a happy and healthy new year!**

## Alert SouthBay Plans Regional Emergency Alert Test for January 9

Alert SouthBay, in coordination with the Federal Communications Commission (FCC) and FEMA's Integrated Public Alert and Warning System (IPAWS), will conduct a test of the Wireless Emergency Alert (WEA) capability for the South Bay Region on Tuesday, January 9, 2024, at approximately 11:20 a.m. PST.

The regional test will consist of testing WEA and registered subscribers in the Alert SouthBay Regional Program. The WEA portion of the test will be directed to consumer cell phones. While this is not the first test of the WEA system nationwide, it is the first test conducted by the Alert SouthBay Regional System and its capability.

The test aims to ensure that the systems continue to be an effective means of warning the public about emergencies taking place in the community and larger South Bay region.

The WEA portion of the test will be initiated using IPAWS, a centralized internet-based system administered by FEMA that enables authorities to send authenticated emergency messages to the public through multiple communications networks. The WEA test will be issued via a code sent to cell phones.

All wireless phones should receive the message only once. The following can be expected from the regionwide WEA test:

- At approximately 11:20 a.m. PST, cell towers will broadcast the test for approximately 30 minutes. During this time, WEA-compatible wireless phones that are turned on, within range of an active cell tower, and in a geographic area where the wireless provider participates in WEA should be capable of receiving the test message.
- For consumers, the message on their phones will read: "THIS IS A TEST of the Alert SouthBay Regional Wireless Emergency Alert System. No action is needed. For information about this alert, please visit [www.alertsouthbay.com](http://www.alertsouthbay.com)"

## ADMINISTRATIVE REPORT

January 3, 2024

Page 6

- Phones with the main menu set to Spanish will display: “ESTA ES UNA PRUEBA del Sistema Regional de Alerta de Emergencia. No se necesita acción.”
- Similar to when your phone receives an Amber Alert, the WEA alert tone is generally only played when the alert is initially received by the phone and, on some devices, stop as soon as the user clicks a button.
- If a phone is turned off before the test alert is sent and not turned back on until after the WEA Test expires (approximately 30 minutes), the phone should not get the test message.

WEA alerts are created and sent by authorized federal, state, local, tribal, and territorial government agencies through IPAWS to participating wireless providers, which deliver the alerts to compatible handsets in geographically-targeted areas. To help ensure that these alerts are accessible to the entire public, including people with disabilities, a unique tone and vibration will accompany the alerts.

For information about registering for emergency alerts or for a list of frequently asked questions, please visit [alertsouthbay.com](http://alertsouthbay.com).

The advertisement features a green-toned background image of a residential neighborhood. In the top left corner, there is a circular logo with a stylized city skyline and a person icon. To its right, the text "Los Angeles County" and "RENT RELIEF PROGRAM" is displayed. The central text "RENT RELIEF FOR SMALL LA COUNTY LANDLORDS" is prominently displayed in large white letters. At the bottom left, a button-like shape contains the text "MORE INFO: LACOUNTYRENTRELIEF.COM". In the bottom right corner, the official seal of the County of Los Angeles is shown.

## Residential Fire Insurance Advocacy Letter - Now Available on the City Website

Are you struggling to find adequate fire insurance for your home? In California, the increasing frequency and severity of wildfires have significantly impacted the residential fire insurance market. This has resulted in higher premiums, reduced coverage options, and in some cases, policy cancellations.

In RPV, these statewide challenges are evident, many residents have reported increased premiums and difficulty maintaining their fire insurance coverage. In response to these concerns, the City's Emergency Preparedness Committee (EPC), in collaboration with City Staff, has developed a [comprehensive insurance resource letter \(PDF\)](#) (see attached letter).

This advocacy tool is tailored to help our residents and businesses communicate effectively with insurance providers. The letter highlights the extensive fire risk reduction efforts undertaken by the City of Rancho Palos Verdes and the Los Angeles County Fire Department, showcasing our commitment to minimizing fire hazards and enhancing community safety. This letter can be a powerful tool for you to advocate for maintaining your current insurance policies and potentially negotiating lower premiums. We encourage you to utilize this resource to its full extent.

