

MEMORANDUM

RANCHO PALOS VERDES

TO: RANCHO PALOS VERDES CITY COUNCIL

FROM: DOUG WILLMORE, CITY MANAGER *DW (CW)*

DATE: SEPTEMBER 9, 2015

SUBJECT: ADMINISTRATIVE REPORT NO. 15-36

CITY MANAGER

- Councilman Buscaino's Homelessness Forum: Los Angeles 15th District Councilman Joe Buscaino convened a public forum on homelessness in San Pedro on Thursday, September 3rd. He reported through his weekly e-mail newsletter on September 4th that 1,200 people attended the event at the Warner Grand Theatre. The attached *Daily Breeze* article also provides a summary of the forum. Included in Councilman Buscaino's 8-step plan to address homelessness was the following commitment [emphasis added by Staff]:

I have written a letter addressed to all of the Mayors in the South Bay including Long Beach, Rancho Palos Verdes, Torrance, Lomita, Carson and Gardena requesting their buy-in for shared responsibility for homelessness issues. Like we are doing here in the Harbor Area, they need to step up their commitment to provide services and housing. We know that decentralization of services coupled with permanent supportive housing is the answer to solving this problem. It is not fair that a few communities in the County house the majority of service providers. In the letter, I am calling for the creation of a special committee within the South Bay Council of Governments focused on homelessness that will allow us to share experiences, ideas and best practices in our respective cities.

- Oriental Fruit Fly Eradication: On September 8th, Staff received the attached notice from the California Department of Food and Agriculture (CDFA) regarding a recently-identified infestation of Oriental fruit flies (OFFs) in San Pedro. Although the notice is issued to the "City of San Pedro" (where the OFFs were found), portions of several surrounding cities and communities are included within the eradication area, in accordance with CDFA eradication protocols. This includes all the neighborhoods on the east side of Palos Verdes Dr. E. (north of Calle Aventura and the northerly boundary of Friendship Park), as well as all of the *Eastview* area. Questions about the OFF eradication program should be directed to CDFA at (800) 491-1899. Additional information is also available on-line at http://www.cdfa.ca.gov/plant/PDEP/treatment/oriental_ff.html.

FINANCE

- GASB 68 Financial Reports: The City recently received its Governmental Accounting Standards Board (GASB) 68 reports. These reports will be used to comply with the new financial reporting standard for pension plans beginning with the June 30, 2015 financial statements. You may remember that the new standard requires the employee pension plan's unfunded liabilities be added to the City's Balance Sheet. We are currently in the process of analyzing the reports, and working with our auditors to ensure we meet the requirements of the new standard.

PUBLIC WORKS

- Grayslake Storm Drain Replacement Project: Staff is currently reviewing plans and specifications for the upcoming storm drain replacement in the right of way easement at the end of the cul-de-sac on Grayslake Rd. It is anticipated to award a construction contract in the autumn.
- Abalone Cove Sewer: Staff received various quotes to clean and repair some of the sewer lines that were found to be in need of cleaning and repairs during the recent sewer manhole inspections performed in this area. This work should begin in the next 60-days.
- Storm Drain Repairs: The City is requesting quotes to rehabilitate major storm drains throughout the City. Once quotes are received, it is most likely that the City Council will be requested to approve a construction contract.
- Public Works Encroachment Permits: The Public Works Department is responsible for control of work performed within the City Public "Rights of Way". An Encroachment Permit is required to insure that any applicant working in our streets or parkways is properly licensed, insured and in compliance with the NPDES requirements. Please view report @ <http://www.rpvca.gov/694/Permitting>
- Infrastructure Management Advisory Committee (IMAC): The September meeting is scheduled for Thursday 9/10/15 at 6 pm at Hesse Park. Click on the link to see the meeting agenda and the staff reports:
http://rpv.granicus.com/AgendaViewer.php?view_id=5&event_id=97 The Committee is also going on a field trip next Tuesday of infrastructure facilities about town as part of the public works tutorial process they have been engaged in since January.

ADMINISTRATIVE REPORT

September 9, 2015

Page 3

- Southern California Edison (SCE) Planned Power Outage: Southern California Edison has a planned power outage for this Saturday, September 12th, from 8am to 4pm, affecting approximately five SCE customers in the Forrestal Drive area, including the Ladera Linda Community Center. This power outage is needed for the upgrade of electrical equipment and a power pole, and the affected customers have been notified in advance by SCE. Any questions or concerns regarding power outages should be directed to SCE at 1-800-611-1911 or by using their website: <https://www.sce.com/outagecenter>

