### Bells of Nagasaki on August 3

The Urakami Cathedral in Nagasaki, Japan was built in 1925 but destroyed during the nuclear bombing on August 9, 1945. About 8,500 of the City's 12,000 Catholics perished and only the cathedral's walls remained. The new Urakami Cathedral was built in 1959, and a surviving bell was installed in one of the church's two new towers.

American Catholics have raised funds to create a bronze bell that will be installed in the second tower of the Cathedral and will be rung this August 9 at 11:02am to mark the 80<sup>th</sup> year since the bombing.

Touched by a personal desire for world-wide peace and to bring awareness of the cathedral bell restoration project, pianist Anli Lin Tong has put together a classical musical program at St. John Fisher Church on 5448 Crest Road. on Sunday, August 3, 2025 at 2:30pm. ## **August 2025 is the inaugural National Emergency Management Awareness Month**

Emergencies are inevitable, but catastrophes are not. Emergency management is the profession that helps communities and organizations prepare, respond, recover, and adapt to all types of disasters and emergencies. Emergency management isn't just about reacting; it's also about planning in advance, coordinating under pressure, and developing lasting resilience.

Most people don't see emergency managers at work. They are the ones who:

- Coordinate evacuations and emergency alerts
- Anticipate hazards and mapping community vulnerabilities
- Secure resources and partnerships before disaster strikes
- Manage Emergency Operations Centers and response coordination
- Support recovery long after the headlines fade

In Rancho Palos Verdes, your emergency management staff person is Luna Mohammad. She works closely with city management and staff, her counterparts in all neighboring jurisdictions, and the [RPV Emergency Preparedness Committee](#) to strengthen the city's community disaster resilience.

Learn more about emergency management in the city and how you can prepare by visiting: [www.rpvca.gov/emergency](http://www.rpvca.gov/emergency)

## PUBLIC WORKS DEPARTMENT

### Landslide Emergency Stabilization

In response to unprecedented movement of the deep slide plane in the Greater Portuguese Bend-Ancient Altamira Landslide Complex (Landslide Complex), the City installed vertical deep de-watering wells (DDWs) to penetrate the deep slide plane and relieve water pressure.

Additionally, the city performed emergency winterization measures in the form of filling fissures/grabens, lining canyons, and improving drainage.

#### Status of the Deep Dewatering Wells Program

- The DDWs continue to be monitored and re-drilled or replaced as needed within the current approved budget.
- The total combined water extraction rate of the DDWs is currently at approximately **670 gallons per minute** or **0.96 million gallons per day**.
- Since the start of the DDW program, approximately **301 million gallons** or **907 acre-feet** of water have been extracted from certain locations around the toe of the Landslide Complex. Overall extraction rates have recently decreased due to the reasons described below:
  - DDW-5 has been shut down for pump maintenance and is expected to be back in service by the end of the week.
  - DDW-8 has sheared due to land movement. Bids for re-drilling this well are being reviewed and work is expected to start within a week.
  - DDW-9 required repairs to its pump last week is now back in service.

DDW Current Water Extraction Rates as of July 28, 2025

### Status of Winterization

Field reconnaissance by geologists is scheduled over the next two weeks to develop winterization plans for 2025-2026.

### Palos Verdes Drive South in Landslide Area

This week, Wayfarers Chapel is continuing maintenance work on their slope adjacent to Palos Verdes Drive South in the landslide area. The work generally consists of removing material to stabilize the slope.

### Los Angeles County Sanitation Districts - Palos Verdes Drive South Pipeline Replacement Project

The sewer service in Rancho Palos Verdes is provided by both Los Angeles County Public Works and the City. Wastewater from these systems flows into transmission pipelines operated by the Sanitation Districts of Los Angeles County (LACSD), a regional agency serving 5.5 million residents in 78 cities. LACSD operates two above-ground 14-inch transmission pipelines along Palos Verdes Drive South, which carry sewage from across the Palos Verdes Peninsula to treatment facilities in Carson.

Ongoing land movement in the Portuguese Bend Landslide Complex has damaged these pipelines and caused leaks requiring emergency repairs. In response, LACSD has launched a project to replace the existing rigid steel pipes with more flexible High-Density Polyethylene (HDPE) pipes. Construction began several months ago and is now expected to be completed by the end of the summer.

Staff are coordinating closely with LACSD to limit traffic disruptions along Palos Verdes Drive South.

### City Council Meeting: Palos Verdes Drive East Traffic Update – August 5

On August 5, 2025, the City Council will receive an update on traffic measures along Palos Verdes Drive East from Crest Road to Palos Verdes Drive South and speeding enforcement on the stretch of the roadway known as the “switchbacks.” The Council will also consider whether to adjust the speed limit on Palos Verdes Drive East in the subject area.

A [staff report](#) with additional details is available on the City website.

The meeting will take place on August 5, 2025, at 7 p.m. in McTaggart Hall at Hesse Park and via Zoom. Those interested in participating in the meeting can join via zoom or in person, please visit [www.rpvca.gov/participate](http://www.rpvca.gov/participate) for instructions.

## COMMUNITY DEVELOPMENT DEPARTMENT

### REMINDER: Landslide Area Development Regulations

On August 5, 2025, the City Council will consider the proposed amendments to address future development in the Portuguese Bend Landslide Complex. The proposed amendments would permanently prohibit new construction in the landslide area due to the substantial change in circumstances of the land movement. However, it would permit property owners to replace, restore, and repair development within the same general location. Additionally, the boundaries of the Landslide Complex would be updated to correspond with the expanded limits of recent land movement. More information and a draft of the proposed code amendments are available on the City's website for review: <https://www.rpvca.gov/1841/Landslide-Area-Development-Regulations>. For questions, please contact Senior Planner, Jessica Bobbett at (310) 544-5224 or via email at [Jbobbett@rpvca.gov](mailto:Jbobbett@rpvca.gov).

### 2025 Southern California Demographic Workshop

The Southern California Association of Governments (SCAG) and the Sol Price School of Public Policy at the University of Southern California will host the 36<sup>th</sup> annual Demographic Workshop on October 1, 2025. The focus of the workshop aims to create a deeper understanding of how groups in our society rely on one another across generations and between lifecycle stages.

### REACH Shoots for the Win

Epic dunks, slick moves, wild shots, and nonstop laughs - basketball with your friends is pure bliss! A little bit of sweat, some hustle, and high fives turned the court into a battlefield full of chaos and excitement. We did some light stretching before we ran through some drills and dribbled our way down half court to make that NBA shot to take us to the championships. Nobody kept score, except for that final shot. It's not always about the scoreboard and the skill, sometimes, it's about the company and the memories made together.

Upcoming REACH events include a paint night palooza on July 30 with Recreation Specialist and artist Dana Torrey. After a fun night painting, we continue on our artistic journey to the Long Beach Museum of Art on August 2 to see things through other people's perspectives.
