

# **LANDSLIDE SUBCOMMITTEE MEETING**

## **GOALS DEVELOPMENT**

### **JUNE 1, 2017**

The first meeting was held June 1, 2017, at Hesse Park and the main purpose of this meeting was to identify goals that the community in attendance had input towards. A short introduction was provided by Council Members Dyda and Duhovic which outlined the process and the major aspects of the land flow that would need to be addressed in the series of meetings. The attendees at this meeting identified the following goals that the subcommittee aligns with:

#### **CONTROL SLIDE and CONTROL THE COSTS**

- Decrease the cost of ongoing road repair
- Decrease resident inconvenience
- Decrease cost of slowing slide
- Home stabilization
- Eliminate the danger of City cut in 2, \* Danger (loss of thoroughfare)
- Retain PVDS
- Restore Ecology/Geology (Ocean & Land)
- Preserve ocean life/tide pools

#### **LEGAL PROTECTION SECURED**

- Explore possible geological hazard abatement district to protect city from costly and hazard-related damages
- Avoid a PV Estates situation
- Understand legal protection upfront

#### **PROTECT THE INTRGRITY OF THE NATURE PRESERVE**

- Oceanic and Land Ecosystems

#### **IDENTIFY PLAUSABLE POTENTIAL SOLUTION**

- 1) Intercept & Direct water to ocean
- 2) Reduce effect on surf zone erosion
- 3) Restore Ecology/Geology (Ocean & Land)
  - Preserve ocean life/tide pools

#### **Desired Result**

1. Structure a design-build RFP to solicit federal funding for contracting companies to provide cost vs. options for success in their responses
  - a. Project study report by experts
  - b. Create community consensus
