## **CITY MANAGER**

Palos Verdes Reef Restoration Project Meeting on October 11th: On September 27th, the City was notified via e-mail of a public meeting to receive an update on and review responses to previous public comments regarding the proposed Palos Verdes Reef Restoration Project (see attachments). As the City Council will recall, a letter opposing the granting of a lease for this project was sent to the State Lands Commission this past April (see attachments). The October 11th public meeting will be held from 6:00 PM to 8:00 PM at the Malaga Cove Library in Palos Verdes Estates, located at 2400 Via Campesina. Staff will be attending this meeting.

Coastal Commission to Consider Additional MPA Signs on October 11th: As the City Council may recall, the City granted limited permit authority to the California Coastal Commission in 2015 to process a coastal development permit (CDP) for a statewide network of Marine Protected Area (MPA) signs, which included seven (7) signs on City property at the Point Vicente Interpretive Center, Pelican Cove Park, Vanderlip Park and Abalone Cove Shoreline Park. Earlier this year, the City again granted limited permit authority to the Commission to consider a statewide CDP for additional MPA signs, including four (4) signs at the Terranea Resort. The Commission is scheduled to consider this CDP application at its meeting next week in Chula Vista (see attachments).

## **FINANCE**

FY2017-18 Statewide Sales Tax Trends: HdL, the City's Sales Tax Consultant recently published projected statewide sales tax trends for FY 2017-18 and 2018-19. Below are some of their estimates of key categories:

- **State and County Sales Pools**  
State and county sales pools are estimated to increase by 5.0% in FY 2017-18 and 2018-19. Merchandise marketing that specifically targets consumer preferences is driving greater volumes of online purchases. Customers increasingly prefer to browse and make shopping decisions on their mobile devices rather than at regional and local shopping malls. In response, conventional retailers and department stores are expanding online buying alternatives which should produce sales gains for goods shipped out of state.
- **General Consumer Goods**  
General Consumer Goods are expected to rise by only 0.1 and 0.5% respectively the next two fiscal years. This is in part due to continued expansion of on-line sales at the expense of brick and mortar stores. The pace of store closures increased while overall results benefited from a rebound in gasoline prices that boosted discount department store totals. These lackluster results occurred at a time when

unemployment levels are low and consumer confidence is high despite rising credit card balances. Sales data show that consumers are placing higher priority on buying "experiences" and cutting purchases of merchandise such as clothing, jewelry and home furnishing.

- **Fuel / Service Stations**

Fuel is expected to rise by 9.2% in FY 2017-18 and 5.1% in 2018-19. Current pricing is projected to remain higher than last year before the scheduled increase in excise tax on November 1st (as a result of the statewide Transportation Funding Bill - SB 1). This new tax should keep prices elevated and all but eliminate the normal decline during the winter period.

### **PUBLIC WORKS**

Storm Drain Point Repair: Closeout items were addressed at the Santa Rena Drive drainage area, with the inlet being cleared of debris and obstructions. Boring for the pipe and outlet structure on Palos Verdes Drive East and Via Colinita is being completed this week. The drainage work on Via Colinita North of Main is commencing the next two weeks.

Pedestrian Safe Bus Stop Linkage on Hawthorne Blvd. Project: Approximately eighty percent of the proposed sidewalk has been installed along Hawthorne Blvd. from Crest Rd. to PVDS. Other pending items to be completed in the next couple of weeks are ADA ramps and bus shelters. For more information, please contact the Public Works Department at (310) 544-5252.

Lower Hesse Park, Park Improvements: This project consists of various improvements to Lower Hesse Park including landscaping, trail improvements and new picnic nodes. This project is currently in the construction phase. Work this week consisted of installing irrigation lateral lines and installing the new DG trails. Construction is on schedule to be completed in February 2018.

ADA Access Improvements Fred Hesse Park Project: This project includes installing ADA ramps and sidewalk to create ADA-compliant pedestrian linkage from the parking lot to the Community Building entrance. Additional ADA-specific modifications will include correcting the elevations at the brick paving fronting the building and numerous interior building modifications, such as relocating light switches, modifying interior doors and addressing access barriers to ADA-approved standards. Work this week included earthwork, plumbing and electrical. Construction is scheduled to last through December 2017.

PVIC Sunset Room Acoustical Improvements: This project consists of upgrading the Sunset Room at Point Vicente Interpretative Center with sound dampening acoustic panels to reduce echoing. This project is currently in the construction phase. Work this week consisted of installing acoustic panels. Construction will last through October 6, 2017.

Eastview Park, Park Improvement and Dog Park Project: The decomposed granite trail has been completed within the larger area of the park. Drinking fountain plumbing has been completed. Chain link fence around Dog Park is 90% complete. This week the contractor will be completing the DG trail within the dog park, placing benches, picnic tables, new trees, water fountain pad, sidewalk at front of park, and gates. For more information, please contact the Public Works Department at (310) 544-5252.

