Practice Habits That Keep You Safe!

Read below to learn about habits you should practice to help you stay safe and navigate through any emergency, from a flat tire to a catastrophic disaster.

Get out of the path of danger by keeping gas tanks at least halfway full, cash on hand, and knowing at least two ways out of any place you enter.

Ensure you are alerted to emergencies, by keeping your phone fully charged, being aware of your surroundings, installing and maintaining smoke and carbon monoxide alarms, and signing up for emergency notifications on your phone through Alert South Bay at www.alertsouthbay.com

Make sure you have the resources needed to handle an emergency, including making emergency supply kits and updating them frequently, having a rainy-day fund, and getting to know your community and neighbors (they will be your first line of help in a major emergency).

Check out Los Angeles County's Emergency Survival Guide to learn more about preparing for emergencies:

<http://bit.ly/3UJcLkz>

DON'T FORGET TO

 Check in with your neighbors and attend community events.

 Stay informed about local weather and emergencies.

 Test smoke and carbon monoxide alarms at least monthly by pushing their test button.

 Check your emergency kits and replace expired or malfunctioning items.

 Put extra money in a rainy-day fund.

 Wash your hands before and after eating, using the restroom, or handling money.

 Cover your mouth when you sneeze/ cough.

 Drink plenty of water, eat healthy, & exercise.

PUBLIC WORKS PROJECTS

Portuguese Bend Landslide Emergency Stabilization Project Update

In response to unprecedented movement of the deep slide plane in the Greater Portuguese Bend-Ancient Altamira Landslide Complex (Landslide Complex), the City has been installing vertical deep de-watering wells to penetrate the deep slide plane and relieve water pressure.

Additionally, the City has been performing emergency winterization measures in the form of filling fissures and lining canyons including Altamira, Kelvin, Portuguese, Ishibashi, Paintbrush, and Klondike Canyons. The City will be lining the graben at the intersection of Exultant Drive and Dauntless Drive and filling the fissures on Exultant Drive, Admirable Drive, and Palos Verdes Drive South Service Road.

The following work has been completed to date:

Deep Dewatering Wells

- 17 instrumented vertical test boreholes to characterize subsurface conditions and support the execution of dewatering operations have been installed.
- Six deep dewatering wells (DDWs 1-6) have been installed west of the Portuguese Bend Beach Club community (PBBC) and are currently discharging water at a combined rate of approximately 570 gallons per minute (GPM).
- Two DDWs (DDWs 7 & 8) have been installed near Palos Verdes Drive South- one east of Peppertree Drive and one near the entrance to the South Bay Archery Range, with a combined discharge rate of approximately 110 GPM.

ADMINISTRATIVE REPORT

November 13, 2024

Page 15

- Two DDWs (DDWs 9 & 10) have been installed along the coast of Abalone Cove. DDW 9 operated for approximately 2 weeks until it sheared due to land movement and was decommissioned. A replacement well, called DDW 9A is being installed this week approximately 600ft southwest of DDW 9. DDW 10 is discharging water at a rate of approximately 115 GPM.
- The total combined water extraction rate of DDWs 1 through 10 is currently over 795 gallons per minute or approximately 1.15 million gallons per day.
- Since the start of the DDW program; approximately **40 million gallons**, or approximately 125 acre-feet, of water have been extracted from certain locations of the toe of the Landslide Complex.
- Access is being developed for a third DDW (DDW 11) in the Abalone Cove area.
- Deceleration of land movement in the areas of the installed DDWs continues to be observed, based on a sampling of points from GPS monitoring data.
- Four sample points in the Seaview and PBBC neighborhoods have shown no movement for four consecutive surveys (October 13, 2024, October 20, 2024, October 29, 2024, and November 5, 2024).

Winterization

- Fissure filling of Altamira Canyon and nearby areas is complete. A protective pond liner is being installed at the base of the canyon and should be completed by next week.
- Fissure filling and lining of Klondike canyon started last week and is anticipated to be completed in two weeks.
- Mobilization for fissure filling and lining of Kelvin, Portuguese, Ishibashi, and Paintbrush canyons is expected to start within the next two weeks.
- Construction crews have mobilized to the Seaview Neighborhood. Grading and paving of sections of Exultant Drive is expected to complete this week, followed by grading and paving of sections of Admirable Drive, which is expected to be completed within a week. Winterization of the Exultant and Dauntless Drive intersection has started and is expected to be completed by the end of November.
- All winterization work is expected to be complete by the end of December.

Environmental and cultural monitoring is being conducted in conjunction with the above construction activities.

Western Avenue Improvements

Caltrans is making ongoing improvements along Western Avenue from 25th Street to Carson Street, spanning the Cities of Rancho Palos Verdes, Los Angeles, Lomita, and Torrance. These upgrades include reconstructing existing curb ramps and building new ones to meet current Americans with Disabilities Act (ADA) standards in designated locations. The project will also replace existing push buttons with Accessible Pedestrian Signals (APS) and relocate various elements such as pull boxes, street lighting, transformers, power poles, traffic signals, roadside signs, and conduits to align with the modified or new curb ramps.

The project will also require the reduction and reconstruction of medians and narrowing of the travel lanes to accommodate the installation of Class II Bike Lanes within the roadway cross-section. The construction activities may require intermittent lane closures, temporary roadway striping and traffic signal timing adjustments.
