UPDATE ON DEVELOPMENT PROJECTS

CITY CONSIDERING THREE MAJOR DEVELOPMENT PROJECTS

While Rancho Palos Verdes has seen a fair amount of new developments during the last decade, especially along the coastline, the City is still not completely "built out." There are currently three major development projects winding their way through the City's review process: the Crestridge Senior Housing/Senior Center Project; Marymount College Facilities Expansion Project; and the Point

View Moratorium Exclusion Project. Although initial meetings have already been held, the City is looking for continued public input in the months to come. If you would like more information about these projects or to be placed on an "interested parties" list to receive any future public hearing notices via e-mail, please access the City's website at www.palosverdes.com/rpv.

CRESTRIDGE SENIOR HOUSING/ SENIOR CENTER PROJECT

Laing Urban is proposing a senior residential project on Crestridge Road, between Crenshaw Boulevard and Highridge Road. The project encompasses a privately owned 9.76-acre lot (located East of the Belmont Village Assisted Living Facility) and the City RDA-owned "Crestridge property" located on the northwest corner of Crestridge Road and Crenshaw Boulevard.

Standard Pacific originally presented a project concept for this site at a public workshop held in May 2002, which included a mix of senior housing, a permanent location for the Peninsula Seniors and a passive park. In October 2005, Laing Urban notified the City that it would be purchasing the property and moving forward with the project, consisting of 100 senior condominiums (including 5 affordable housing units), a building pad for the Peninsula Seniors to

develop a 10,000 square foot "Seniors Center," a public passive park and trails.

In early 2006, a Notice of Preparation/Initial Study was circulated for public review and the Planning Commission conducted a public scoping meeting on February 14, 2006. In June 2006, Laing Urban submitted a revised plan in response to comments received during the scoping process. Some of the key changes include a reduction in the unit count from 100 units down to 97; an increase in the number of side-by-side units (townhouse appearance) from 25 to 29; a decrease in the number of the large buildings that contain multiple units from 5 to 4 and a re-orientation of the buildings; a reduction in the overall grading quantity; and, relocation of the passive park/ overlook area from the eastern portion of the site by Crenshaw Boulevard to the western edge of the site adjacent to Belmont Village.

ANNENBERG FOUNDATION HELPS FIT ALL THE PIECES TOGETHER

CREATING THE RPV VISION PLAN AND PUBLIC USE MASTER PLAN

THE ANNENBERG FOUNDATION GRANT

In 2005, the Annenberg Foundation provided a \$1,067,000 challenge grant towards the acquisition of the Portuguese Bend property. The grant enabled the Palos Verdes Peninsula Land Conservancy (PVPLC) to provide \$4 million in private funding toward the acquisition. While touring the coastal area of Rancho Palos Verdes, Wallis Annenberg was impressed by its beauty and she expressed interest in assisting the City to think of its remaining undeveloped land as one planning area. In March 2006, the Annenberg Foundation followed through and awarded a grant to the PVPLC to work with the City and create an RPV Vision Plan for the area.

THE VISION PLAN PROJECT AREA

The Vision Plan includes the following key open space areas, which were selected because they are key open space parcels and/or provide public use opportunities:

- The entire Portuguese Bend Nature Preserve
- The Civic Center at Upper Point Vicente
- The Point Vicente Interpretive Center and farm at Lower Point Vicente
- The Point Vicente Lighthouse property (U.S. Government owned)
- Portions of the Terranea property (for trail connection purposes)
- Del Cerro Park
- The 25-acre Active Recreation Area within the Portuguese Bend Nature Preserve
- The Coastal Zone (for the purposes of establishing a coastal trail)

THE VISION PLAN GOAL

The Vision Plan's goal is to create a coordinated master plan for the areas noted above, with public access, interpretive materials, recreational amenities and other facilities to improve the recreational and educational experience for both residents and visitors. The Plan will identify program, design and linkage

concepts for the entire area. In addition, the process will consider the possibility of locating an animal care and rescue center on one of the properties, a project of interest to the Annenberg Foundation.