COMMUNITY DEVELOPMENT

- Marymount – Athletic Field Update: On Friday of last week, the City was notified by Marymount officials that it would be submitting the City a letter withdrawing its current incomplete Conditional Use Permit Revision Application for a new athletic field. Thus, Staff will be closing out the project file and updating the City's website accordingly.
- Crestridge Senior Housing Project: The Clubhouse Building associated with this project is taking shape as the building framing has been partially erected. Three other adjacent structures contain residences including one of the buildings that will be used as a sales model.
- Channelview Permit Parking: The California Coastal Commission (CCC) issued the attached notification of appeal of the City Council's approval for permit parking along Channelview Court. The reason for the appeal is that the approved permit parking program will adversely affect the public's ability to utilize the public street parking that supports access to the trails and beach, which is in violation of the public access and recreation policies of the Coastal Act and inconsistent with the Local Coastal Program because preferential parking is not allowed. Per the Coastal Commission rules, appeals have to be acted on by the Coastal Commission within 49 days of an appeal being filed. This requirement can only be waived by the applicant, which in this case is the City. If the City agrees to waive the 49-day period, then Coastal Staff will work with the City on an agreeable solution and whether such a solution is reached or not, will get the "de novo" hearing on the Commission's agenda as soon as possible. In this case, they would shoot for the January Coastal Commission meeting in San Diego. If the City does not waive the 49-day period, then they will have a "substantial issue" hearing at the October Coastal Commission meeting (Oct 7-9) which is in Long Beach and they will recommend that the Coastal Commission find "substantial issue" with the appeal. If the Coastal Commission agrees (and they will), then the de novo meeting is pushed off to whenever they can accommodate it which will likely be months (spring or summer of 2016). To avoid potential delays, the City Manager authorized Staff to notify the Coastal Commission that we would waive the 49-day period, Thus, Staff will be working with the CCC in the coming weeks to hopefully have the appeal dismissed or approved with modified conditions in January 2016.
- FAA SoCal Metroplex: In accordance with the National Environmental Policy Act (NEPA), the FAA released a Draft Environmental Assessment (EA) on June 10, 2015

ADMINISTRATIVE REPORT

September 9, 2015

Page 4

for public review and comment. The Draft EA document considers the potential environmental impacts of the implementation of the Southern California Optimization of Airspace and Procedures in the Metroplex (SoCal Metroplex) Project. The FAA has extended the current comment due date of September 8, 2015 by an additional 30 days. The comment period will now close on Thursday, October 8, 2015. As a reminder, the LA Int'l Airport/Community Noise Roundtable (Roundtable), which the City has membership of, submitted a comment letter raising concerns with the Draft EA related to shifting noise impacts from one City to another, exposing new residential areas to aircraft overflights, lowering aircraft altitudes over certain communities, and creating a concentration of flights over a narrower area when compared to existing conditions.

- Ladera Linda / PVPUSD Update: On September 8th, the City received a report from a resident concerned with extensive grading and electrical work being conducted on the School District's Ladera Linda property. Staff investigated the site and saw no signs of extensive grading. Staff also contacted Mrs. Cono with the PV Peninsula Unified School District who stated that no grading is occurring but that SCE is replacing older power poles with newer power lower poles on their property.
- Follow-up Planning Commission Meeting: See the attached follow-up agenda for the PC meeting held Tuesday, September 8, 2015.
- Applications of Note: Attached is a table with a summary of the Applications of Note that were submitted to the department between Wednesday, September 2, 2015 and Tuesday, September 8, 2015.

- Applications of Note – Page 33

RECREATION & PARKS

- Six junior rangers and their parents attended the first fall MRCA-led orientation last Saturday. Registration is still open and the second orientation will be held this Saturday, morning, September 12th, at the City Hall Community Room.
- The Los Serenos de Point Vicente Docents hosted an Open House for prospective new docents on Wednesday evening at PVIC. The next docent class will begin on Wednesday afternoon, September 16th.
- Hesse Park facilities are rented this week for twelve indoor recreation classes, two outdoor recreation classes, two Peninsula Seniors activities, two non-profit group meetings, six youth sports field rentals, and one private rental. The Little Critter Afternoon Tales story time enrichment program was held on Wednesday afternoon and the City's composting workshop will be held at the park on Saturday morning.

ADMINISTRATIVE REPORT

September 9, 2015

Page 5

- Ladera Linda facilities are rented this week for four indoor recreation classes. Staff report an abundance of caterpillars in the butterfly garden, all competing for Milkweed, the food source for the Monarch butterfly.
- The PVIC Sunset Room is rented Wednesday night for a non-profit rental and Saturday for a private rental.
- Ryan Park facilities are rented this week for two indoor recreation class, three outdoor recreation classes, and four youth sports field rentals. Six people attended the free Monday *Yoga in the Park* class.
- REACH, the Department's Therapeutic Recreation Program, offered one activity this week for adults with developmental disabilities. REACH participants and staff enjoyed a seaside picnic at the Point Vicente Interpretive Center followed by a tour of the museum.

TENTATIVE AGENDAS*

*This list is a tool used by the City to plan and coordinate Council agendas. As a working document, items on this list are subject to frequent changes.

Note: Time Estimates include 45 minutes for the first section of the agenda (Mayor's Announcements, etc. through the Consent Calendar) and 15 minutes for the last section (Future Agenda Items through Adjournment).

October 6, 2015 – (Time Est. – 3 hrs 20 mins)

Closed Session:

Mayor's Announcements: Recognition of 2015 Leadership Academy Attendees; Upcoming Shredding Event

City Manager Report:

Consent

Border Issues Status Report

Award Contract to Strath Pump for Dewatering Wells

UUT Refund Report

Award of Contract – Roan Road Storm Drain Rehabilitation

Informational Report regarding Organic Waste Recycling, AB 1826

EI Nino Preparation – Budget Adjustment

Public Hearings

Code Amendment – Delete City Street Tree Review Process (10 mins)

Regular Business

Adoption of Parks Master Plan (1 hr)

Discussion of Wireless Antenna Ordinance (Public ROW) (30 mins)

Approval of Yield and Stop Signs at Three Locations (15 mins)

City Health Benefits (10 mins)

Adoption of RPV Overhead Utilities Conversion Plan (Rule 20A or 20B) (15 mins)

