## **PLAN. PREPARE. EVACUATE. PVPready.gov**

The Know Your Zone website is a collaboration between the cities of Palos Verdes Estates, Rancho Palos Verdes, Rolling Hills, Rolling Hills Estates, their public safety partners, the Los Angeles County Office of Emergency Services and Genasys-owned evacuation management software platform Zonehaven.

Residents, visitors, businesses, and school communities on the Peninsula should go to [PVPready.gov](https://PVPready.gov) to find their evacuation zone, save it in their smartphone, or write it down and keep it somewhere that's easy to find in an emergency, such as on their refrigerator or near the front door.

To find your zone, visit [PVPready.gov](https://PVPready.gov), click "Find Your Zone," enter an address in the search bar in the upper left corner of the [zone map](#), and a pop-up window will open with the corresponding zone and emergency information. During an emergency, such as a wildfire or flood, the website and corresponding alerts will show which zones are under evacuation the moment an order is issued by authorities.

Visit [PVPready.gov](https://PVPready.gov) to learn more.

## EMERGENCY PREPAREDNESS TIPS

### PROTECT YOUR VITAL RECORDS

**Cal OES**  
GOVERNOR'S OFFICE  
OF EMERGENCY SERVICES

In case of an emergency or disaster,  
consider storing and protecting the following types of documents:

Financial

Legal Identification

Tax

Estate Planning

Medical

Personal/Family/Other

Property

### Protecting Important Records During an Emergency

Most disasters happen in the blink of an eye. That is why it is important to take appropriate measures before they happen to ensure your family is fully prepared. One of those steps is ensuring you protect your important documents.

In the event of a disaster, such as a flood or fire, immediately evacuating your home is sometimes necessary. There may not be time to grab valuable possessions like documents, which, unfortunately, could be destroyed in the disaster. However, once the immediate danger passes, having your financial and medical records and important contact information will be crucial to help you start the recovery process quickly.

Taking time before a disaster strikes to safeguard these critical documents will give you peace of mind, ensure you have access to essential medical and Prescription information, and help you avoid additional stress during the difficult days following a disaster.

The California Governor's Office of Emergency Services (Cal OES) has compiled a list of helpful tips and resources for storing and protecting critical records. Visit [news.caloes.ca.gov/vital-records/](https://news.caloes.ca.gov/vital-records/) to learn how to safeguard critical records in the event of an emergency.

## Emergency Alerts

Disaster can happen anytime, in any part of the country. When emergencies occur, public safety officials provide critical alerts and warnings to local communities. Through a variety of technologies, these organizations communicate critical information and occasionally order evacuations, allowing residents to take immediate action to stay safe.

This following is a summary of the different types of warning alerts available and how to receive them.

### **WIRELESS EMERGENCY ALERTS (WEAS):**

Wireless Emergency Alerts (WEAs) are one of many ways public safety officials can quickly and effectively alert the public to serious emergencies. WEAs go directly to your cellphone and can be used to send out urgent alerts targeting certain geographic areas.

#### **What you need to know about WEAs:**

- WEAs can be sent by state and local public safety officials, the National Weather Service, the National Center for Missing and Exploited Children and the President of the United States.
- WEAs look like text messages but are designed to get your attention with a unique sound and vibration repeated twice.
- WEAs are no more than 360 characters and include the type and time of the alert, any action you should take and the agency issuing the alert.
- WEAs are not affected by network congestion and will not disrupt texts, calls or data sessions that are in progress.
- You are not charged for receiving WEAs and there is no need to subscribe.

### **EMERGENCY ALERT SYSTEM:**

The Emergency Alert System (EAS) is a national public warning system that allows the president to address the American people within 10 minutes during a national emergency. The alerts are sent through broadcasters, satellite digital audio services, direct broadcast satellite providers, cable television systems and wireless cable systems.

The EAS may also be used by state and local authorities to deliver important emergency information such as weather information, imminent threats, AMBER alerts and local incident information targeted to specific areas. The president has sole responsibility for determining when the national-level EAS will be activated.

