Signing held last Saturday, November 9th at the Point Vicente Interpretive Center was a great success. Eleven local authors were onsite sharing their stories and autographing copies of their books. A total of 57 books featured at the book signing were sold! Staff from RPV Channel 33 were on hand for the event and got video coverage of all the authors. The public also had the opportunity to enjoy a free public tour of the Point Vicente Lighthouse.

Junior Ranger Program

On Saturday, November 9th, Junior Rangers met at the Ladera Linda Community Center and learned about way finding and compass use. Following the compass use exercise, the Junior Rangers made their own compasses to take home.

Fred Hesse Jr. Community Park

Subject: Cox Product and Services Update - Turner Networks

As you know, Cox must obtain permission from cable networks to provide their channels on Cox's cable channel lineup in Palos Verdes. Our company has been negotiating to renew our agreement with Turner Networks, parent company of the channels listed below. To date, we've been unable to reach equitable terms for a new agreement. Turner Networks could, therefore, require Cox to remove its channels from our lineup after November 15, 2013, when the current agreement expires. This decision is ultimately not within our control.

Boomerang (ch. 217/407)
Cartoon Network (ch. 68/1068)
CNN (ch. 14/1014)
CNN en Español (ch. 402)
CNNi (ch. 264)
HLN (ch. 50/1050)
TBS (ch. 8/1008)
TCM (ch. 45/1045)
TNT (ch. 18/1018)
truTV (ch. 49/1049)

We expect to continue actively negotiating with Turner Networks in an effort to avoid any disruption. If progress is not made, we will notify customers via crawls on our local origination channel(s) and/or the Weather Channel.

We will contact you with more information as this develops in the coming days. Please feel free to contact me at 858-836-7315 should you have any questions.

Subject: Cox Product and Services Update - Music Choice

Cox Communications is committed to providing our customers the best in entertainment and communication services. Please see the below legal notice regarding changes to Music Choice, including the addition of five new channels in our Palos Verdes service areas:

Cox Communications announces the following change to the channel lineup in our Palos Verdes service areas. Effective on or about December 10, 2013, Cox Communications California will make the following changes: Music Choice will be making changes to their lineup including the addition of new channels. Those channels are: Pop Rhythmic (902/1902), Pop Country (931/1931), Y2K (926/1926), Love Songs (920/1920) and Teen MC (923/1923). In addition, Music Choice is also removing the Classic Alternative channel, but Rock Hits (917/1917) will carry the best music from this channel. They are also renaming the following channels: Dance/Electronica (903/1903) changes to Dance/EDM, True Country (933/1933) changes to Country Hits and Retro Rock (917/1917) changes to Rock Hits. In addition, the following FM stations will be relocated from 949 & 950 to 970 & 971 at the same time: KCBS & KMVN. Televisions and other consumer owned devices equipped with a CableCARD may require a two way capable device or digital receiver in order to receive all programming options offered by Cox. For the residents of the City of Los Angeles, please contact the Information Technology Agency, Cable Franchise Division, 200 N. Main St., 14th floor, Los Angeles, CA 90012. Telephone number 3-1-1 – “One Call to City Hall” or (866) 452-2489. www.ita.lacity.org/ita

Should you have any questions, please do not hesitate to contact us.

Sincerely,