October 20, 2015 – (Time Est. – 4 hrs)

Closed Session:

Study Session:

Mayor's Announcements:

City Manager Report:

Consent

Award Construction Contract for Hawthorne Blvd Right of Way Beautification (Phase 1)

Public Hearings

Outdoor Lighting Code Amendment (30 mins)

Regular Business

Lower Hesse Park Improvements (1 hr)

Enforcement Options in the Palos Verdes Nature Preserve (30 mins)

Status Report on Proposed LA-RICS Monopole at Upper Pt. Vicente (30 mins)

City Hall Monopole Leases (30 mins)

November 4, 2015 (Wednesday) – (Time Est. – 3 hrs)

Closed Session:

Mayor's Announcements: Recognition of City Employee

City Manager Report:

Consent

Public Hearings

Introduction of Updated General Plan (2 hrs)

Regular Business

November 17, 2015 – (Time Est. – 3 hrs 30 mins)

Closed Session:

Study Session:

Mayor's Announcements:

City Manager Report:

Consent

Award Pavement Striping Maintenance Contract

Public Hearings

St. John Fisher Annual Review (20 mins)

Regular Business

Proposed FY 2016-17 Community Development Block Grant (CDBG) Program (10 mins)

Year End Financial Report (30 mins)

Storm Drain User Fee Engineer's Report (30 mins)

Draft Western Avenue Design Guidelines (1 hr)

December 1, 2015 – (Time Est. – 3 hrs 45 mins)

Closed Session:

Mayor's Announcements:

**Certification of Election
Swearing in and Seating
Council Reorganization**

Recess/Reception: (45 mins)

City Manager Report:

Consent
Border Issues Status Report
Award Commercial Hauler Contracts

Public Hearings
Adoption of Updated General Plan (2 hrs)

Regular Business

December 15, 2015 – (Time Est. – 1 hr 45 mins)

Closed Session:

Study Session:

Mayor's Announcements:

Consent

Public Hearings
Vacation of Portion of Right-of-Way (Valley View Road) (30 mins)

Regular Business
Appt. of Council Members to Intergov. Orgs., Assocs. & City Subcommittees (15 mins)

January 5, 2016 – (Time Est. – 1 hr 20 mins)

Closed Session:

Mayor's Announcements:

City Manager Report:

Consent

Public Hearings

Regular Business

Consideration of Changing the Hours for Council Mtgs to Start and End Earlier (20 mins)

January 19, 2016 – (Time Est. – 2 hrs)

Closed Session:

Study Session:

Mayor's Announcements:

City Manager Report:

Consent

Public Hearings

Regular Business

Council Consideration of Storm Drain User Fee (1 hr)

Future Agenda Items (Identified at Council Mtgs & pending receipt of memo from Councilmember)

September 30, 2014 – Review of recent City Council Policy No. 47 and/or 48 regarding review of certain records and communications by Council Members (Campbell)

November 4, 2014 – Regulation of Drone Flights Along the City's Coastline (Brooks)

December 16, 2014 – Current Council Ancillary Insurance Coverage (Campbell)

January 20, 2015 – Consider feasibility of a resident oversight committee of the Sheriff Department's Services (Campbell)

April 21, 2015 – City Partnership with traditional non-profit organizations in a non-monetary way (Campbell)

June 2, 2015 – Public/private partnership regarding neighborhood beautification projects (Campbell)

July 21, 2015 – Wireless Antenna Master Plan (Campbell); Offshore Fireworks Display near Terranea in July 2016 to be funded by public/private partnership (Misetich); Unfunded Pension Liability with CalPERS (Campbell); Expansion of resident parking at Abalone Cove after evaluation of Del Cerro Parking Plan (Campbell)

August 4, 2015 – Status of Labor Negotiations with employees (Campbell)

September 1, 2015 – Opposition to AB 718 - Homeless People Sleeping/Resting in Cars (Brooks)

Future Agenda Items Agendized or Otherwise Being Addressed

October 7, 2014 - Process of responding to residents' emails sent to cc@rpv.com (Duhovic) [City Manager to research and address]

December 16, 2014 – Revisit the PVPLC Management Agreement regarding Naming Opportunities (Duhovic) [To be addressed by staff]

January 20, 2015 – Consideration of Renaming Shoreline Park (Duhovic) [Working with staff]

February 3, 2015 - Wireless Antenna Ordinance (Knight) [Agendized for October 6, 2015]

March 3, 2015 – Annexation of the Navy Fuel Depot property into the City to utilize the space as open space area into perpetuity (Misetich) [City Attorney Lynch researching]

June 30, 2015 – Skate Park (Campbell) [Staff will be working with Skatepark PV proponents]

July 7, 2015 – Earlier start time for City Council Meetings (Brooks) [Agendized for January 5, 2016 Council meeting]

August 4, 2015 – Update report regarding status of energy resources available to residents to lower utility bills (Knight) [Mayor Knight to provide an update report]; Consideration of Storm Drain User Fee (Campbell) [Agendized for January 19, 2016]

September 1, 2015 – Input from the City Manager regarding the Feasibility of Council obtaining materials for large items 2 weeks in advance (Campbell) [To be addressed under City Manager Report]

Game plan for solving San Pedro's homeless crisis unveiled

By Donna Littlejohn, Daily Breeze

DailyBreeze.com

Los Angeles City Councilman Joe Buscaino leads forum on aiding the homeless at Warner Grand Theater in San Pedro on Thursday. Robert Casillas — staff photographer

A packed San Pedro forum seemed to break through some of the tension and division over the recent rise in homelessness.

