LADERA LINDA MASTER PLAN UPDATE

The Ladera Linda Park Master Plan process continues to move forward. Following two years of planning, research and extensive public outreach, a recommended Master Plan design was presented to the City Council on August 1st. The design, which reflected significant input from the local community, maintained the low key, neighborhood feel of the existing park. No additional recreation elements were added, the building size was reduced by over 30%, and all existing elements were maintained. The City Council directed Staff to do additional work on the plan to address community concerns including parking and traffic impacts, usage, access, and security. Additional public meetings are anticipated with a goal of bringing a refined plan back to the Council in the near future. For more information, and to see the conceptual design, go to www.rpvca.gov and search Ladera-Linda-Park-Master-Plan.

"CRIME" CORNER

HOW TO PREVENT BEING THE VICTIM OF A RESIDENTIAL BURGLARY

While 2016 saw a decrease in residential burglaries over 2015, criminals continue to evolve and 2017 has seen an upsurge in activity. An alarming trend noted by the Sheriff's Department is the recent rash of residential burglaries occurring during the evening hours in various RPV neighborhoods, despite the higher risk of encountering residents. Criminals generally target homes that appear to be unoccupied, and the Sheriff's Department reminds residents to always make it appear like someone is home by:

- Leaving lights on - especially when not at home - or setting timed lights
- Locking doors at all times
- Setting your alarm system
- Not letting your mail or newspapers pile up (Have the post office stop delivery or have a neighbor pick it up if you will be away)

Residents are encouraged to remain informed by visiting the City's website at <http://www.rpvca.gov/1030/Crime-Reports---Weekly-Summaries> to view weekly crime reports produced by the Lomita Sheriff's Station, which include crimes and arrests in RPV. Additionally, an interactive crime map is available on the City website for residents to view approximate crime locations and summaries. The map is updated nightly directly from the Lomita Sheriff's Station crime report information and is available at <http://www.rpvca.gov/951/Crime-Reports---Interactive-Map>.

WIRELESS ANTENNA UPDATE

The City of Rancho Palos Verdes is currently in the process of conducting Public Hearings, through the Planning Commission, for several proposed Wireless Telecommunications Facilities (Installations that send and/or receive radio frequency signals). There are currently over 140 existing Wireless Telecommunication Facilities, commonly referred to as cell sites, in the City's Public Right-of-Way. Regulated by the California Public Utilities Commission, companies have the right to place their facilities in the right-of-way, subject to the City's reasonable time, place and manner rules. The Federal Communications Act of 1996 also prohibits the City from discriminating against wireless telecommunications providers or prohibiting them from providing wireless services within the City.

While the City cannot prohibit sites, issues of appropriate placement and aesthetics can be considered. The proposed cell sites being heard by the Planning Commission are the first sites processed through the City's rigorous new ordinance, which was adopted in March 2016. At least 26 new cell sites to service AT&T are proposed to be installed throughout the City. These sites are proposed to either be attached to street lights, power poles, or new poles (where

there are no existing vertical structures to attach to). The applicant submitted the required documentation and reports to the City, as detailed by the Ordinance. The City reviewed these applications to assure that they are in

accordance with Federal/State Laws. Part of the process requires the applicant to erect mock-ups of the proposed cell site so that the public can have an idea of what the proposed site will look like. These mock-ups are temporary. They are not permanent and have no existing infrastructure connected to them. Eighteen Mock-Ups of proposed cell sites have been erected so far.

Planning Commission Hearings will be scheduled in the coming months to address these proposed cell sites. Residents within 500 feet of each site were notified of the mock-up construction and the scheduled public hearings. Affected residents of sites that have not yet been scheduled will be notified of the date and time of these meetings at least 10 days prior to the scheduled hearing. Residents are encouraged to write to the City to give their opinion about the proposed sites. More information about these sites can be found in the City's Website under: <http://www.rpvca.gov/916/Cell-Sites>.

The City of Rancho Palos Verdes will hold its General Municipal Election on November 7, 2017, for two City Council Member seats. The nomination period for candidates for City Council began on Monday, July 17, 2017, and closed on Friday, August 11, 2017, at 4:30pm. A list of candidates and the up-to-date election information can be found by visiting the City's election web page at <http://www.rpvca.gov/Elections2017>.