### **OPT-IN NOTIFICATION SYSTEMS:**

Opt-in mass notification systems can vary by region but operate similarly in what reasons people are notified. Alerts received could be about extreme weather or natural disasters, road closures, missing people, or evacuations. These alerts are managed by the local agency that set them up.

**Alert Southbay:** Alert SouthBay is a multi-jurisdictional emergency notification system used by 14 South Bay cities – including Rancho Palos Verdes - to keep our communities informed about disasters and emergencies with uniform and expeditious alerts. Alert

SouthBay will act as the City's primary vehicle for emergency communication. Residents can sign up for Alert SouthBay by:

- Texting "alertsb" to 888-777, which returns a link to register for Everbridge
- Registering online at [alertsouthbay.com](https://alertsouthbay.com)

## FINANCE DEPARTMENT

### Consumer Price Index – July 2023

#### Consumer Price Index (U.S.)

Nationally, the Consumer Price Index (CPI) rose by 0.2% in July on a seasonally adjusted basis. Compared annually, the all items index (headline inflation) increased by 3.2% prior to seasonal adjustment. The index for all items less food and energy (core inflation) also rose by 0.2% over the month, the same increase as in June. Core inflation rose by 4.7% over the last 12 months and has remained above headline inflation since March 2023. Chart 1 further illustrates the annual percent change in CPI for both categories from January 2021 through July 2023.

**Chart 1. U.S. 12-month Percent Change in CPI**

The shelter index continues to be the largest contributor to the overall change in CPI and accounted for 90% of the monthly all items increase. The food index increased by 0.2% in July after rising by 0.1% in the previous month. Within the food index, prices for food at home increased by 0.3% over the month while food away from home rose by 0.2% in July. On an annual basis, the food index increased by 4.9% over the last year.

Energy prices rose by 0.1% over the month ending July after rising by 0.6% in June. Gasoline prices contributed to this rise and reflected a monthly increase of 0.2% over the period. Other energy components were mixed in July, with electricity falling by 0.7% and natural gas rising by 2%. Compared annually, the energy index fell by 12.5%.

### Consumer Price Index (Los Angeles)

Prices in the Los Angeles area, as measured by CPI, were unchanged in July according to the Bureau of Labor Statistics. On an annual basis, however, prices in the area were up by 2.7% compared to a year ago. Core inflation experienced a monthly increase of 0.3% in July and rose by 3.4% annually. An overview of the annual percentage change in CPI for both major indexes in the Los Angeles area is illustrated in Chart 3 below.

**Chart 3. Los Angeles Area: 12-month Percent Change in CPI**

In summary, food prices advanced by 4.7% while energy prices fell by 8% in the Los Angeles area over the past 12 months. The fall in energy prices was largely due to lower prices for gasoline. Additionally, prices for shelter remain elevated locally as well as nationally, and contributed to annual increase in core inflation of 3.4%.

## PUBLIC WORKS DEPARTMENT

### Repairs to the Landslide Area

Work on Palos Verdes Drive South to repair the asphalt roadway surface in the landslide was completed last week. The work addressed needed repairs in the “ski jump” area and near Wayfarers Chapel. Roadway inspection will continue on a regular basis to identify any additional repairs that may become necessary.

### Ladera Linda Community Park Project Update

Last week, construction crews continued installing exterior tiles and the aluminum framing for the building’s exterior glazing system and began installing exterior metal paneling. Crews completed installing the parking lot and pathway lights, placed gravel for the maintenance driveway, and continued installing the irrigation systems and decomposed granite pathways.

If you have any questions or would like to learn more about this project please contact, James O'Neill at [joneill@rpvca.gov](mailto:joneill@rpvca.gov)

## The Goats are Back!

Due to rain during this past spring, there has been significant vegetation regrowth in certain areas of the City, so you may see the goats around town again. Please be mindful that the goats are performing an important job of helping reduce fire loads to protect structures. Although we understand many people enjoy seeing the goats, please refrain from going to see them out of respect for residents living near where the goats work.