"It's important that we defuse the tension and work together to come to an understanding and a game plan for what we can do," said Los Angeles City Councilman Joe Buscaino, as he opened the meeting. An estimated 1,200 people had gathered on Thursday night at the Warner Grand Theatre.

• Video: Joe Buscaino opens San Pedro meeting on homeless at Warner Grand

The program focused on a multimedia presentation by Buscaino's staff. Instead of public comments, a panel of experts answered questions submitted via Facebook.

Wendy Harris of Saving San Pedro said the event was "overall good" with many questions answered but not all.

With homelessness spiking 12 percent countywide, 39 percent in the South Bay from two years ago according to a recent report, it was no surprise that frustration over the issue hit a boiling point over growing street encampments this summer.

Before the night ended, Buscaino announced a "what's next" plan including beefed-up street counseling and outreach efforts, an LAPD foot patrol through downtown San Pedro and the appointment of a community task force.

The forum will be broadcast on L.A.'s Channel 35 at a later date.

Reaction

There were smiles as the crowd filed out of the theater. But the test will be whether it will all be enough to move San Pedro past a crisis point that peaked this summer and has left some deep divisions.

Not everyone was left with a "feel-good" impression.

Nora Hilda of Helping the Homeless in Need said: "Too many groups and people were not acknowledged."

She said some of the success stories shared were made possible by volunteers from unrecognized groups including hers and that temporary housing still needs to be addressed.

Fernando Escobedo, her fiance said: "Talk is cheap. Let's see if they walk the walk."

Highlights

• Los Angeles Police Officer Deon Joseph, who has worked on Skid Row for 18 years, talked about how criminal elements can so quickly "co-opt" efforts to make life easier for those on the streets, including taking over portable restrooms and encampments. A "middle ground," he said, has to be found between some who want to remove the homeless from a community (resulting in a "concentration camp without walls" on Skid Row) to those who offer carte blanche to the homeless (resulting in the homeless being victimized and not helped). • Shari Weaver of Harbor Interfaith Services: "I'm a stubborn woman." Asked what can be done about those who decline help, she said she just goes back, as often as it takes. Buscaino noted that 76 people have been placed in homes since January using that tactic. "It may take a week, may take a month, may take years," Weaver said.

Advertisement

- Harris, of the Saving San Pedro Facebook page, questioned if that strategy means “are we going to be stuck with them on our sidewalk for 10 years.”
- Greg Speigel, director of Los Angeles Mayor Eric Garcetti’s homelessness policy said surveys show most — more than 90 percent — of the homeless on Los Angeles streets are from Los Angeles. More housing subsidies are needed.

Action plan details

Buscaino’s action plan was unveiled at the end of the 6 to 8 p.m. meeting:

- A county homeless outreach team will be increased from two to six intervention workers to find housing for individuals living on the streets; Buscaino’s Emergency Response Team will also expand with the addition of a two-member mental health street team.
- A Los Angeles Police Department foot beat patrol will be added in downtown San Pedro on Gaffey Street between First and 14th streets.
- In a letter to all mayors in the South Bay (including Long Beach, Rancho Palos Verdes, Torrance, Lomita, Carson, and Gardena), Buscaino asks for “buy-in for shared responsibility” on homeless issues.
- There will be a continued push to identify and build more permanent supportive housing. There currently are 311 units in Council District 15 but more are needed.
- Buscaino will launch a San Pedro Community Homelessness Task Force to be headed up by Ray Regalado, a San Pedro resident and senior relations specialist with the Los Angeles County Commission on Human Relations. Other community members will be named later and the task will be asked to help create a more coordinated consolidation of food banks and other services.
- Encampment cleanups will continue “whenever and wherever they materialize,” Buscaino said. “As we learned tonight, they are unsanitary, illegal, dangerous and are a magnet for drug dealers and rapists.” Unsanctioned or sanctioned encampments will not be part of any plan going forward, he said.
- Want to help? Harbor Interfaith Services, now in its 40th year in San Pedro, is launching a Go Fund Me campaign that residents will be encouraged to support. www.GoFundMe.com/HarborInterfaith/.

Video testimonials

Seeking to give a human face to the homeless, forum organizers included four short video testimonials from formerly homeless people in San Pedro who now have housing.

Richard Castle, a veteran, was one of those who lived in a sidewalk encampment in front of the closed Ante’s Restaurant on Palos Verdes Street when it was broken up by city officials last spring.

Approached by Weaver and members of Buscaino’s emergency response team, Castle was asked if he was ready for a change.

“I’m working my way back up. ... It’s one step at a time,” Castle said in the video, adding that he was pursuing his education so he could get a license to become a truck driver. “I’d much rather be here than back on the street. I tell my (former) neighbors at the Post Office not to give up, have faith ... I’d much rather have an empty apartment with one chair than to be back living on the streets.”

Daily Breeze reporter Megan Barnes contributed to this report.