LAST DAY TO REGISTER

Monday, October 23, 2017, is the last day to register to vote in the November 7, 2017 Election. You will need to re-register if you have moved to a new address, changed your name, or changed your political party affiliation. Voter Registration Forms are available at City Hall, Hesse Park, Ryan Park, any Post Office, and your local library. It is important that your voter registration application be filled out completely and be postmarked or hand-delivered to the Los Angeles County elections office no later than October 23.

VOTE BY MAIL

For information about voting by mail, please visit the Los Angeles County Registrar-Recorder/County Clerk's website at <http://www.lavote.net> to print or download the application for a vote by mail ballot. Return the application to:

Registrar-Recorder/County Clerk
P.O. Box 30450, Los Angeles, CA 90030-0450

POLLING LOCATION

On Election Day, residents can locate their polling place by using the Los Angeles County Registrar-Recorder/County Clerk's website at <http://www.lavote.net/LOCATOR/>.

Voters who do not have access to the internet can contact the City Clerk's Office at 310.544.5217 for assistance in locating their polling place.

KEEPING CABLE STABLE

In 1998, the City Council adopted the City's Telecommunications Regulatory Ordinance, which established regulations for cable television systems, open video systems, and other telecommunications services and systems, including the procedures for granting local franchise agreements. The ordinance provided the authority for the City to establish monetary penalties for a video provider's material

breach of customer service standards. However, the City Council did not previously feel the need to establish such penalties, since our franchise agreement with Cox provided the City with the leverage to ensure that residents' customer service issues were dealt with appropriately.

In 2006, this all began to change with the enactment of the Digital Infrastructure and Video Competition Act (DIVCA). DIVCA shifted franchise agreement authority from local agencies to the California Public Utilities Commission (CPUC), but obliged local agencies to retain the responsibility for enforcing customer service standards. Since the City's franchise agreement with Cox expired in October 2015, the City has received anecdotal reports that residents' customer service complaints have not been addressed in a timely manner by Cox. Therefore, on May 2, 2017, the City Council directed Staff to prepare a Video Provider Customer Service Standards Ordinance to impose monetary penalties for material breaches of Cox's customer service standards under DIVCA. This ordinance is expected to require that:

- Video providers must comply with specified provisions of the Cable Television and Video Customer Service and Information Act and the Video Customer Service Act.
- Local jurisdictions may impose penalties of \$500 per day (\$1,500 maximum per occurrence) for a material breach of these provisions, with the ability to increase these penalties to \$1,000 per day/\$3,000 per occurrence and \$2,500 per day/\$7,500 per occurrence in the event of second and third material breaches, respectively, within a 12-month period.
- Local jurisdictions must notify video providers of a material breach in writing, and video providers have thirty (30) days from receipt to remedy the breach; monetary penalties may be imposed if the breach is not timely remedied.
- "Material breach" is defined as any substantial and repeated failure of a video service provider to comply with specified service quality and other standards.

The City Council is expected to review the Video Provider Customer Service Standards Ordinance in fall 2017 (introduction of the ordinance is tentatively agendized for September 19, 2017). For additional information, please contact Kit Fox, Senior Administrative Analyst in the City Manager's Office, at 310.544.5226 or kitf@rpvca.gov.

THE RANCHO PALOS VERDES EMERGENCY PREPAREDNESS COMMITTEE PRESENTS:

"THE BEAUTY AND THE BEAST, BE MORE PREPARED AND LA COUNTY FIVE STEP NEIGHBORHOOD ACTION KIT"

Please take a moment to consider this:

- > Are you prepared for a disaster?
- > Do you know what to do when disaster strikes?
- > Do you know how to recover from a disaster?

These questions, and more, can be answered by the City's Emergency Preparedness Committee (EPC) in interactive and informative sessions that can be brought to you! The members of the EPC are now taking requests to share their emergency preparedness presentations at Rancho Palos Verdes homeowners associations and faith-based organizations, along with Rancho Palos Verdes independent neighborhood residents and business owners in general. This program offers an interactive and practical approach designed to familiarize residents with preparing for, responding to, and recovering from natural and/or human-made disasters. Presentations can be customized in length and content to your group's particular needs and interests.