Maintenance: Altamira gate components have been delivered to City Hall by the fabricator. Maintenance personnel will begin the installation this week. The estimated completion date for this project has been revised to October 13, 2017. This revision is due to debris in the drainage pipe which is obstructing access to the installation site.

LA County Regional Park and Open Space District: Staff applied for FY 17-18 maintenance and servicing excess funds from the District. The amount eligible will be determined at a later date.

EDCO/City Document Shredding Event: Banners have been placed and list server and NextDoor announcement have been sent reminding residents of the 10/14 shredding event. To reduce traffic impact to the event, the Los Caninos Dog Park will be closed during the event. Signs will be placed to notify dog park patrons. A courtesy notification regarding the event day temporary traffic control has been send to the neighboring HOA contacts.

Annual NPDES Pre-Rainy season City-wide Street Sweeping: Staff has contacted CleanStreet to schedule the annual NPDES related pre-rainy season sweep of the City. This sweep showing the City's implementation of a storm water pollution prevention measure.

## **COMMUNITY DEVELOPMENT**

2017 Palos Verdes Half Marathon, 10K & 5K: On October 2, 2017, Mountain Sports International Inc. submitted the required fee and applications (Special Use Permit) for the annual 2017 Half-Marathon, 5K and 10K which is proposed to occur on Saturday, November 18, 2017 along Palos Verdes Drive South and West. Staff expects them to

## ADMINISTRATIVE REPORT

October 4, 2017

Page 8

follow up shortly with the required applications and fees (Special Events Permit) for Public Works.

Planning Division Monthly Activity: Attached is the Planning Division's Monthly Activity Report for September 2017. The report contains a brief summary of the Division's activities during this last month regarding: 1) New applications received; 2) Staff, Director, Planning Commission and City Council decisions rendered; and 3) Number of decisions made, including median processing time. As indicated in the report, the division received 71 applications during the month and took action on 51 submitted applications.

View Restoration/Preservation Applications Monthly Activity: Attached is the View Restoration Division's Monthly Activity Report for September 2017. The report contains: 1) A brief summary of the Division's activities during this last month; 2) A summary of pre-application meetings; 3) A summary of cases resolved by mediation; and 4) A summary of the Division's activities year-to-date. The Division received 5 new applications in the month of September 2017.

Right-of-Way Permit Monthly Activity: Attached is the Right of Way Permit Monthly Activity Report for September 2017. The Department issued 1 right-of-way permit.

Code Enforcement Division Monthly Activity: Attached is the Code Enforcement Division's Monthly Activity Report for September 2017. The report contains: 1) A brief summary of the Division's activities during this last month; 2) A summary of sign abatement activity; and 3) Number of cases closed including median processing time. As indicated in the report, the Division conducted 51 field inspections and brought 23 cases to closure.

Building and Safety Division Monthly Activity: Attached is the Building and Safety Division's Monthly Activity Report for September 2017. The report provides information on: 1) The types and number of permits issued; 2) The number of plan checks performed; 3) The number of inspections performed; and 4) The total amount of fees collected. Each of these items is compared to the activities during the same month of the previous year. In addition, a comparison of the activities for this fiscal year to those of the previous year is also provided. As shown on the report, the Division issued 151 permits during the month of September 2017.

Follow-up Planning Commission Meeting: See the attached Follow-Up Agenda for the Special P.C. meeting held on Thursday, September 28, 2017.

Planning Commission Agenda: See attached draft agenda for the Planning Commission meeting on Tuesday, October 10, 2017.

Applications of Note: See attached table with a summary of the Applications of Note that were submitted to the Department between Wednesday, September 27, 2017 and Tuesday, October 4, 2017.

**RECREATION & PARKS**

Open Space Management: A trail counter system was recently installed on Burma Road in the Portuguese Bend Reserve. When trail user data is collected, it will provide valuable data on usage of the Palos Verdes Nature Preserve.

Healthy RPV Program: Open Gym attendance this week:

Wednesday attendance, Miraleste Gym 7:00-9:00pm:

- 23 people (average is 9)

Sunday attendance, Miraleste Gym 10:00am-12:00pm:

- 7 person (average is 5)

Sunday attendance, Peninsula High Gym 2:00-4:00pm:

- 25 people (average is 14)

Boomers and Beyond:

Recreation and Parks staff are working with the Palos Verdes Library District and local organizations to create a new program for older adults called Boomers and Beyond. The following local entities are proud to release a schedule of programs that exposes our senior community to new experiences in health care, fitness, technology, wealth management and brain fitness over the next year. Programs will be offered free of charge throughout the Peninsula. Brochures are available at all Rancho Palos Verdes Parks.

[Click here to view the Boomers and Beyond Brochure.](#) Also, view on our City website at [www.rpvca.gov](http://www.rpvca.gov) and search for Healthy RPV!

