

Starting Monday, October 7<sup>th</sup>, Southern California Edison (SCE) will be in your area conducting aerial inspections of electric equipment, including the use of drones, Mondays - Saturdays. These inspections are important to ensure equipment is operating safely and lines are clear, keeping the community safe and to reduce the increasing threat of wildfires. The amount of time it takes to conduct aerial inspections varies.

This City has exempted SCE's use of drones from the "no drone" policy, as this is assisting and expediting the necessary inspections to help keep our community safe.

Please log in to [www.sce.com/outagealerts](http://www.sce.com/outagealerts) and update your contact information today to receive future information and updates from SCE.
