CITY MANAGER'S OFFICE

July 15, 2025 City Council Meeting Highlights

- The Council approved a levy of \$23.50 per parcel this fiscal year for the Citywide Landscaping and Lighting Maintenance District, which funds the maintenance of landscaping, lighting, traffic signals, and other improvements in public areas.
- No levy has been charged since 2017 due to sufficient funds. However, due to the financial strain of the landslide emergency, the Council opted to reinstate the levy, which is expected to generate about \$385,000.
- The Council also approved a 3% annual service charge increase for property owners served by the Abalone Cove Sewer System, excluding red-tagged homes. The charge is being increased to adjust for inflation and will range from \$214.72 to \$941.20 per single-family parcel, generating about \$60,000, or 2% of the budget needed for the operation and maintenance of the landslide-impacted sewer system. The remainder is subsidized by the City.
- Finally, the Council continued for 90 days a discussion on a permanent alternative solution to replace the temporary SCE power pole that was installed at Ladera Linda Community Park in August 2024 amid accelerated land movement, as more time is needed.

For all City Council actions from the meeting, watch video at rpvca.gov/agendas.

Land Movement Updates

Landslide Development Regulations Town Hall TONIGHT, July 16

On Wednesday, July 16, 2025 at 6pm, the City of Rancho Palos Verdes will host a Town Hall Meeting regarding proposed Municipal Code amendments to address future development in the Portuguese Bend Landslide Complex. These amendments would permanently prohibit new construction in the landslide area due to the substantial change in circumstances of the land movement.

Residents are invited to learn about the proposed code amendments and share their input during the Town Hall, which will include a presentation from City staff and a question-and-answer session. The proposed code amendments are available at the links below:

- [Draft Ordinance Amending Chapter 15.20 \(clean\) \(PDF\)](#)
- [Draft Ordinance Amending Chapter 15.20 \(track changes\) \(PDF\)](#)

Meeting Info

The Town Hall will take place on July 16, 2025 at 6 p.m. at Ladera Linda Community Park and via Zoom at rpvca.gov/participate. Refreshments will be served. Both in-person and Zoom participants will have the opportunity to submit questions to City staff.

Background Info

In September 1978, the City of Rancho Palos Verdes adopted a Landslide Moratorium Ordinance prohibiting new development in the Portuguese Bend Landslide area due to accelerated land movement. The ordinance was updated over the years to grant exceptions on a case-by-case basis.

ADMINISTRATIVE REPORT

JULY 16, 2025

Page 6

After heavy rainstorms triggered a historic increase in land movement in October 2023, the City declared a local state of emergency and implemented an additional moratorium prohibiting all new construction in the Portuguese Bend Landslide Complex. Due to state law for moratoriums, the prohibition is set to expire on October 2, 2025.

As the landslide emergency continues and with dozens of homes now red- or yellow-tagged due to land movement, the City has been studying revising the 1978 Landslide Moratorium Ordinance to permanently address development in light of the substantial change in recent circumstances.

At its meeting on August 5, the City Council will consider amending the Rancho Palos Verdes Municipal Code to prohibit new residential construction within the landslide complex, including home additions. Property owners would be permitted to replace, restore, and repair existing development within its current footprint. Additionally, the boundaries of the landslide complex would be updated to correspond with the expanded limits of recent land movement.

If you have questions about the meeting, please email the City at landmovement@rpvca.gov.

Bells of Nagasaki on August 3

The Urakami Cathedral in Nagasaki, Japan was built in 1925 but destroyed during the nuclear bombing on August 9, 1945. About 8,500 of the City's 12,000 Catholics perished and only the cathedral's walls remained. The new Urakami Cathedral was built in 1959, and a surviving bell was installed in one of the church's two new towers.

American Catholics have raised funds to create a bronze bell that will be installed in the second tower of the Cathedral and will be rung this August 9 at 11:02am to mark the 80th year since the bombing.