CALIFORNIA DEPARTMENT OF FOOD AND AGRICULTURE

OFFICIAL NOTICE FOR THE CITY OF SAN PEDRO PLEASE READ IMMEDIATELY

NOTICE OF TREATMENT FOR THE ORIENTAL FRUIT FLY

Between July 22 and August 19, 2015, two oriental fruit flies (OFFs), *Bactrocera dorsalis* (Hendel) group, were trapped in the city of San Pedro, Los Angeles County. Based on the survey data, pest biology, information from the California Department of Food and Agriculture (CDFA) *Bactrocera* Science Advisory Panel (BacSAP), recommendations provided by the CDFA Primary State Entomologist, and the CDFA "Action Plan for Methyl Eugenol Attracted Fruit Flies including Oriental Fruit Fly *Bactrocera dorsalis* (Hendel)," the CDFA concludes that an infestation of OFF exists in the area.

A Program Environmental Impact Report (PEIR) has been certified which analyzes the OFF treatment program in accordance with Public Resources Code, Sections 21000 et seq. The PEIR is available at <http://www.cdfa.ca.gov/plant/peir/>. The treatment activities described below are consistent with the PEIR.

In accordance with integrated pest management principles, the CDFA has evaluated possible eradication methods and determined that there are no cultural or biological methods available to eradicate OFF. The CDFA will employ chemical control as the primary tool, and will additionally use physical control via host fruit removal when there is evidence that a breeding population exists on a property.

The treatment plan for the OFF infestation will be implemented as follows:

- The male attractant treatment (MAT) will be applied within 1.5 miles of each detection site. MAT uses small amounts of the attractant methyl eugenol and the pesticide naled (Dibrom® Concentrate) mixed into a clay matrix (Min-U-Gel® 400) to lure the male flies to bait stations. A second MAT product is undergoing logistical testing as a replacement for the current mixture. This product is STATIC™ Spinosad ME, a pre-mixed solution of methyl eugenol, spinosad, and SPLAT®, and may be used in place of the naled product in some instances. The male flies are killed before they can mate with the females. This disrupts the breeding cycle and the population is eliminated. Spot applications of approximately five milliliters will be applied to utility poles, street trees, and other unpainted surfaces using pressurized tree marking guns within a nine-square mile area (1.5-mile radius) around each OFF detection site. The bait stations are placed six to eight feet above the ground and out of the reach of the public and pets. Applications are repeated every two weeks for one life cycle if no quarantine is triggered (typically two to three months), and for two life cycles if a quarantine is triggered (typically four to six months). Life cycle durations are dependent on temperature.
- If evidence that a breeding population exists on a property (i.e., immature stages, mated female, or multiple adults are detected), foliar-bait treatments may be used within 200 meters of each detection site in order to mitigate the spread of OFF by eliminating those adult life stages not directly affected by MAT (i.e., females and sexually immature males). Foliar-bait ground treatments are a protein bait spray that contains an organic formulation of the pesticide spinosad (GF-120 NF Naturalyte® Fruit Fly Bait), and are repeated every seven to 14 days for one life cycle of the fly

(typically two to three months, dependent on temperature). Please visit the CDFA website to learn more about the treatment process at <http://www.cdfa.ca.gov/plant/videos/spinosad/>.

- If evidence that a breeding population exists on a property (i.e., immature stages, mated female, or multiple adults), all host fruit from each detection site and all properties within a minimum of 100 meters of each detection site may be removed and disposed of in a landfill in accordance with regulatory protocols. Fruit removal will occur once at the beginning of the project, but may be repeated if additional flies are detected.

Public Notification:

Any resident whose property will be treated via foliar-bait sprays or host fruit removal will be notified in writing at least 48 hours in advance of any treatment, in accordance with FAC Section 5779. Following the treatment, completion notices are left with the residents detailing precautions to take and post-harvest intervals applicable to any fruit on the property. For MAT applications in public areas, notification is given to the general public via mass media outlets such as newspapers or press releases, and information is posted on the CDFA website at http://www.cdfa.ca.gov/plant/PDEP/treatment/oriental_ff.html. Information concerning the OFF project will be conveyed directly to concerned local and State political representatives and authorities via letters, emails, and/or faxes. Press releases, if issued, are prepared by the CDFA information officer and the county agricultural commissioner, in close coordination with the project leader responsible for treatment. Either the county agricultural commissioner or the public information officer serves as the primary contact to the media.

For any questions related to this program, please contact the CDFA toll-free telephone number at 800-491-1899 for assistance. This telephone number is also listed on all treatment notices.

Enclosed are the findings regarding the treatment plan and a map of the treatment area.

Attachments

FINDINGS REGARDING A TREATMENT PLAN FOR THE ORIENTAL FRUIT FLY

Between July 22 and August 19, 2015, two oriental fruit flies (OFFs), *Bactrocera dorsalis* (Hendel) group, were trapped in the city of San Pedro, Los Angeles County. Based on the survey data, pest biology, information from the California Department of Food and Agriculture (CDFA) *Bactrocera* Science Advisory Panel (BacSAP), recommendations provided to me by the CDFA Primary State Entomologist, and the CDFA "Action Plan for Methyl Eugenol Attracted Fruit Flies including Oriental Fruit Fly *Bactrocera dorsalis* (Hendel)," I have determined that an infestation of OFF exists in the area.

The OFF is an exotic insect originating in Asia, and has been accidentally introduced into a number of Pacific Islands, including Hawaii. It is a member of a closely related group of species, known as the OFF group, which are difficult to distinguish based on individual specimens. Several of the group species are major fruit and vegetable pests, and collectively members of the OFF group are known to attack over 230 types of fruits and vegetables. Important California crops at risk include pome and stone fruits, citrus, dates, avocados, and many vegetables, particularly tomatoes and peppers. Damage occurs when the female lays eggs in the fruit. These eggs hatch into larvae, which tunnel through the flesh of the fruit, making it unfit for consumption. This pest presents a major threat to a wide variety of California produce, with the combined 2012 gross value of these commodities of over \$15.2 billion. The permanent establishment and spread of this pest would result in increased production and postharvest costs to safeguard commercial fruit from infestation, increased pesticide applications on both production agriculture and residential properties to mitigate damage, and lost economic activity and jobs from trade restrictions imposed by the United States Department of Agriculture (USDA) and foreign trade partners.