The following local entities are proud partners in the Boomers and Beyond program:

- City of Rancho Palos Verdes
- City of Rolling Hills Estates
- Peninsula Seniors
- PVE-CARES, Palos Verdes Peninsula Land Conservancy
- Torrance Memorial Hospital
- NIH
- Palos Verdes Peninsula Village
- Martin's Art
- 50+Fitness
- PVPLD
- Belmont Village
- The Canterbury

Volunteer Program: This Saturday, October 7th volunteers are signed up to assist the City with Dog Park raking and pulling weeds.

Hesse Park: The facilities are rented this week for fifteen indoor recreation classes, seven non-profit group rentals, two youth sports league rentals, two Peninsula Seniors activities, and one private rental.

Ladera Linda Park: The facilities are rented this week for five indoor recreation classes, one RPV community association rental, one non-profit group rental, and one private party rental.

Ryan Park: The facilities are rented this week for three indoor recreation class, three outdoor recreation classes, five sports league field rentals, and one private rental.

PVIC and Docents: Noise abatement construction in the Sunset Room will be completed by this Friday. On Saturday, October 7th, the amphitheater is rented for a wedding reception and the Sunset Room is rented for the reception.

REACH Therapeutic Recreation Program: REACH participants met at Hesse Park on Monday night and prepared a delicious dinner of pumpkin flavored pasta and figs for dessert, followed by indoor "gladiator" games. On Wednesday evening, REACH participants will enjoy a quick dinner at 5 Guys and then head to PV Bowl for friendly

bowling competition. On Saturday, REACH participants will travel to Oak Glen to celebrate the fall season by picking apples!

### Palos Verdes Nature Preserve September 2017 Activity Summary

#### Meetings:

Monthly Preserve Management Meeting (Sept. 7th): PVPLC staff, Recreation & Parks and Public Works staff met to discuss maintenance and operational management projects and priorities.

#### Preserve/Open Space Staff Activities:

Information Booth: On September 4th (Labor Day) and September 23rd, the Preserve Staff along with Recreation & Park Staff, set up information booths on Burma Road Trail in the Portuguese Bend Reserve. At least 352 people visited the booths where they received information about the Palos Verdes Nature Preserve, had questions answered, obtained trail maps and got directions. Visitors completed surveys (85), participated in photo-scavenger contests or crafts for kids (28) and received instructions regarding Preserve rules (7). Water bottles were passed out to 11 thirsty hikers.

Public Contacts: the Preserve Staff encountered many people while conducting trail patrols (Abalone Cove Reserve figures are included for September).

- Public Contacts: **3084** (hikers -- 2678; dog walkers -- 281; bike users -- 118; equestrians -- 7)
- Public Use Issues: **91** (including dogs off leash -- 17; people off trail -- 74)
- Public Information: **65** (sharing Preserve/Interpretive information – 59; recommending a route -- 6)
- Public Safety: **21** (patrons requesting directions – 19; patrons having health problems – 2).

Maintenance & Operations: The Preserve & Abalone Cove Shoreline Park Staffs removed numerous bags of litter picked up while hiking trails. Their activities in September included:

Abalone Cove Reserve – moved rocks from City Hall to Abalone Cove for a volunteer project, transported canopies, tables & supplies to Abalone Cove for a beach cleanup day, covered up an exposed pipe along Abalone Cove Trail with dirt and rock.

Forrestal Reserve -- picked up lots of cans & bottles thrown over the hillside from Cool Overlook, cut away a protruding fence post fragment along Conqueror Trail, repositioned big rocks out of place at Fossil Trailhead.

Ocean Trails Reserve – trimmed overgrown vegetation around the La Rotonda parking lot and picked up lots of litter.

Portuguese Bend Reserve – installed a trail counter at the Burma Road entry, replaced portions of the downed rope on the fence along Peacock Flats Trail, established trail closures around lower Burma Road to facilitate Cal Water line repairs, re-established the vandalized closure barricades at the upper end of the closed segment of Rim Trail,

## ADMINISTRATIVE REPORT

October 4, 2017

Page 12

removed litter & debris from Peacock Flats Trail at Burma Road, trimmed the overgrown vegetation along the access path between Vanderlip & Peppertree Trails, trimmed overgrown vegetation around the entry signs at the Burma Road Trailhead.

Three Sisters Reserve -- reset the Restoration sign at the base of the western canyon, moved over 6 cubic yards of dirt up Barkentine Trail for a trail repair project along with a lots of rock and tools, trimmed overgrown vegetation around the entry signs at McCarrell Canyon Trail.

Vicente Bluffs Reserve – removed a tripping hazard along Golden Cove Trail, retrieved a women’s purse that had fallen over the bluff top fence near PVIC by using an extension pole with hook, picked up litter in the northern parking lot.