A temporary electrified fence is used to contain the goats while they are working, and attempting to approach them puts you as well as the goats at risk. Please avoid attempting to take selfies/pictures or trying to touch the goats, especially if you have dogs or pets with you. This will prevent stress and/or injury to you and the goats.

## COMMUNITY DEVELOPMENT DEPARTMENT

### Los Verdes Golf Course Netting Update

The Los Angeles County owned Los Verdes Golf Course recently constructed a series of poles along the south-westerly property line to accommodate the installation of golf ball netting. The improvements were installed adjacent to homes in the La Cresta Pointe and La Cresta neighborhoods in order to mitigate on-going issues of errant golf balls impacting nearby residences.

After hearing concerns from adjacent residents in the La Cresta HOA regarding the construction activities, further work on the installation of the netting has been paused. City Staff is currently work with L.A. County representatives to evaluate neighborhood concerns involving the height, placement and aesthetics of the poles. City Staff is actively working and in communication with residents and will continue to provide updates as more information is available. For questions, please contact Code Enforcement Officer, Rudy Monroy at (310) 544-5296 or via email at [CodeEnforcement@rpvca.gov](mailto:CodeEnforcement@rpvca.gov).

### West Basin Municipal Water District (WBMWD) Rain Barrel Program

The WBMWD will be hosting various rain barrel pickup events this fall. Six drive-through rain barrel pick-up events are scheduled on various Saturdays between September 23 – December 2 at locations throughout the WBMWD service area, including several events in the South Bay area. The WBMWD will give away a total of 1,500 barrels this fall.

Potential program participants must register to qualify for up to two free 50-gallon rain barrels valued at approximately \$80 each. To register and find more information about locations and dates, please visit the WBMWD [website](#).

## Upcoming Housing Rights Workshop

The City of Rancho Palos Verdes contracts with the Housing Rights Center (HRC) for fair housing services.

The HRC's goal is to actively support and promote freedom of residence through education, advocacy, and litigation, to the end that all persons

have the opportunity to secure the housing they desire and can afford, without regard to their race, color, religion, gender, sexual orientation, national origin, familial status, marital status, disability, ancestry, age, source of income or other characteristics protected by law.

As part of this effort, the HRC conducts various educational workshops and events in the community to help tenants, property owners, non-profit or public representatives learn about fair housing laws, illegal housing practices and landlord-tenant responsibilities. Virtual educational workshops are tentatively scheduled for this fall including an upcoming workshop on September 7. To register and find more information about workshops, please visit the HRC [website](#).

## Building Inspection Schedules Available Online

As a reminder to the public, building inspections for construction projects, including but not limited to, plumbing and electrical improvements as well as foundation and roofing repairs, can be scheduled on the City's website at <https://www.rpvca.gov/1450/Todays-Inspection-Schedule>. The site also

For more information and/or instructions, please contact the City's Building and Safety Division at (310) 544-5280 or via email at [BuildingSafety@rpvca.gov](mailto:BuildingSafety@rpvca.gov).

## Carbon Monoxide Alarm Preparedness

Carbon monoxide alarms are designed to provide warning of any unusual build-up of carbon monoxide in a home. Higher levels of carbon monoxide may occur from improperly maintained, installed or used fuel-burning appliances, back-drafting appliances or fireplaces, or idling cars in garages. Carbon monoxide alarms are required for existing buildings and new construction, where the two conditions exist:

- 1) The dwelling unit contains a fuel-fired appliance or fireplace.
- 2) The dwelling unit has an attached garage with an opening that communicates with the dwelling unit.

The City's [Carbon Monoxide Alarm Requirement handout \(PDF\)](#) provides a complete listing of alarm requirements including placement and location as well as power source specifications. For more information or questions about carbon monoxide installations and/or requirements, please contact the City's Building and Safety Division at [buildingsafety@rpvca.gov](mailto:buildingsafety@rpvca.gov).