THE PUMP COMPONENT OF THE VISION PLAN

The Vision Plan also includes the creation of the Public Use Master Plan (PUMP) for the Portuguese Bend Nature Preserve. The City's Natural Communities Conservation Plan (NCCP) requires the PUMP to be submitted to the resource agencies within 2 years of the NCCP Implementing Agreement being signed by all parties. Preparation of the PUMP will be a major undertaking and the financial assistance provided by the Annenberg grant will be invaluable for completing it within the required time line. To assist with its development, the City Council appointed a PUMP steering committee on June 6, 2006, consisting of 16 community members with various points of view.

CITY MANAGER LES EVANS PLANS RETIREMENT

After a long career of public service, City Manager Les Evans has announced his retirement, effective December 21, 2006. In addition to serving as City Manager since July 1998, Mr. Evans was the City's Public Works Director for two years prior to that time. Making this announcement to the City Council last May, Mr. Evans said that he decided to end his employment at this time to allow the new City Manager to participate fully in the two year budget process and to become familiar with the City and the issues it is facing prior to the November 2007 City Council election.

Mr. Evans' public service career started in the Naval Civil Engineer Corps in 1967, and included two years in Vietnam with the SEABEES

and twenty years in the Naval Reserve Civil Engineer Corps, retiring with the rank of Captain in 1990. Mr. Evans' career in local government spanned over 30 years in the Southern California area. Prior to coming to Rancho Palos Verdes, Mr. Evans served as the city engineer for Huntington Beach and Carlsbad and through his firm, Evans and Associates, contracted with the cities of Signal Hill, San Jacinto and Colton as a public works department head.

In his letter to the City Council, Mr. Evans said that he felt "fortunate to have spent the past eight years as the Rancho Palos Verdes City Manager and to have known and worked with ten very dedicated Council members during that period."

The City is using a consulting firm to assist in the search for a new City Manager. It is hoped that the selection will be made prior to the end of the year, with the new City Manager assuming his/her duties in January 2007.

A retirement party is planned for Thursday, November 30th at the City's Point Vicente Interpretive Center. Residents interested in attending should contact Alberta Gray in the City Manager's Office at (310) 544-5207.

ANNENBERG FOUNDATION continued from page 1

THE OVERALL VISION PLAN/ PUMP PREPARATION PROCESS

Melendrez, a landscape architecture and urban planning firm, will take the lead to integrate the existing planning documents, solicit public input and work with the City/PVPLC staff to create the RPV Vision Plan, with oversight provided by a two-member City Council subcommittee. The process involves the following steps:

- Gathering Data Phase
- Public Vision Plan Workshop No. 1
- Creation of Vision Plan Alternatives
- Public Vision Plan Workshop No. 2 and Trail Committee Workshop
- Final Alternative Refinement and PUMP Development
- Final Plan Creation and City Council Review/Adoption

CURRENT STATUS OF THE VISION PLAN AND PUMP

VISION PLAN

The first Vision Plan public workshop was held on June 3, 2006 at Ridgecrest Elementary School. Approximately 80 people attended the workshop to share their vision for the City's nature preserve and associated open space, recreation

areas and civic places. In addition, groups and individuals made presentations on projects that will be addressed by the Vision Plan. Currently, Melendrez is preparing alternatives based on the public comments received at the workshop and subsequently submitted comment cards. The plan alternatives will be discussed at a second public workshop scheduled for October 7th at the Point Vicente Interpretive Center.

PUMP

The PUMP Committee has been meeting on a monthly basis since July 2006. The first meeting served as an orientation for committee members with an explanation and discussion of the City's NCCP, open space acquisition efforts, PUMP review process and Vision Plan. The Committee agreed to divide the Preserve into sub-areas so that the Committee can review and discuss related public use issues, such as trail location and usage, one sub-area at a time. At the August and September meeting, the Committee focused on trail locations within two of the sub-areas. The Committee's meetings are typically held in the Community Room at City Hall and are open to the public.

For further information about the RPV Vision Plan, contact Planning Director Joel Rojas at 310-544-5228 or joelr@rpv.com, or Barbara Dye with the Palos Verdes Peninsula Land Conservancy at 310-541-7613 or barbaradye@cox.net. To receive any future public hearing notices via e-mail, please access the City's website at www.palosverdes.com/rpv.

THANK YOU TO OUR DONORS

The City's Gifts for Parks program, established in 1982, provides a means by which interested individuals, organizations, and/or businesses may contribute funds, merchandise or labor for the enhancement of the City's Recreation and Parks facilities and programs. The City of Rancho Palos Verdes thanks the following individuals and businesses for their generous contributions.

