November 13, 2019 LAX/Community Noise Roundtable Meeting: City Staff recently received a noise complaint about low-flying acrobatic planes performing maneuvers over or near the Portuguese Bend neighborhood. Residents are encouraged to contact the Long Beach Flight Standards District Office at (562) 377-5400 if they observe any fixed-wing aircraft flying lower than 1,000 feet above the ground. When reporting low-flying aircraft (less than 1,000 feet above the ground) to the FAA's District Office, it is helpful to provide the aircraft registration number, aircraft type, airport of origin and estimated altitude. This information can be found on the flight tracking website <https://webtrak.emsbk.com/lax4>.

Although the LAX/Community Noise Roundtable is focused on addressing passenger jet noise concerns from communities such as Rancho Palos Verdes, City Staff often raises other aircraft noise complaints to the FAA during Member Discussion at the Noise Roundtable meetings, the next of which is scheduled on November 13th at the Los Angeles International Airports (LAX) Clifton A. Moore Administration Building, located at 1 World Way. Residents are always encouraged to attend these meetings and voice their concerns directly to the FAA representatives in attendance.