For more information, please contact Tracy Bonano, Rancho Palos Verdes Emergency Manager, at: tracyb@rpvca.gov or 310.544.5209.

WILDFIRE PREPAREDNESS

READY! SET! GO!

Use these three words to be prepared should a wildfire threaten your home.

READY!

- Remove brush for a minimum of 100 feet around your house.
- Keep roof and gutters free of leaves, debris, and over-hanging limbs.
- Move ornamental shrubbery back from the sides of your home.
- Replace shake-shingle roofs with tile or other fire-resistant materials.
- Assemble emergency supplies and prepare a list of evacuation items. Remember cash, medications, phone chargers, computers and pet food.
- Plan escape routes; know at least two ways out of your neighborhood.

SET!

- Back your vehicle into the driveway with the hood (front) facing the street.
- Roll up the windows, and load up your vehicle.
- Make certain your valuables are in your vehicle, or are in a fireproof safe.
- Remove flammable materials from around your house.
- Monitor the news, your fire department's website, and MySafe:LA for information regarding the fire.

GO!

- Don't wait to be told to leave.
- Go early, this gives firefighters the best chance to protect your property.

For more information, please contact Tracy Bonano, Rancho Palos Verdes Emergency Manager, at: tracyb@rpvca.gov or 310.544.5209.

SAVE THE SWALES!

The rainy season will be here before you know it. Now is a good time to check and clean out the drainage swales on your property so that they're ready for the rain.

Drainage swales, also referred to as "bench drains" or "V-ditches", tend to become filled with leaves, overgrown vegetation, and debris over the course of the year. If you have a drainage swale on your property, it's your responsibility to maintain it so that it functions properly. Improperly maintained drainage swales interfere with proper drainage flows that can result in property damage caused by slope failure, erosion, or excess storm-water runoff. With the rains last winter, the City found that many of the slope erosion problems on private property were caused by unmaintained drainage swales that overflowed, resulting in the slope failing. This can be avoided with proper maintenance.

As an additional reminder, the City's Municipal Code does not permit the construction of any structure within or above a drainage swale, or on a slope on or equal to 35% or greater. This includes decks, stairs, or structures of any kind. Please keep this in mind if you're planning a project near or on a slope. It's always a good idea to contact the Community Development Department before starting any project to determine if approvals and/or permits will be required.

NEW DOCENT TRAINING!

To schedule a hike, please call the Hike Coordinator at 310.377.5375. If you are interested in becoming a docent and leading these public hikes, visit the Los Serenos docent website at www.losserenos.org.

GARAGE FIRE SAFETY

Did you know that electrical malfunctions are the leading cause of garage fires? Garage fires tend to spread faster and cause more injuries and dollar loss than fires that start in all other areas of the home. Tragically, many of the fires that have occurred in the City in 2017 have been the result of garage fires. Residents can keep their home safe by following a few easy tips:

- Install a smoke detector and regularly check that it functions properly
- Keep fire extinguishers up-to-date and know how to use them
- Plug only one charging appliance into an outlet
- Keep flammable items away from appliances

For additional information, please visit the Los Angeles County Fire Department website at <https://www.fire.lacounty.gov/safety-messages/fire-safety-tips/>.

BACK BY POPULAR DEMAND... RING.COM SECURITY CAMERA PRODUCTS INCENTIVE PROGRAM

Many thanks to the RPV residents who participated in the City's program and purchased a Ring security camera device this summer! We appreciate you taking a proactive role in making your home and neighborhood safer. Be sure to install your Ring device and download the Ring app on a smart device. City Staff is eager to hear from residents about their experience regarding this public safety program. Staff will email residents who purchased a Ring device in the coming weeks to participate in a brief online survey.

Due to feedback from residents who missed the Ring.com security camera incentive program this summer, the City will be offering the discount and incentive again in the fall beginning September 11, 2017, through November 9, 2017. Please contact Jacqueline Ruiz, Administrative Analyst in the City Manager's office, at 310.544.5305 or at jruiz@rpvca.gov for additional information.