Touched by a personal desire for world-wide peace and to bring awareness of the cathedral bell restoration project, pianist Anli Lin Tong has put together a classical musical program at St. John Fisher Church on 5448 Crest Road. on Sunday, August 3,

- ✓ DROP to the floor or lock your walker/wheelchair and cover your neck and head.
- ✓ HOLD ON until shaking stops, proceeding with caution, exiting damaged buildings, and avoiding elevators.

2. Download the MyShake App to get early alerts:

<https://myshake.berkeley.edu/>

MyShake is a free earthquake early warning app for the West Coast that sends alerts to users' smartphones when an earthquake is detected. It can provide an alert a few seconds before major shaking occurs, which could give you time to get out of harm's way. Download the app today on the Google Play store or Apple App store. The app is available in multiple languages including English, Spanish, Chinese, Vietnamese, Korean, & Filipino.

3. Secure Your Home

- ✓ Strengthen/modify unreinforced masonry buildings, soft/weak first story construction, balconies, attics, ceilings, chimneys, room additions, & cripple walls.

CalPERS Announces Preliminary 11.6% Return for 2024-25 Fiscal Year

On July 14th, the California Public Employees Retirement System (CalPERS) reported a preliminary net investment return of 11.6% for the 12-month period ending June 30, 2025. This brings the Public Employees' Retirement Fund (PERF) total assets under management to approximately \$556.2 billion. This reporting significantly exceeds CalPERS' assumed 6.8% rate of return.

These early results are a positive sign and could help reduce future pension costs. The specific impact on the City's unfunded liability will not be known until the updated actuarial report is released in the coming months.

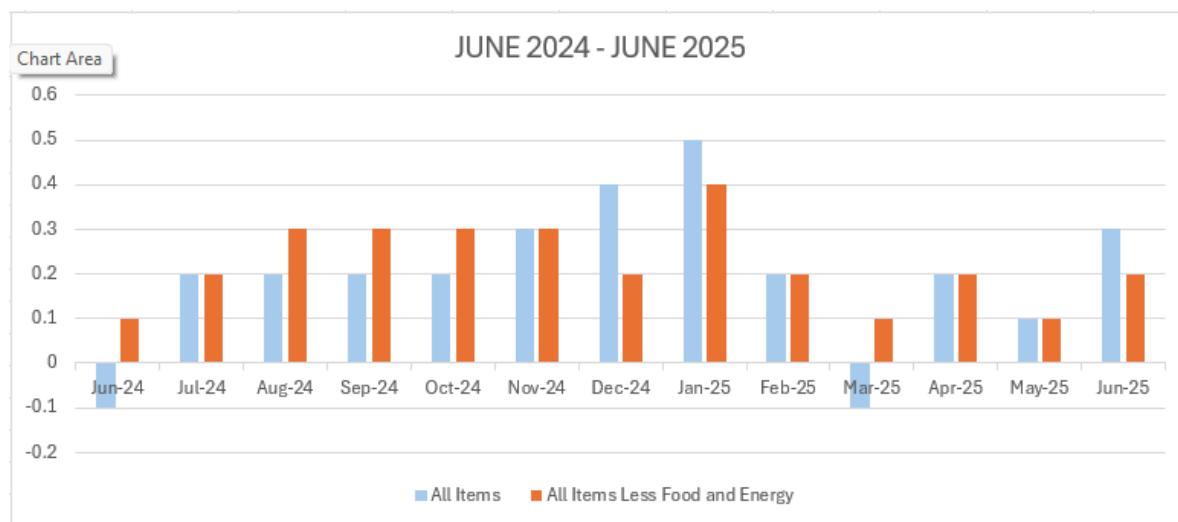

CalPERS is a benefit retirement plan, which provides benefits based on an employee's years of service, age and compensation. The City of Rancho Palos Verdes contracts with CalPERS to provide retirement benefits to all eligible city employees.

PUBLIC WORKS DEPARTMENT

Landslide Emergency Stabilization

In response to unprecedented movement of the deep slide plane in the Greater Portuguese Bend-Ancient Altamira Landslide Complex (Landslide Complex), the City installed vertical deep de-watering wells (DDWs) to penetrate the deep slide plane and relieve water pressure.