Open Space Management regularly checks on closures of the Preserve Trails resulting from storm damage. The following trails are currently closed in the Portuguese Bend Reserve: Sandbox, the eastern segment of Ishibashi Farm and Rim’s lower portion. Sunset Trail in the Ocean Trails Reserve is also closed until repairs can be made. In the Abalone Cove Reserve, the following trails are closed: Sea Dahlia, Cave, Cliffside, Inspiration Point and Sacred Cove View.

Preserve/Open Space Management cooperates closely with the Public Works Department to discover, submit and complete work orders to repair problems and improve conditions in the Preserve. In September, Public Works responded to service requests for repairing the inner fence gate in the Ladera Linda Community Center, replacing a missing rail in a segment of the bluff fence along Seascape Trail in the Vicente Bluffs Reserve, installing rock fall warning signs in the Sacred Cove area of the

ADMINISTRATIVE REPORT

October 4, 2017

Page 13

Abalone Cove Reserve and for replacing a missing Dangerous Conditions sign along the bluff fence in the Point Vicente Interpretive Center area.

Reports of an empty mutt mitt container at the Catalina Trailhead and a missing trash can at the Sunrise Trailhead in the Ocean Trails Reserve were forwarded to the Trump National Golf Club maintenance staff.

The City's graffiti contractor responded to one incident of tagging that was reported by Open Space Management. Thank you Public Works and thank you to the Land Conservancy's Volunteer Trail Watch for being our eyes in the Preserve to help report maintenance issues.

# Montrose Settlements Restoration Program

## Palos Verdes Reef Restoration Project: Public Meeting

Please join us at our meeting to receive an update on the project and an overview of the Trustees responses to the public comments received on the [Draft Environmental Assessment/CEQA Initial Study and Environmental Checklist for the Palos Verdes Reef Restoration Project](#).  
**Palos Verdes Reef Restoration Project Public Meeting**

**Malaga Cove Library Gallery Room**  
2400 Via Campesina  
Palos Verdes Estates, CA 90274

**October 11, 2017**  
**6:00-8:00 PM**

Through this project, we propose to create 40 acres of new rocky-reef habitat in the Palos Verdes area to restore lost hard substrate habitat. We are proposing to build the reef offshore of Bunker Point within the Palos Verdes Peninsula in the southeastern part of Santa Monica Bay.

The newly created reef will provide habitat for fish, marine algae, and marine invertebrates and create a productive rocky-reef ecosystem in the area. Historically, the existing reefs in this area were buried by heavy sedimentation from landslides and impacted by sewage effluent.

For this project, we plan to place 70,300 tons of quarry rock on 40 acres of sandy ocean bottom within a 69-acre site located 0.3 miles offshore.

The official public comment period for the Environmental Assessment document began on Feb. 21, 2017 and ended on March 22, 2017.

April 4, 2017

Betty T. Yee, Chair  
California State Lands Commission  
100 Howe Ave., Ste. 100 South  
Sacramento, CA 95825

**SUBJECT: Objection to Granting Lease for Palos Verdes Reef Restoration Project**

Dear Chair Yee and Members of the State Lands Commission:

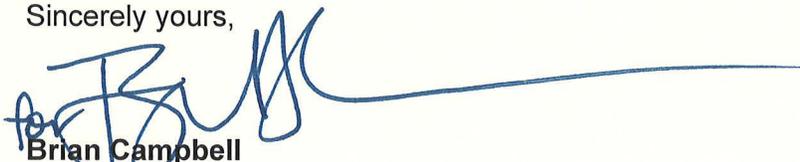

On behalf of the Rancho Palos Verdes City Council and our residents, I wish to respectfully express our opposition to the granting of a lease for the Palos Verdes Reef Restoration Project, which we understand will be appearing on the Commission's agenda on April 20, 2017. Our City Council had expected to express our objections in comments on the related Negative Declaration for the project, but were unable to do so timely due to the unexpected cancelation of our March 21, 2017, meeting.

The City of Rancho Palos Verdes is supportive of the goal of the project to restore recreational and commercial fishing resources that were destroyed by the dumping of DDTs and PCBs in the waters off the Palos Verdes Peninsula in the 1940s through 1970s. In 2011, our City Council expressed conceptual support for such a project. However, we do not support the project at its proposed location just over a quarter-mile offshore from the City's Founders Park and Rancho Palos Verdes Beach.

The location of the proposed reef is only a short distance downcoast from the toe of the active Portuguese Bend Landslide. It is primarily the silt and sediment from this landslide that has covered the reef that this project seeks to restore. However, the proposed project will do nothing to stop or redirect this downcoast flow of silt and sediment, which will likely result in any restored reef being quickly covered before any self-sustaining fishing habitat can be re-established. Furthermore, we question the wisdom of re-establishing fishing habitat in such close proximity to the DDT- and PCB-laden sediments that lie not much further off our City's coastline.

