NOTICE

NOTICE IS HEREBY GIVEN that the Director of Community Development of the City of Rancho Palos Verdes will consider an application for the following project:

HEIGHT VARIATION PERMIT & SITE PLAN REVIEW (CASE NO. PLHV2022-0010) – A request to allow the following improvements:

- Construct a 103 ft² first-floor addition, consisting of a 44 ft² garage addition and a 59 ft² living room addition, and a new 365 ft² second-floor addition (total 468 ft² addition) to an existing 2,345 ft² two-story residence resulting in a new total structure size of 2,813 ft² (garage included); and
- Construct ancillary site improvements including a new 59 ft² balcony, 9-foot-high detached pergola, and mechanical equipment.

The height of the proposed addition will be 22.47 feet, as measured from highest elevation of the existing grade covered by the structure (elev. 1,061.59 feet) to the highest proposed roof ridgeline (elev. 1,084.06 feet); and an overall height of 23.37 feet, as measured from lowest finished grade adjacent to the structure (elev. 1,060.69 feet) to the highest proposed roof ridgeline (elev. 1,084.06 feet).

LOCATION: 27725 LONGHILL DRIVE

APPLICANT: STEFANIE HAERING

LANDOWNER: SPENCER & VIVIAN THOMASON

This project is categorically exempt pursuant to California Environmental Quality Act, Article 19, Section 15301 (Existing Facilities).

The Height Variation procedure is for the construction of additions to existing residential structures taller than 16 feet, but not to exceed the maximum height of 26 feet when measured as defined in Section 17.020.040 of the Municipal Code (as amended by Proposition M). The City's primary concerns in reviewing a Height Variation are the impact of the structure on the views from neighboring properties and from public areas, its cumulative impact on the affected properties, and compatibility of the proposed structure with existing surrounding uses (see Municipal Code Section 17.02.040). RPVMC Section 17.02.030.B requires a finding of "Neighborhood Compatibility" for the proposed first and second story additions. In making such a finding, the City will review the proposed project relative to the following criteria for the immediate neighborhood: 1) scale of surrounding residences; 2) architectural style and

materials; and 3) front, side, and rear yard setbacks. Additionally, Section 17.02.030.D(4)(a) of the RPVMC requires a privacy finding for the proposed balcony.

The reason you are receiving this notice is because your property is located within 500 feet of the proposed project. A temporary frame structure (silhouette) has been constructed on the project site outlining the height and bulk of the proposed project. This frame will be in place throughout the duration of the public comment period to better assist you and the City in assessing any potential project impacts.

If you have any comments or concerns about the proposed project, please communicate those thoughts in writing to Assistant Planner, Krista Yost, by 5:30 pm on Monday, October 31, 2022. By doing so, you will ensure that your comments are taken into consideration for the staff analysis of the project. Please note that written materials, including emails, submitted to the City are public records and may be posted on the City's website. Accordingly, you may wish to omit personal information from your written materials as it may become part of the public record. Only those who have submitted written comments will receive notification of the decision. The Director's decision may then be appealed, in writing, to the Planning Commission.

If you would like the opportunity to review the application package and the proposed plans, they are on file in the Community Development Department at 30940 Hawthorne Boulevard, Rancho Palos Verdes, and are available for review by appointment from 7:30 a.m. to 5:30 p.m. Monday through Thursday, and from 7:30 a.m. to 4:30 p.m. Friday

If you have any questions regarding this application or to view the project plans, please contact Krista Yost at (310) 544-5233 or via email at kyost@rpvca.gov.