Additionally, the city performed emergency winterization measures in the form of filling fissures/grabens, lining canyons, and improving drainage.

Status of the Deep Dewatering Wells Program

- The DDWs continue to be monitored and re-drilled or replaced as needed within the current approved budget.
- The total combined water extraction rate of the DDWs is currently at approximately **755 gallons per minute** or **1.1 million gallons per day**.
- Since the start of the DDW program, approximately **289 million gallons** or **872 acre-feet** of water have been extracted from certain locations around the toe of the Landslide Complex. Overall extraction rates have recently decreased due to the reasons described below:
 - DDW-7 has sheared due to land movement. Based on the relatively low production rate of this DDW, the City's geologists are advising that this DDW should not be re-drilled but rather re-located, should additional funding become available. Accordingly, DDW-7 has been decommissioned.
 - DDW-8 has sheared due to land movement. A plan is being developed to re-drill the well in the near future.

ADMINISTRATIVE REPORT

JULY 16, 2025

Page 15

- DDW-11 experienced pump failure because of an insufficient water flow rate to keep the pump cooled. Due to the insufficient water flow, the City's geologists are advising that this DDW should not be re-drilled but rather relocated, should additional funding become available. Accordingly, DDW-11 has been decommissioned.

DDW Current Water Extraction Rates as of July 14, 2025

Status of Winterization

All winterization activities for the 2024-25 rainy season are completed.

Plans for winterization for the 2025-26 rainy season will be developed in the coming weeks.

Palos Verdes Drive South in Landslide Area

This week, Wayfarers Chapel is scheduled to perform maintenance work on their slope adjacent to Palos Verdes Drive South in the landslide area. The work will generally consist of removing material to stabilize the slope.

Los Angeles County Sanitation Districts - Palos Verdes Drive South Pipeline Replacement Project

The sewer service in Rancho Palos Verdes is provided by both Los Angeles County Public Works and the City. Wastewater from these systems flows into transmission pipelines operated by the Sanitation Districts of Los Angeles County (LACSD), a regional agency serving 5.5 million residents in 78 cities. LACSD operates two above-ground 14-inch transmission pipelines along Palos Verdes Drive South, which carry sewage from across the Palos Verdes Peninsula to treatment facilities in Carson.

Ongoing land movement in the Portuguese Bend Landslide Complex has damaged these pipelines and caused leaks requiring emergency repairs. In response, LACSD has launched a project to replace the existing rigid steel pipes with more flexible High-Density Polyethylene (HDPE) pipes. Construction began several months ago and is expected to be completed by the end of July 2025.

Staff are coordinating closely with LACSD to limit traffic disruptions along Palos Verdes Drive South.

Coastal Bluff Fence Repair Completed

Repairs to the coastal bluff fence along Calle Entradero have been successfully completed. The project was finished within the planned four- to six-week timeframe, and all areas are now fully reopened.

Update on the Hesse Park Community Center Roof Replacement Project

The work for the Hesse Park Community Center Roof Replacement is substantially complete. The construction contractor will be fully moved off site within the next couple of weeks after some minor adjustments and detailing are completed.

The project provides a full replacement for the facility's roof and skylights. During the winter storms in early 2024, sections of the roof leaked and damaged interior areas of the building, including sensitive equipment used to facilitate public meetings and events. Public Works staff made temporary repairs to the building and further determined through a detailed assessment that the roof, including all 17 skylights, was nearing the end of its useful service life; and a full replacement would be needed soon. Subsequently, a heavy wind event in January 2025 damaged some of the temporary repairs made in 2024, as well as some skylights.

REACH Keeps the Bocce Fun Rolling

There's no botching it when REACH hits the Bocce court. Friendly competition never looked this good! Everyone brought their A-game on Wednesday. The score was close, down to the last point, but nothing says friendship like cheering each other on and playing together. With accidental genius shots and maybe a little debating on which team is closer, we all had a rock n' rolling good time! This is a great way for us to get out of the house, work on our aim, and add a little strength training. If you haven't played before, be prepared, you aren't tossing a tennis ball.