We urge the Commission to reject the proposed lease agreement, and to direct the applicant to work with environmental advocacy groups and affected local communities to develop a more effective and acceptable project.

Sincerely yours,

**Brian Campbell**  
Mayor

**STAFF REPORT: REGULAR CALENDAR**

<b>Application No.:</b>	<b>9-17-0656</b>
<b>Applicants:</b>	<b>California Ocean Protection Council and California Marine Sanctuary Foundation</b>
<b>Location:</b>	150 sites within the counties of Del Norte, Humboldt, Mendocino, Sonoma, Marin, San Mateo, Santa Cruz, Monterey, San Luis, Santa Barbara, Los Angeles, Orange, and San Diego.
<b>Project Description:</b>	Installation of 150 interpretive and regulatory signs at coastal access points near state designated marine protected areas.
<b>Commission Action:</b>	Approval.

**SUMMARY OF STAFF RECOMMENDATION**

The California Ocean Protection Council (OPC) and California Marine Sanctuaries Foundation propose to install 150 small (approximately two to six square foot) metal signs at coastal access points located near state designated marine protected areas within the 13 coastal counties from Del Norte to San Diego. These signs constitute the third phase of the signage project, the first two phases of which were authorized by the Commission in Coastal Development Permit Nos. 9-15-0208 and 9-15-0731. Specifically, two signs would be placed in Del Norte County, three signs in Humboldt County, seven signs in Mendocino County, nine signs in Sonoma County, one sign in Marin County, three signs in San Mateo County, nine signs in Santa Cruz County, 14 signs in Monterey County, 22 signs in San Luis Obispo County, seven signs in Santa Barbara

County, 14 signs in Los Angeles County, 21 signs in Orange County, and 38 signs in San Diego County. The signs would include 85 interpretive signs with information about MPA resources and 65 regulatory signs with location details and information about MPA rules and restrictions. The majority of the signs would be installed on existing posts, structures, kiosks, boards, or walls that support similar regulatory and informational signage. The remaining signs would require installation of new four inch by four inch wooden posts. All proposed installation locations would be within existing developed and previously disturbed areas in parking lots, at trailheads, boat ramps, piers, marinas, access ramps, stairways, visitor facilities and sign clusters near designated State Marine Conservation Areas and State Marine Reserves (MPAs). The OPC proposes installation of the signs as a component of the California Department of Fish and Wildlife's MPA outreach, education, and enforcement program, whose purpose is to enhance public understanding of MPA locations, regulations, and resources.

The staff recommends the Commission find that the project is consistent with the scenic, environmentally sensitive habitat, and cultural resource protection policies of the Coastal Act, and, therefore recommends that the Commission **APPROVE** coastal development permit application 9-17-0656. The **motion** to approve is found on **Page 4**. The standard of review for this project is Chapter 3 of the Coastal Act.

## I. MOTION AND RESOLUTION

### Motion:

*I move that the Commission approve Coastal Development Permit 9-17-0656 subject to conditions set forth in the staff recommendation specified below.*

Staff recommends a **YES** vote on the foregoing motion. Passage of this motion will result in approval of the permit as conditioned and adoption of the following resolution and findings. The motion passes only by affirmative vote of a majority of Commissioners present.

### Resolution:

*The Commission hereby approves the Coastal Development Permit for the proposed project and adopts the findings set forth below on grounds that the development as conditioned will be in conformity with the policies of Chapter 3 of the Coastal Act. Approval of the permit complies with the California Environmental Quality Act because either 1) feasible mitigation measures and/or alternatives have been incorporated to substantially lessen any significant adverse effects of the development on the environment, or 2) there are no further feasible mitigation measures or alternatives that would substantially lessen any significant adverse impacts of the development on the environment.*

## II. STANDARD CONDITIONS

1. **Notice of Receipt and Acknowledgment.** The permit is not valid and development shall not commence until a copy of the permit, signed by the applicant or authorized agent, acknowledging receipt of the permit and acceptance of the terms and conditions, is returned to the Commission office.
2. **Expiration.** If development has not commenced, the permit will expire two years from the date on which the Commission voted on the application. Development shall be pursued in a diligent manner and completed in a reasonable period of time. Application for extension of the permit must be made prior to the expiration date.
3. **Interpretation.** Any questions of intent of interpretation of any condition will be resolved by the Executive Director or the Commission.
4. **Assignment.** The permit may be assigned to any qualified person, provided assignee files with the Commission an affidavit accepting all terms and conditions of the permit.
5. **Terms and Conditions Run with the Land.** These terms and conditions shall be perpetual, and it is the intention of the Commission and applicant to bind all future owners and possessors of the subject property to the terms and conditions.

