The Height Variation procedure is for the construction of residential structures taller than 16 feet, but not to exceed the maximum height of 26 feet when measured as defined in Section 17.02.040 of the Rancho Palos Verdes Municipal Code (RPVMC), as amended by Proposition M. The City's primary concerns in reviewing a Height Variation are the impact of the structure on the views from neighboring properties and from public areas, its cumulative impact on the affected properties, compatibility of the proposed structure with existing surrounding structures, and privacy impacts (See RPVMC Section 17.02.040). Section 17.02.030.B of the RPVMC

requires a finding of "Neighborhood Compatibility" for the proposed structure. In making such a finding, the City will review the proposed project relative to the following criteria for the immediate neighborhood: 1) scale of surrounding residences; 2) architectural style and materials; and 3) front, side, and rear yard setbacks. Additionally, Section 17.02.030.D(4)(a) of the RPVMC requires a privacy finding for the proposed balconies.

The reason you are receiving this notice is because your property is located within 500 feet of the proposed project. A temporary frame structure (silhouette) has been constructed on the project site outlining the height and bulk of the proposed residence. This frame will be in place throughout the duration of the public comment period to better assist you and the City in assessing any potential project impacts.

If you have any comments or concerns about the proposed project, please communicate those thoughts in writing via e-mail at [octavios@rpvca.gov](mailto:octavios@rpvca.gov) to Deputy Director of Community Development, Octavio Silva, by noon on Tuesday, July 6, 2021. Written comments submitted after noon, on Tuesday, July 6, 2021, will be given to the Planning Commission on the night of the meeting.