This decision to proceed with treatment is based upon a realistic evaluation that it will be possible to eliminate OFF from this area and prevent its spread using currently available technology in a manner that is based on an action plan developed in consultation with the Pest Prevention Committee of the California Agricultural Commissioners and Sealers Association, the USDA, and scientists on the BacSAP. Due to the size of the infested area and the number of flies detected, historical data indicates that eradication is possible. The first California OFF detections occurred in Orange and Santa Barbara counties in 1960, and since that time, multiple re-introductions have been delimited and successfully eradicated. In making this decision, the CDFA has evaluated possible treatment methods. In accordance with integrated pest management principles, the following is the list of options that I have considered for the treatment of this OFF infestation: 1) physical controls; 2) cultural controls; 3) biological controls; and 4) chemical controls.

Based upon input from my professional staff and outside experts familiar with OFF, I have concluded that there are no cultural or biological control methods that are effective to treat the OFF that allow the CDFA to meet its statutory obligations. To eradicate OFF, I am ordering that male attractant treatments, consisting of methyl eugenol, a pesticide (naled), and a thickener be applied to utility poles and street trees to eliminate this infestation. Additionally, in the event of evidence of a breeding population on a property, foliar-bait spray treatments will be applied to host trees using ground-based equipment and host fruit removal will occur. Descriptions of these options are below. The options selected are a chemical-control measure that involves the use of insecticides targeting the adult stage and a physical-control measure targeting the eggs and larvae. These options were selected based upon biological effectiveness, minimal public intrusiveness, cost, and minimal impacts to the environment.

A Program Environmental Impact Report (PEIR) has been prepared which analyzes the OFF treatment program in accordance with Public Resources Code (PRC), Sections 21000 et seq. The PEIR was certified in December 2014, and is available at <http://www.cdfa.ca.gov/plant/peir/>. The PEIR addresses the treatment of the OFF at the program level and provides guidance on future actions against the OFF. It identifies feasible alternatives and possible mitigation measures to be implemented for individual OFF treatment activities. The OFF program has incorporated the mitigation measures and integrated pest management techniques as described in the PEIR. In accordance with PRC Section 21105, this PEIR has been filed with the appropriate local planning agency of all affected cities and counties. No local conditions have been detected which would justify or necessitate preparation of a site specific plan.

Sensitive Areas

The treatment area has been reviewed by consulting the California Department of Fish and Wildlife's California Natural Diversity Database for threatened or endangered species. The CDFA also consults with the United States Fish and Wildlife Service, the National Marine Fisheries Service and the California Department of Fish and Wildlife when rare and endangered species are located within the treatment area. Mitigation measures will be implemented as needed. The CDFA will not apply pesticides to bodies of water or undeveloped areas of native vegetation. All treatment will be applied to residential properties, common areas within residential development, non-agricultural commercial properties, and right-of-ways.

Work Plan

The treatment program area encompasses those portions of Los Angeles County which fall within 1.5 miles around each property on which an OFF has been detected and any subsequent detection sites within the program boundaries. A map of the project boundaries is attached. The work plan consists of the following elements:

1. **Delimitation.** Traps will be placed throughout the project area to delimit the infestation and to monitor post-treatment OFF populations. The cardboard Jackson sticky trap is baited with the attractant methyl eugenol mixed with the pesticide naled (Dibrom® 8 Emulsive). The McPhail trap is an invaginated glass flask baited with Torula yeast and borax in water. The Jackson trap is strongly attractive to sexually maturing males, while the McPhail trap is attractive to both sexes of the fly. Jackson traps and McPhail traps will each be placed at a density of 25 per square mile within a 0.5-mile radius of each detection site, and Jackson traps will be placed at a density of five per square mile in the remaining delimitation area going out to 4.5 miles from each detection site. Additional traps may be added to further delimit the infestation and to monitor the efficacy of treatments. These traps will be serviced on a regular schedule for a period equal to three OFF generations beyond the date of the last OFF detected. In addition, host fruit may be sampled for the presence of eggs and larvae in a 200-meter radius around each detection property.
2. **Treatment.** Any OFF detections within the original and/or expanded eradication area(s) will be treated according to the following protocol.
 - The male attractant technique (MAT) will be used to eradicate all sexually-mature male OFFs. The MAT makes use of small amounts of the attractant methyl eugenol mixed with the pesticide naled (Dibrom® Concentrate), and incorporated into a clay matrix (Min-U-Gel® 400) to lure the male flies to bait stations. A second MAT product is

undergoing logistical testing as a replacement for the current mixture. This product is STATIC™ Spinosad ME, a pre-mixed solution of methyl eugenol, spinosad, and SPLAT®, and may be used in place of the naled product in some instances. The flies are killed when they feed at the stations. In each square mile within the eradication boundary, a targeted density of 600 evenly spaced five-milliliter bait stations are applied to utility poles, street trees, and other unpainted surfaces using pressurized tree marking guns mounted on specially modified trucks. The bait stations are placed six to eight feet above the ground. The size of the eradication area is defined as that area within 1.5 miles of each detection site, squared off to create a nine-square mile block, and adjusted to use existing features as boundaries, such as roads. Applications are repeated every two weeks for one life cycle if no quarantine is triggered (typically two to three months), and for two life cycles if a quarantine is triggered (typically four to six months). Life cycle durations are dependent on temperature.