### III. FINDINGS AND DECLARATIONS

#### A. BACKGROUND AND PROJECT DESCRIPTION

The State of California recently completed a redesign and improvement of its statewide system of marine protected areas (MPAs), as mandated by the Marine Life Protection Act. The redesigned system is managed by the California Department of Fish and Wildlife (DFW) and includes a network of 124 MPAs covering approximately 16 percent of state waters along California's approximately 1,100 miles of coastline from the Oregon border to Mexico. The MPA network was designed to achieve specific goals, including to increase coherence and effectiveness in protecting the state's marine life, habitats, ecosystems, and natural heritage; and to improve recreational, educational, and study opportunities provided by marine ecosystems subject to minimal human disturbance. The ability of the MPAs to meet these goals depends in large part on public understanding of, and compliance with, the regulations put into place to achieve them.

The Ocean Protection Council (OPC) believes that public outreach and education is the most effective method to promote awareness and compliance with MPA regulations. The proposed project was therefore developed by OPC and DFW staff (with the assistance and close collaboration of local non-governmental partners, including the California Marine Sanctuaries Foundation) to promote MPA education and outreach through the creation and dissemination of interpretive and regulatory signage. OPC and DFW believe that installing signs with information about MPAs at major coastal access or departure points near MPAs, including boat launch sites, parking areas, visitor centers, and trailheads located near MPA shore boundaries, will increase public MPA awareness and compliance with MPA regulations. The proposed project is being funded by DFW, which transferred funds to the OPC through an interagency agreement; OPC then granted funds to the California Marine Sanctuary Foundation (Sanctuary Foundation) to cover project implementation.

Since the establishment of California's MPA network, a series of standardized sign templates has been developed by outreach organizations and provided to DFW staff for review and approval. These templates include "regulatory signs" that provide basic regulatory information - such as MPA boundaries and take regulations - as well as "interpretive signs" that provide site-specific facts and images of the wildlife, habitats, and areas protected by the MPAs. Representative examples of these signs are provided in [Exhibit 2](#).

Prior to current efforts, about 139 regulatory signs and 42 interpretive signs were installed<sup>1</sup> over the course of several years from north central California through Southern California. However, these signs did not provide comprehensive coverage across the statewide MPA network, and numerous MPAs along the coast did not initially have permanent regulatory or interpretive signs. OPC therefore began to install and maintain the additional signs that it believes are immediately needed to improve the sign coverage throughout the state and enhance public awareness of, and compliance with, the newly established MPAs. The first of these projects involved the

---

<sup>1</sup> Based on information received from OPC staff, these signs were installed in a piecemeal fashion (mainly in groups of two and threes) over the past ten years as funding and opportunity allowed. Coastal development permitting was handled at the local level because installation locations were within areas with certified LCPs.

installation of 115 signs in northern and central California and was authorized by the Commission in May of 2015 through Coastal Development Permit number 9-15-0208. This was followed by a second effort authorized by the Commission in August of 2015 through Coastal Development Permit number 9-15-0731 to extend the signage effort through Santa Barbara County and the rest of southern California by installing an additional 64 individual signs at locations across the five coastal counties south of Point Conception.

In the current project, OPC and the Sanctuary Foundation are proposing to install another 150 individual signs – 85 interpretive signs and 65 regulatory signs – at MPA sites across the state to further augment the coverage provided by existing signs. Table 1 below provides summary information about the number of proposed signs in each county and specific installation locations are provided in [Exhibit 1](#). Signs would be installed in areas of existing development such as at coastal access parking lots, in marinas and at boat ramps, at coastal access trailheads, and at areas with visitor support facilities such as restrooms, information kiosks, and visitor centers. Several signs would also be installed along trails or coastal access paths, located with existing signage or information kiosks at rest points or vistas. The interpretive signs would be made of composite flame and graffiti resistant materials, measure up to 36 inches by 24 inches, and provide information to the public about MPA resources, objectives, location, and regulations. Regulatory signs would also be made of composite materials, would measure 12 inches by 18 inches and would be of two main types – those that inform the public about regulations and take restrictions and those that provide the reader with information about their location relative to the MPA boundaries. Representative examples of both regulatory and interpretive signs are provided in [Exhibit 2](#).

San Diego	18 Interpretive; 20 Regulatory
<b>TOTALS</b>	<b>85 Interpretive; 65 Regulatory</b>

Eighty-five of the proposed signs would be installed on existing structures, posts or fences and co-located with existing informational or regulatory signage. The remaining 65 signs would be installed by hand on new four inch by four inch posts placed approximately 24 inches into the ground and cemented in place. All of these new posts would be placed within existing developed or disturbed areas such as parking lots, boat ramps, and trails. No excavation of

undisturbed ground, removal of vegetation, or significant loss of habitat would occur as a result of any sign or post installation activities. Whenever possible, new signs would be clustered with existing signs and would be installed on existing posts or existing structures. OPC has also committed to coordinating with local management agencies prior to final sign installation to ensure that the placement of new signs would not interfere with ongoing or future municipal landscaping or maintenance activities.

