PLHA funds may be used for a variety of activities for housing-related projects and programs that assist in addressing the unmet housing needs of the local communities in California.

PROPOSED PLHA YEAR 5 PROGRAMS

- **ACCESSORY DWELLING UNIT (“ADU”) ASSISTANCE - \$40,000.00**
(Housing Element Program 5) Provide information on the various incentives the City offers to facilitate production of affordable ADUs, as follows:

Tier 1: Workforce. Provide grants of \$10,000 in exchange for affordability covenants.

Tier 2: Home Share. Administer a two-year trial for the creation of ADU or Junior ADU units through the provision of \$15,000 "low-mod income housing" and "affordable housing in-lieu" grants with a ten-year affordability covenant.

Creation of additional ADU and JADU housing through this program would create property sharing opportunities by two or more persons and render housing affordable to persons who could not otherwise afford housing individually due to the ability to share housing costs, yet maintain individual privacy. This could be of particular benefit to individuals with disabilities who need occasional assistance or female-headed households seeking additional security. The City will work with SBCCOG's Home Share South Bay Silvernest program to help place tenants in ADUs and Junior ADUs.

- **HOUSING CONSERVATION & REHABILITATION ASSISTANCE - \$25,636.00**
(Housing Element Program 22) The City will develop and implement a Residential Rehabilitation Program. The first component will aim to bring substandard housing units into compliance with City codes. The City's program would combine a pro-active canvassing of the City to identify substandard housing and a re-active complaint driven inspection process. The City's goal is code compliance and vacation of substandard housing is not anticipated. Property owners in violation of City codes are provided information on rehabilitation loans or grants they may be eligible for in correcting code violations. The program will assist lower income homeowners, including senior and disabled households, with funding for necessary materials and supplies for home repairs and improvements. The program would provide grants for the following activities: accessibility improvements, exterior or interior home repair, repair of fencing and/or landscaping, plumbing, exterior painting, roof repair, and similar activities. The maximum grant amount is \$5,000 per household, unless for exceptional circumstances as approved by the Community Development Director.