Donations for PVIC:

- \$45,000 from the Major Family Foundation to sponsor the Interactive Gray Whale Exhibit
- \$1,500 from the Rolling Hills Estates Woman's Club for one 6" x 8" bronze PVIC Amphitheater plaque, plus \$200 cash donation

\$2,500 Donations for PVIC Whale Walk II Recognition Plaques:

- Bob and Aileen Bevan
- Cathy and George Dumitrov-Shweiri
- The Farman Family
- Dick and Sandy Jacobsen
- Clyde Lambert
- Las Candalistas
- Elizabeth Lohmiller
- Betty and Ken Riedman
- Debbie and Sandy Rosen
- Lorallynn and David Sheeron
- Susan and Steven Soldoff
- Alice and Robert Toole

Donations for 2006 July 4th Celebration:

- \$100 from Eastview Townhomes Homeowners Association
- \$100 from Golden Cove Center
- \$100 from Panorama Estates
- \$100 from RPV Council of Homeowners Association
- \$100 from Seaview Residents Association
- Spa Sampler from Body Therapy Center Day Spa

- Assorted prize items from Bon Bon Island
- Ten \$10 gift certificates from Bristol Farms
- Ten \$5 gift certificates from Chicken Dijon Rotisserie Grill
- Two \$100 U.S. Savings Bonds from Farmers & Merchants Bank
- \$10 gift certificate and prize item from Gift Garden
- \$25 gift certificate from Giorgio's Restaurant
- Chip & Dip Set from Hallmark Peninsula Stationers
- Ten gift certificates from Jamba Juice Company
- Ten \$5 gift certificates from La Salsa Fresh Mexican Grill
- Gourmet Peruvian Cookies from Mama Oclo at Baltic Bakery
- \$25 gift certificate from Marmalade Café
- Twenty fruit pies from Marie Callender's (Western Avenue, RPV)
- Ten \$5 gift certificates from Ruby's Diner
- Twenty prize items from Small Wonders
- Fragrance diffuser kit from Stein Mart, Inc.
- \$30 gift certificate from The Original Red Onion Restaurant
- Ten gift certificates from Yummy Yogurt

REACH Program Donations:

- \$100 from Lorraine Beckett

FREE NATURE WALKS AT ABALONE COVE BEACH

DOCENT-LED WALKS ARE OPEN TO THE PUBLIC

This fall, the Los Serenos de Point Vicente docents are offering guided walks through the tide pools at Abalone Cove Beach on the following dates:

Saturday	October 7	2:30 p.m.
Saturday	November 4	1:00 p.m.
Saturday	December 2	12:30 p.m.

The walks will begin in the parking lot at Abalone Cove Shoreline Park. The parking fee will be waived for those attending the public walks. Docents will talk about the underwater plants and animals living in the intertidal zone. No plants or animals may be removed from this area, since it is an ecological preserve. Participants should wear sturdy, non-slip walking shoes suitable for walking down a slope and across an uneven rocky beach.

Please be aware that your shoes may get wet. A hat and bottle of water are also recommended. Walks last about two hours and no reservations are required. In the event of rain, the walk will be cancelled.

For more information about becoming a docent, or to schedule a hike for your organization or group, please call (310) 544-5264 or visit the City's website at www.palosverdes.com/rpv.

JOB OPPORTUNITIES IN YOUR COMMUNITY

Are you interested in serving the public in a variety of settings, learning about the daily operations of local government, and maintaining a flexible work schedule?

The RPV Recreation and Parks Department is actively seeking qualified individuals to apply for the part-time, year-round position of Recreation Leader. Positions are available at the newly expanded Point Vicente Interpretive Center, as well as other park sites.

Opportunities are also available to assist with REACH, a dynamic recreation program for teens and adults with developmental disabilities.

Customer Service experience is highly desirable, but not required. Possession of a Class B California Driver's License is a plus. Beginning pay rate is \$8.86 per hour.

Job Requirements

High School Diploma / 18 years of age or older / Class C California Driver's License

Call the City's Job Information Line at 310-544-5308 or visit the City's website at www.palosverdes.com/rpv for a City application.

WHEN IS A BUILDING PERMIT REQUIRED?