Upcoming REACH events include a fascinating expedition to the South Bay Greek Festival in Redondo on July 19, where REACH will be able to spend a day in the sun browsing all the vendors and shops. Next week on July 23, we head to Ladera Linda to meet Guy for a bouncing basketball clinic that will knock our socks off!

Native Plant Garden Volunteer Event

23 volunteers arrived bright and early this past Sunday, battling the summer humidity to make the native plant garden at Point Vicente Interpretive Center healthy and beautiful. The native plant garden houses several species of insects, birds and small mammals, so consistent upkeep of this garden is essential. Thank you to the volunteers who took time out of their day to spread mulch around the garden as well as trim and water the plants.

Community members are invited to join us on select Sundays to assist with garden maintenance and care. Upcoming volunteer dates are August 17 and September 14

All events run from 10 a.m. to 12 p.m. Email iwanttohelp@tidalinfluence.com to sign up.

All levels of experience are welcome. Come enjoy the outdoors and help keep the garden thriving.

Public Correspondence:

We highly encourage written materials regarding Planning Commission Agenda items be submitted no later than 4:00 P.M. the Monday prior to a Planning Commission meeting to allow the Planning Commission Members ample time to review and consider the issues raised prior to making decisions at the Planning Commission meeting. Please keep in mind that it is difficult for Planning Commission Members to carefully review materials submitted after that deadline or at the meeting. Written materials, including emails, submitted to the city are public records and may be posted on the City's website. Accordingly, you may wish to omit personal information from your written materials or oral presentation as it may become part of the public record regarding an agenda item. In addition, City meetings may be televised and may be accessed through the City's website at www.rpvca.gov/agendas.

Public Participation:

Participants must speak from the podium using the lectern microphone; comments are to be directed to the Planning Commission and not to the staff or the public; repetition should be avoided; and reading a submission that has been copied or contained in the agenda will be discouraged. Conduct at the Planning Commission Meeting:

Pursuant to GC 54957.95: (a)(1) In addition to authority exercised pursuant to Sections 54954.3 and 54957.9, the presiding member of the legislative body conducting a meeting or their designee may remove, or cause the removal of, an individual for disrupting the meeting. (2) Prior to removing an individual, the presiding member or their designee shall warn the individual that their behavior is disrupting the meeting and that their failure to cease their behavior may result in their removal. The presiding member or their designee may then remove the individual if they do not promptly cease their disruptive behavior. This paragraph does not apply to any behavior described in subparagraph (B) of paragraph (1) of subdivision (b)(1) means engaging in behavior during a meeting of a legislative body that actually disrupts, disturbs, impedes, or renders infeasible the orderly conduct of the meeting and includes, but is not limited to, one of the following: (A) A failure to comply with reasonable and lawful regulations adopted by a legislative body pursuant to Section 54954.3 or any other law. (B) Engaging in behavior that constitutes use of force or a true threat of force.(2) "True threat of force" means a threat that has sufficient indicia of intent and seriousness, that a reasonable observer would perceive it to be an actual threat to use force by the person making the threat.

Time Estimates:

The time noted next to an agenda item is only an estimate of the amount of time that will be spent during the meeting on that particular item. Accordingly, these estimates should not be relied on in determining when a matter will be heard, especially since agenda items are often re-ordered during a meeting and may be discussed at any time.

Continuation of Meeting:

The Planning Commission will adjourn its meetings on or before 11:00 p.m. and will not consider new business items after 10:15 p.m., unless a majority of the Planning Commission members who are present affirmatively vote either to extend the meeting after 11:00 p.m. or to consider new business after 10:15 p.m. If the meeting ends before all items listed on the agenda are completed, any unfinished business will be continued to the next succeeding day that is not a holiday, at a location to be determined.