## Are You Ready for the Next Big One? - Earthquake Preparedness Tips

Did you feel it? Monday morning's 4.1 magnitude earthquake occurred approximately 10 miles off the coast of Rancho Palos Verdes is a reminder to always be prepared. Earthquakes can happen at any time, often with little to no warning. You could be anywhere when an earthquake strikes: at home, at work, at school, or even on vacation. With Southern California deeply seated in "earthquake country," the City of Rancho Palos Verdes urges you and your family to always be prepared.

Here are a few tips to help you stay safe and be prepared for the aftermath of a major earthquake.

### **MyShake App**

To receive advanced alerts seconds before a reported earthquake, download the state's MyShake App on your mobile devices available. Download on the App Store or Google Play sites.

### **PREPARE NOW**

The key to surviving an earthquake and reducing your risk of injury lies in planning, preparing, and practicing what you and your loved ones will do when an earthquake occurs.

Page 14

- Make a supply kit that includes enough food and water for at least three days, 10 essential earthquake survival supplies
  - 💧 Water for 3-10 days
  - 🍅 Food for 3-10 days
  - 💊 First aid kit
  - 💡 Flashlights
  - 📻 Radio
  - 💊 Medications
  - 💵 Cash and important documents
  - 👟 Clothing and sturdy shoes
  - 🔧 Tools
  - 🧼 Sanitation and hygiene supplies
- Practice Drop, Cover, and Hold On with family and coworkers. Drop to your hands and knees. Cover your head and neck with your arms. Crawl only as far as needed to reach cover from falling materials. Hold on to any sturdy furniture until the shaking stops.
- Secure items such as televisions and objects that hang on walls. Store heavy and breakable objects on low shelves.
- Create a family emergency communication plan that has an out-of-state contact.
- Plan where to meet if you get separated from your loved ones.

## SURVIVE DURING

**DROP!** Wherever you are, drop down to your hands and knees and hold onto something sturdy. If you are using a wheelchair or walker with a seat, make sure your wheels are locked and remain seated until the shaking stops.

**COVER!** Cover your head and neck with your arms. If a sturdy table or desk is nearby, crawl underneath it for shelter. If no shelter is nearby, crawl next to an interior wall (away from windows). Stay on your knees or bent over to protect vital organs.

## ADMINISTRATIVE REPORT

January 3, 2024

Page 15

**HOLD ON!** If you are under a table or desk, hold on with one hand and be ready to move with it if it moves

- **IF YOU ARE INDOORS:** Stay there; do not run outside or inside your home since debris may fall and injure you. If able to do so, **DROP, COVER** and **HOLD ON**.
- **IF YOU ARE IN BED:** Stay in bed and turn face down and cover your head and neck with a pillow.
- **IF YOU ARE IN A VEHICLE:** Pull over and stop in a safe area away from buildings, trees, overpasses, underpasses, or utility wires. Make sure to set the parking brake so that the vehicle does not move during the shaking. Stay inside your vehicle until the shaking subsides.
- **IF YOU ARE OUTDOORS:** Move away from wires, buildings, and anything else that could fall and hurt you, but only if you can safely do so. Otherwise, stay where you are and **DROP, COVER**, and **HOLD ON** if able to do so.

### BE SAFE AFTER

- Expect aftershocks to follow the largest shock of an earthquake sequence.
- Check yourself for injury.
  - Do not enter damaged buildings. If you are in a damaged building, go outside and quickly move away from the building. If you are trapped, send a text or bang on a pipe or wall. Cover your mouth for protection and instead of shouting, use a whistle.
  - If you are in an area that may experience tsunamis, go inland or to higher ground immediately after the shaking stops.
  - Save phone calls for emergencies.
  - Once you are safe, monitor local news reports via radio, television, social media, and cell phone text alerts for emergency information and instructions.
