(Description of Drainage facility)

Tract # 7145

APN: 7561-006,008,009

7559-012

Drain Plan: O6875

Easement: Unknown - excepting Via Colinita ROW

The system is a 24" pipe culvert that crosses Via Colinita just North of Maine Road.

More than likely the system was built when tract 7145 was developed in the late 1920's.

This system is a tributary to San Pedro Canyon.

(Accessibility, Damage, Inlet, Outlet, Potential Problems)

Access would be from Via Colinita. Damage potential is unknown. Very likely to encounter significant elevation, access and easement issues when replacing this system.

(Recommendations)

Field investigation of the status/condition of the system.
