## When Do I Need to Get a Building Permit?

As a public service reminder, building permits are required for all buildings or structures that are to be altered, repaired, enlarged, remodeled or converted, any change in the size of a room takes place, and when any mechanical, electrical or plumbing work is involved. Some examples of projects requiring permits include, but are not limited to:

- Room additions

In some cases, certain improvements also require approval from the City's Planning Division prior to any permit issuance.