- If evidence that a breeding population exists on a property (i.e., immature stages, mated female, or multiple adults are detected), foliar-bait treatments will be used within 200 meters of each detection site in order to mitigate the spread of OFF by eliminating those adult life stages not directly affected by MAT (i.e., females and sexually-immature males). The foliage of host trees and shrubs within 200 meters of each detection site will be treated with an organic formulation of spinosad bait spray (GF-120 NF Naturalyte® Fruit Fly Bait) using hand spray or hydraulic spray equipment. Treatments are repeated every seven to 14 days for one life cycle of the fly (typically two to three months, dependent on temperature).
- If evidence that a breeding population exists on a property (i.e., immature stages, mated female, or multiple adults are detected), all host fruit from each detection site and all properties within a minimum of 100 meters of each detection site will be removed and disposed of in a landfill in accordance with regulatory protocols. Fruit removal will occur once at the beginning of the project, but may be repeated if additional flies are detected.

Public Information

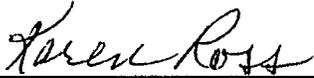

Residents of affected properties will be invited to a public meeting where officials from the CDFA, the California Department of Pesticide Regulation, the Office of Environmental Health Hazard Assessment, and the county agricultural commissioner's office will be present to address residents' questions and concerns. Residents are notified in writing at least 48 hours in advance of any treatment in accordance with the Food and Agricultural Code (FAC), Section 5779. Following the treatment, completion notices are left with the residents detailing precautions to take and post-harvest intervals applicable to any fruit on the property. Information concerning the OFF program will be conveyed directly to local and State political representatives and authorities via letters, emails, and/or faxes. Treatment and other information is posted at [http://www.cdfa.ca.gov/plant/pdep/treatment/oriental ff.html](http://www.cdfa.ca.gov/plant/pdep/treatment/oriental_ff.html). Press releases, if issued, are prepared by the CDFA information officer and the county agricultural commissioner, in close coordination with the program leader responsible for treatment. Either the county agricultural commissioner or the public information officer serves as the primary contact to the media.

For any questions related to this program, please contact the CDFA toll-free telephone number at 800-491-1899 for assistance. This telephone number is also listed on all treatment notices.

Duty to Act

Under my statutory authority, as Secretary of the California Department of Food and Agriculture, I have decided, based upon the likely environmental and economic damage that would be inflicted by an established infestation of the OFF in this area, that it is incumbent upon me to attempt to address this threat.

My duty to act, and this decision, is based upon authority set forth in Sections 24.5, 401.5, 403, 407, 408, 5401-5405, and 5761-5764 of the FAC, authorizing and mandating the Secretary to: thoroughly investigate the existence of the pest; determine the probability of the pest spreading to other areas; adopt regulations (Title 3 of the California Code of Regulations, Section 3591.2) as are reasonably necessary to carry out the provisions of this code; abate a pest from the established treatment area; and, to prevent further economic damage. The project work plan above describes the CDFA's actions that are necessary to mitigate the effects of this pest.