## **B. OTHER REGULATORY AUTHORIZATIONS**

### *Consolidated Permit*

Coastal Act Section 30601.3 provides the Commission with the authority to act upon a consolidated permit for proposed projects that require a coastal development permit from both a local government with a certified local coastal program (LCP) and the Commission. This authority is triggered if the applicant, local government, and Executive Director (or Commission) consent to consolidate the permit. The standard of review for such permits is the Chapter 3 policies of the Coastal Act. The proposed MPA signage project includes locations within the jurisdiction of 23 different certified LCPs – those of the County of Del Norte, County of Humboldt, County of Mendocino, City of Point Arena, County of Sonoma, County of Marin, County of San Mateo, County of Santa Cruz, City of Pacific Grove, County of Monterey, County of San Luis Obispo, Santa Barbara County, Los Angeles County, City of Malibu, City of Redondo Beach, City of Rancho Palos Verdes, City of Huntington Beach, City of Newport Beach, Orange County, City of Dana Point, City of Encinitas, City of Del Mar, and City of San Diego. In addition, signs would also be located within the Commission’s retained coastal development permit jurisdiction. From April through June of 2017, all of these local governments, with the consent of the applicant and Executive Director, agreed to consolidate permit action under this permit for those aspects of the proposed project within their jurisdictions and those aspects within the Commission’s retained permit jurisdiction, consistent with Coastal Act Section 30601.3.

As described herein, the OPC designed the project such that it will not result in adverse impacts to coastal resources. Typically, such a project would qualify for a de minimis waiver. However, a consolidated permit under Coastal Act Section 30601.3 requires the applicant to obtain a coastal development permit. Since the project cost exceeds \$100,000, it also does not qualify for an administrative permit.

## **C. SCENIC AND VISUAL RESOURCES**

Section 30251 of the Coastal Act states:

*The scenic and visual qualities of coastal areas shall be considered and protected as a resource of public importance. Permitted development shall be sited and designed to protect views to and along the ocean and scenic coastal areas, to minimize the alteration of natural land forms, to be visually compatible with the character of surrounding areas, and, where feasible, to restore and enhance visual quality in visually degraded areas. New development in highly scenic areas such as those designated in the California Coastline Preservation*

*and Recreation Plan prepared by the Department of Parks and Recreation and by local government shall be subordinate to the character of its setting.*

The placement of signs at coastal access points in rural areas, parks, open spaces, and other undeveloped coastal areas has the potential to adversely affect the scenic and visual qualities of those areas by blocking coastal views and introducing visual elements that are not compatible with their existing character.

### **Scenic Areas**

The majority of the 150 proposed signs would be located at parking lots, marinas, boat ramps, visitor centers, and other existing developed areas that include other similar informational and regulatory signage, and would therefore have no potential to result in adverse impacts to scenic or visual resources. However, several signs would be placed at coastal access points in parks, open spaces, or scenic rural areas. New signs installed at such locations may not be compatible with the character of these areas and could also create a limited reduction in views to the ocean. To address these potential adverse impacts to visual and scenic resources, OPC has worked in collaboration with local partners, landowners, and land management agencies to design its project to (1) select installation sites outside of coastal viewsheds; (2) replace other existing signs rather than adding new signs so as not to create a net increase in the total amount of signage; (3) use existing structures and signposts whenever feasible; or (4) cluster new signs with existing signs, fences, walls, or other similar visual elements.

### **Conclusion**

Although the installation of new signs in scenic coastal areas has the potential to adversely affect scenic and visual resources, as proposed, the project would be carried out in a manner in which the scenic character of these areas would be maintained. The Commission therefore concludes that the proposed project would be consistent with the scenic and visual resources policy (Section 30251) of the Coastal Act.

## **D. ENVIRONMENTALLY SENSITIVE HABITAT AREAS**

Section 30240 of the Coastal Act states:

*(a) Environmentally sensitive habitat areas shall be protected against any significant disruption of habitat values, and only uses dependent on those resources shall be allowed within those areas.*

*(b) Development in areas adjacent to environmentally sensitive habitat areas and parks and recreation areas shall be sited and designed to prevent impacts which would significantly degrade those areas, and shall be compatible with the continuance of those habitat and recreation areas.*

The proposed project was intentionally designed to avoid any significant disruption of habitat values in environmentally sensitive habitat areas (ESHA) and to prevent impacts which would significantly degrade those areas. While some of the proposed sign sites, including several of those to be installed in areas along trails, at trailheads, or along coastal access routes would be

located within or adjacent to areas of native plant and animal communities that may be considered to be environmentally sensitive habitat areas (ESHA), OPC would carry out sign installation at these sites in such a way as to avoid any significant disruption or degradation of ESHA. Specifically, OPC would limit activities in these areas to the placement or replacement of signs on existing posts, fences, and structures or the installation of new posts in parking lots, along developed trails, within the footprint of existing structures such as fences, walls, or signs and kiosks. This would eliminate the need for any excavation of undisturbed ground or vegetation clearance to occur. Further, installation of signs on existing posts or signs would only require access by foot and the use of hand tools, such as drills, and would be completed by workers on foot in less than an hour. No use of loud power tools would be carried out. In addition, no materials stockpiling, equipment re-fueling, or vehicle access to work sites would be needed. All materials would be carried to installation sites by hand, and the limited amount of this material and associated installation tools would allow for existing bare ground along trails to be used for short-term stockpiling. As such, the proposed installation of these signs would not have the potential to result in disturbance, removal, or loss of ESHA.