Contemplating a home improvement project? Along with designing a plan and selecting a contractor, residents should also be checking whether a home improvement project requires City building permits. Building Permits are required for all buildings or structures that are to be altered, repaired, enlarged, improved upon or converted, or where any change in the size of a room takes place or any electrical or plumbing work is involved. Some examples of projects requiring permits are:

- Room Additions
- Interior Remodels
- Kitchens & Bathrooms — Adding, replacing and or relocating fixtures and appliances
- Bedroom / Bath conversions to Master Suites — Adding, replacing and or relocating receptacles, switches and lighting.
- Photovoltaic systems
- Window and Door replacements
- New or Replaced Decks, Patio covers (Enclosed and open)
- Spa/Swimming Pools
- Foundation Repair
- Termite Repair
- Roof Replacement
- Water Heater Replacement (including tankless water heaters)

- Heating and Air conditioning equipment installations
- Electrical Upgrades
- New Siding
- Gravity Walls (Keystone blocks or similar)
- Retaining Walls
- Grading

Before starting an improvement project, it is highly recommended that you contact the City's Building & Safety Division at 310-541-7702 or buildingandsafety@rpv.com to inquire if a permit is required. Additionally, before the Building & Safety Division can issue a building permit, approval from the Planning Division must be obtained for projects that involve grading (retaining walls, slope excavations, etc.) or changes to the exterior of an existing residence (additions, decks, pools, spas, skylights, garden windows, mechanical equipment, etc.). The Planning Division's review will focus on ensuring that the project meets the City's zoning regulations, such as minimum distances (setbacks) from property lines and height limits for all buildings, structures and equipment. The Planning Division may be contacted at 310-544-5228 and planning@rpv.com.

DEVELOPMENT PROJECTS continued from page 1

The proposed location of the Peninsula Seniors building will not be affected. At this time, the Draft EIR is being revised and City staff anticipates that it will be available for public review in the fall of 2006.

The City's project planner for the Crestridge Villas Senior Housing Project is Senior Planner Eduardo Schonborn and can be contacted at (310) 544-5228 or eduardos@rpv.com. Laing Urban's representative is Dana Yogel and can be contacted at 310-253-9322.

MARYMOUNT COLLEGE FACILITIES EXPANSION PROJECT

Marymount College is located at 30800 Palos Verdes Drive East, at the intersection of Palos Verdes Drive East and Crest Road. In July 2000, the college submitted applications for proposed improvements to its campus. While the specifics have changed through the years, the most current applications propose the following:

- Two interconnected 2-story student residence halls with a total of 128 rooms and totaling 59,164 square feet (s.f.) in area;
- A two-story 33,243 s.f. athletic facility;
- A two-story 26,710 s.f. library;
- A one-story 1,975 s.f. maintenance building;

- A one-story 1,869 s.f. art studio addition to the existing auditorium building;
- A two-story 7,455 s.f. addition to an existing faculty building;
- A two-story 3,492 s.f. bookstore/faculty dining addition to the existing Student Union building;
- A one-story 2,100 s.f. addition to the existing administration building;
- Reconfiguration and reconstruction of the entry drive and 463 parking spaces, including 391 full-size and 72 compact spaces.
- Construction of four new tennis courts and an athletic field;
- Approximately 84,000 cubic yards of associated grading, with approximately 10,000 cubic yards of graded material to be exported from the site.

There is also a future plan for an approximately 3,000 square foot community preschool to the west of the proposed athletic facility and the replacement of the existing swimming pool.

An Initial Study and Notice of Preparation of a Draft EIR were completed in 2005 and public scoping meetings were held in December 2005 and January 2006 to receive comments on the issues that should be addressed in the EIR. On January 31, 2006, the City Council and Planning Commission held a non-binding pre-screening

Breakfast With Santa

MARK YOUR CALENDARS
FOR SOME OLD-FASHIONED HOLIDAY FUN!

Hop on your sleigh...Santa's on his way!

Call the North Pole at
310-544-5260
for more information.

CHRISTMAS TREE RECYCLING

Leave your Christmas trees at the curb on your regular green waste recycling day (2nd pickup of the week). No need to cut the tree into smaller pieces and flocked trees are acceptable. But make sure you remove the base and any ornaments (including tinsel or garland) before placing the tree at the curb.