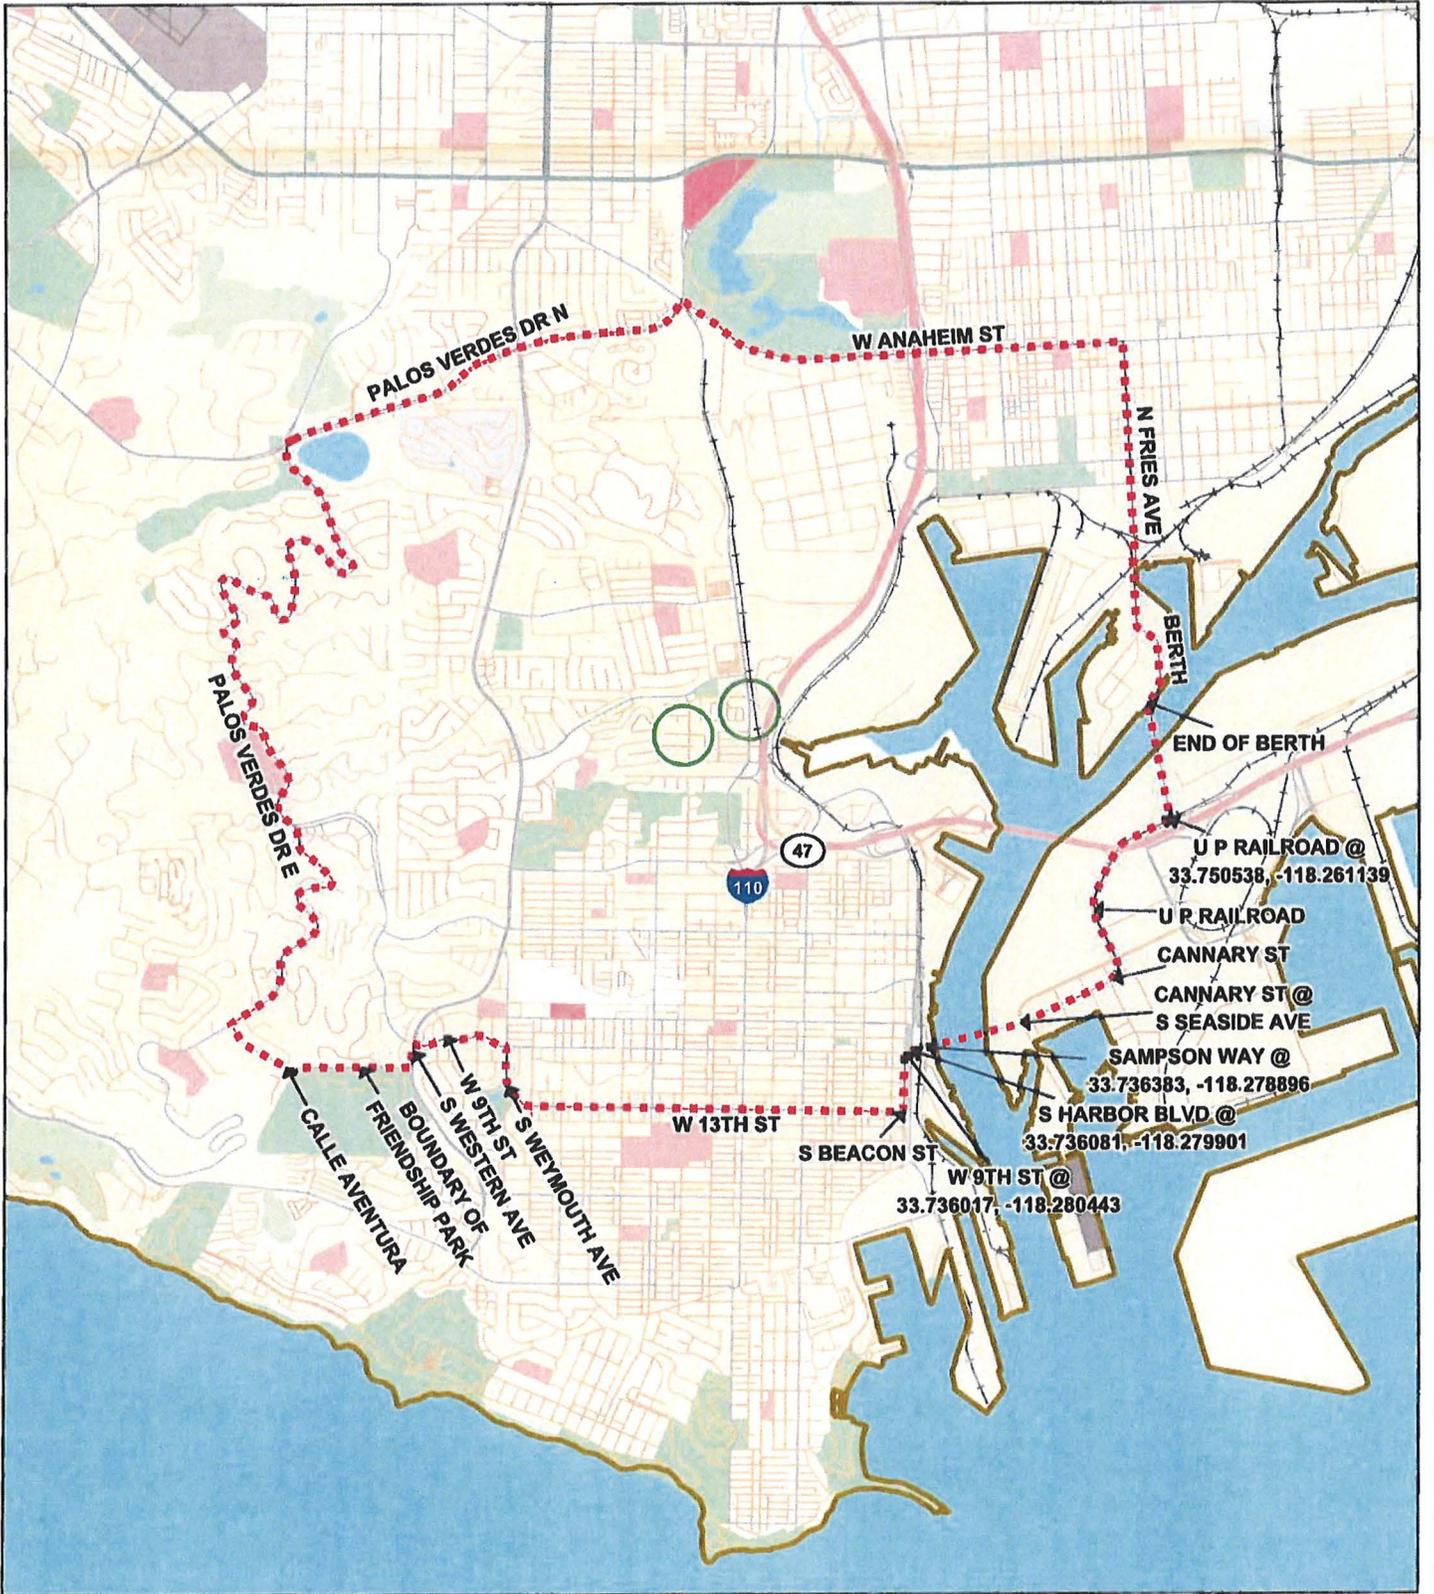

Karen Ross, Secretary