### **Conclusion**

As proposed the project would be carried out in a manner which avoids potential adverse impacts to environmentally sensitive habitat areas (ESHA). The Commission therefore concludes that the proposed project would be consistent with the terrestrial resources section (Section 30240) of the Coastal Act.

## **E. CULTURAL AND ARCHEOLOGICAL RESOURCES**

Section 30244 of the Coastal Act states:

*Where development would adversely impact archeological or paleontological resources as identified by the State Historic Preservation Officer, reasonable mitigation measures shall be required.*

Sixty-five of the proposed signs would involve the installation of new four inch by four inch wooden posts, an activity that would result in ground disturbance. However, nearly all of these new posts would be installed at sites in developed areas that have been previously graded and covered in pavement or concrete. Installation of a new four inch by four inch post within such areas has no potential to adversely affect archeological or paleontological resources. Those proposed signs that would require installation of a post along an access trail would be located adjacent to existing fence, wall, or landscaping structures and within the disturbance footprint that resulted from their initial installation and construction. Therefore, no removal or excavation or previously undisturbed ground would occur as a result of the installation of these signs and no potential adverse impacts to buried cultural or archeological materials would occur. Further, OPC has informed Commission staff that no signs would be installed at or near sites identified by the State Historic Preservation Officer. Thus, the project as proposed is consistent with section 30244 of the Coastal Act.

**F. CALIFORNIA ENVIRONMENTAL QUALITY ACT**

Section 13096 of the Commission’s administrative regulations requires Commission approval of coastal development permit applications to be supported by a finding showing the application, as modified by any conditions of approval, to be consistent with any applicable requirements of the California Environmental Quality Act (“CEQA”). Section 21080.5(d)(2)(A) of CEQA prohibits approval of a proposed development if there are feasible alternatives or feasible mitigation measures available that would substantially lessen any significant impacts that the activity may have on the environment. The project, as proposed, would avoid any significant environmental effects under the Coastal Act, and there are no less environmentally damaging feasible alternatives or mitigation measures. Therefore, the proposed project is consistent with CEQA.

C.C.R. Title 14, Section 632. Report violations to 1-888-334-CaTIP (1-888-334-2258). For more detailed information on regulations, boundaries, coordinates, and definitions, visit [www.wildlife.ca.gov/marine/MPA](http://www.wildlife.ca.gov/marine/MPA).

## Conserving California's Coastal Treasures

### Marine Protected Areas Safeguard Our Ocean's Bounty

A statewide network of Marine Protected Areas (MPAs) safeguards California's rich coastal resources. Montara State Marine Reserve is known nationally for its tidepools, kelp beds, rocky reefs and pinnacles. Scientists consider this to be one of the most biodiverse marine ecosystems in the state. These tidepools are home to numerous species of seaweed, sea stars, anemones and other tidepool creatures. Offshore kelp beds and rocky reefs harbor hundreds of species of fishes, invertebrates and marine mammals.

**California leads the nation and the world with its network of MPAs.**

These MPAs—

- Have varying levels of protection
- Conserve marine habitats and diversity
- Allow marine life to thrive
- Make great places for education, research, and fun

MPAs—Good for the Ocean; Good for You!

**MPA Regulations**

- Montara State Marine Reserve (SMR)**  
Take of all living marine resources is prohibited.
- Pillar Point State Marine Conservation Area (SMCA)**  
Take of all living marine resources is prohibited except the recreational take of pelagic finfish\* by trolling, Dungeness crab by trap and squid by hand-held dip net. Commercial take of pelagic finfish\* with troll fishing gear or seine, Dungeness crab by trap, and market squid by round haul net allowed.  
\*As defined by California Department of Fish and Game

A colony of harbor seals makes its home here. Look for them basking in the sun and foraging for food just offshore.

Creatures in tidepools adapt to ever-changing conditions. Please leave them undisturbed.

The Pillar Point and Montara MPAs can help protect rockfishes.

Shorebirds can benefit from MPAs, feeding and resting on protected rocks and beaches.

To report violations call 1-888-DFG-CALTIP  
 Visit [www.dfg.ca.gov/mjpa](http://www.dfg.ca.gov/mjpa) for detailed maps and regulations