If you live in a multi family complex such as a condominium, apartment or townhome, just ask your Management Company or HOA the designated drop-off location (it is usually in the garage area or by the recycling bins).

workshop on the project to identify issues that are likely to surface during the formal application review process. The next step is the release of the Draft EIR, which is expected to be available sometime this fall at the earliest.

The City's project planner for the Marymount College Facilities Expansion Project is Principal Planner Ara Mihanian. He may be contacted at (310) 544-5228 or via email at aram@rpv.com. The project manager for Marymount College is Michael Laughlin, who may be contacted at (310) 954-3700.

POINT VIEW MORATORIUM EXCLUSION PROJECT

The property, known alternately as "Point View" or "Lower Filiorum," is located at 6001 Palos Verdes Drive South, next to Wayfarers Chapel and across the street from the City's Abalone Cove Beach Park. The property is approximately 95 acres in area, and is zoned for 1 to 2 single-family residential units per acre. Approximately 60 acres of the site are located within the City's Landslide Moratorium Area (LMA), with the remaining 34 acres outside of the LMA.

The property owner, York Long Point Associates, submitted a Moratorium Exclusion application in May 1996, requesting the exclusion of up to 60 acres of the property from the Landslide Moratorium Area. For the next several years, the application remained incomplete as the property owner prepared the geologic and geotechnical studies to support the requested moratorium exclusion. The City's Geologist conceptually approved these studies in March 2003 and the application was subsequently deemed complete.

A Notice of Preparation/Initial Study for the project was circulated for public comment in the fall of 2003

and the City Council held a public scoping meeting on October 29, 2003. The project Draft EIR was circulated for public review during the summer of 2005 and a public comment meeting was held before the City Council on September 6, 2005. The City's consultant then began working on completing the Final EIR for the project.

On July 6, 2006, the applicant submitted a revised the project and requested that the completion of the Final EIR be placed on hold. The revised project reduces the housing units from 84 to 72 and reduces the total amount of grading from about 4 million cubic yards to around 770,000 cubic yards. The reductions are a result of the revised project being limited to the area outside the boundary of the ancient landslide. To further validate the location of the ancient landslide boundary, additional geologic borings will be made on the site later in the year. The forthcoming geotechnical reports are expected to be submitted to the City's Geologist by year's end, at the earliest. Once the reports are submitted and reviewed, City staff will determine the appropriate environmental review process for the revised project.

The City's project planner for the Point View Project is Senior Planner Eduardo Schonborn. He may be contacted at (310) 544-5228 or eduardos@rpv.com. The project manager for York Long Point Associates is Gary Weber, who may be contacted at (714) 569-0216.

UPDATE ON THE CITY'S TRASH AND RECYCLING CONTRACT

The City's current residential contracts with Waste Management and Universal Waste Systems expire on June 30, 2007. The City Council has decided to explore competitive opportunities at this time. Requests for Proposals (RFP) were sent out in June 2006 for residential and commercial solid waste and recycling services; however, contract extension options are also still available.

The deadline for companies to submit proposals to the City was September 26, 2006. The City Council has not made a decision on the frequency of trash collection

(once a week vs. twice a week), the method of trash collection, or container sizes at this time. A summary of the proposals will be presented to the City Council in mid October 2006. The deadline to either award new contract(s) or extend the current contracts is December 19, 2006. In order to get the facts, information, services and options that have been requested in the RFP, please refer to the City's website at: www.palosverdes.com/rpv.public-works or contact the Public Works Department by telephone at (310) 544-5252 or by email at PW@rpv.com.

COMPOSTING WORKSHOP

There will be a LA County sponsored composting workshop at the South Coast Botanic Garden, 26300 Crenshaw Blvd., Rolling Hills Estates on Saturday, October 14, 2006 from 9 a.m. to 11 a.m. The composting workshop is free, however, admission to enter the

Botanic Garden is \$7.00 for adults and \$5.00 for seniors and students with a school i.d. Discounted compost and worm bins will be sold (cash only) after the workshop. Take advantage of the City's composting/worm bin rebate program!

HOLIDAY PICKUP SCHEDULE

If you are 65 years or older, you are eligible for a senior citizen rate discount. Leave all containers at the curb by 7 a.m. on collection day.