The exposed part was cut back and covered back up with dirt. Lastly, an exposed section of chain link fence was cut back and covered. All work was performed on the Mariposa Trail.

## Portuguese Bend Reserve:

As part of an ongoing effort to address vegetation overgrowth, a City crew began to trim several trails on August 1. This week, the crew completed Kubota Trail and Eagle's Nest Trail. Work concluded on August 9.

On August 9, Staff repaired the tread on Burma Road Trail. This section continues to move due to land movement. Staff brought rock and dirt to fill in and compact the dirt to reduce the grade for vehicles.

On August 14, a contractor completed work to repair the lower section of Peppertree Trail. This trail had been temporarily closed due to severe rutting caused during significant rain events over the course of January – March 2023. The section of Peppertree Trail from Sandbox Trail to the upper junction of Ishibashi Farm Trail is now open. Additionally, the pedestrian-only section of Ishibashi Farm Trail that had also been temporarily closed is now open.

Adjacent to the Reserve, this unnamed trail was also repaired by contractors on August 14 and is now reopened. The trail had also sustained damage due to severe rutting caused by significant rain events over the course of January – March 2023.

### **San Ramon Reserve:**

On August 15, Park Rangers observed damage to the Wanderer Trail gate. The damage had been caused by a vehicle accident in the early morning hours. The trail remains open to hikers and bicyclists only.

## Vista del Norte Reserve:

From August 14-September 1, Sol y Mar Community Association will be performing road maintenance including streets and crosswalks. The public trail providing through access between Indian Peak Road and Crestridge Road will be temporarily closed. Indian Peak Trail and Vista del Norte Trail will remain open. Advisory signage has been placed to notify the public.

RE: AB 309 (Lee) Social Housing Program  
(as amended on 07/13/2023)  
Notice of Oppose unless amended

Dear Senator Portantino,

I am writing on behalf of the City of Rancho Palos Verdes to express our strong opposition to Assembly Bill 309, introduced by Assemblymember Lee. We believe that while AB 309 aims to address important housing challenges in California, it raises significant concerns that warrant careful consideration and amendments.

Rancho Palos Verdes is dedicated to promoting housing affordability and addressing homelessness within our community and across the state. We are actively engaged in robust public input processes and adhere to state housing laws to develop comprehensive plans and zoning regulations for new projects.

Our primary opposition to AB 309 revolves around the establishment of the Social Housing Program within the Department of General Services (DGS) and the provision to grant DGS the authority to make land use and zoning decisions on state excess property. This approach could potentially bypass the state-mandated planning process and local zoning regulations, which have been thoughtfully developed with community involvement. This practice would undermine the efforts of cities like Rancho Palos Verdes in crafting tailored housing solutions that align with the unique needs and character of our community.

While we understand that AB 309 currently limits DGS authority to three housing projects on declared excess state property suitable for housing, we remain apprehensive about the future expansion of this program to include all state-owned lands. This expansion could further diminish local control and disrupt the well-established planning efforts of cities throughout the state.

Considering our concerns, we kindly request that AB 309 be amended to address these issues. We propose a collaborative approach between the state and local governments, where DGS works in cooperation with cities to identify appropriate sites for social housing projects. This approach would foster greater alignment with local planning efforts and ensure that the needs and preferences of each community are appropriately considered.

Additionally, we continue to urge the Governor and lawmakers to allocate annual investments of \$3 billion to support cities in preventing and reducing homelessness, as well as encouraging affordable

housing development. This ongoing funding commitment is crucial to enable cities like ours to implement community-based solutions that cater to the housing needs of residents across all income levels, thereby fostering a more inclusive and sustainable housing landscape.

For the reasons mentioned above, the City of Rancho Palos Verdes opposes AB 309 in its current form unless the necessary amendments are made to address our concerns and preserve local planning authority.

Thank you for taking the time to consider our position on this matter. We are willing to engage in further discussions and collaborate to find common ground that advances housing affordability and homelessness solutions in California.

Sincerely,
